

REPORT
ON THE
RIVER-BORNE TRAFFIC OF THE LOWER
PROVINCES OF BENGAL,
AND ON THE
INLAND TRADE OF CALCUTTA,
AND ON
THE TRADE OF CHITTAGONG AND THE
ORISSA PORTS
WITH NOTES ON ROAD TRAFFIC
FOR THE YEAR 1885-86.

PUBLISHED BY THE GOVERNMENT OF BENGAL.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1887.

TABLE OF CONTENTS.

	Page.
CHAPTER I.—EXPLANATION OF THE SYSTEM OF REGISTRATION	1
CHAPTER II.—GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS AND NOTICE OF PRICES	5
CHAPTER III.—Traffic on the Nudda rivers	12
CHAPTER IV.—Ditto Megna river, to and from Chittagong	20
CHAPTER V.—Ditto Midnapore and Hidgellee canals	22
CHAPTER VI.—Ditto Orissa canals and the Coast canal	27
CHAPTER VII.—Ditto Calcutta canals	31
CHAPTER VIII.—Ditto Brahmaputra and Megna rivers, internal and external (WITH ASSAM)—	
River-borne traffic carried by the River Steamer Companies	32
Traffic carried by the steamers of the Eastern Bengal State Railway	34
Trade of Bengal with Assam carried by country boats	37
CHAPTER IX.—Inland trade of Calcutta—	
Trade in the principal staples, namely,—	
Cotton, raw	39
Do. twist and yarn	41
Do. piece-goods	45
Indigo	52
Jute, raw	54
Gunny-bags	56
Gunny cloth	59
Food-grains	62
Wheat	63
Gram and pulse	66
Rice and paddy	68
Miscellaneous spring and rain crops	71
Hides	72
Salt	74
Saltpetre	80
Linseed	81
Mustard seed	84
Silk, raw	85
Sugar, drained and undrained	88
Tea, Indian	91
Tobacco	94
CHAPTER X.—Inland and sea-borne trade of Chittagong	97
CHAPTER XI.—Sea-borne trade of Orissa	102

APPENDICES.

APPENDIX A.—List showing the deduction to be made on account of packing, and the valuation of all articles of trade adopted in registering traffic on trade routes, during the year 1885-86	iii
Statement showing the average retail price of food-grains in the interior of Bengal during the year 1885, as compared with that of the three previous years	iv

APPENDIX B.—TRAFFIC CARRIED BY COUNTRY BOATS AND CARTS—

I.—Statement showing the number of boats and carts passing the several river, canal, and road registration stations in Bengal during 1885-86, as compared with the totals of the two previous years ...	v
II.—Statement showing the down and up-stream traffic passing the different toll-stations on the Nudda rivers registered during 1885-86, as compared with the figures of the two previous years ...	vi
IIA.—Statement showing the proportion of Calcutta traffic to the total trade carried along the Nudda rivers registered during 1885-86, as compared with the figures of the two previous years ...	x
III.—Statement showing the total trade passing downwards and upwards along the Midnapore canal, and the proportion of Calcutta traffic to the total trade, registered during 1885-86, as compared with the figures of the two previous years ...	xii
IIIA.—Statement showing the total trade passing downwards and upwards along the Hidgellee canal, and the proportion of Calcutta traffic to the total trade, registered during 1885-86, as compared with the figures of the two previous years ...	xvi
IV.—Statement showing the traffic as well as the general course of the traffic carried along the Orissa canals during 1885-86, as compared with the figures of the two previous years ...	xviii
IVA.—Statement showing the total trade passing downwards and upwards along the Orissa Coast canals, and the proportion of the Calcutta traffic to the total trade registered during the nine months from July 1885 to March 1886 ...	xxii
V.—Statement showing the total import trade of Calcutta passing along the Calcutta canals during 1885-86, as compared with the figures of the two previous years ...	xxiv
VA.—Statement showing the total export trade of Calcutta passing along the Calcutta canals during 1885-86, as compared with the figures of the two previous years ...	xxvi

APPENDIX C.—RIVER-BORNE TRAFFIC CARRIED BY INLAND STEAMERS—

I.—Statement showing the downward and upward traffic carried by river steamers during 1885-86, as compared with the figures of the two previous years ...	xxviii
II.—Statement showing the traffic carried by steamers along the Brahmaputra river during 1885-86, as compared with the figures of the two previous years ...	xxx
III.—Statement showing the traffic carried by steamers along the Megna river during 1885-86, as compared with the figures of the two previous years ...	xxxiv
IV.—Statement showing the total trade carried downwards and upwards along the Brahmaputra and Megna rivers by the steamers belonging to the Eastern Bengal State Railway during 1885-86, as compared with the figures of the two previous years ...	xxxviii
V.—Statement showing the total trade carried downwards and upwards along the Brahmaputra and Megna rivers by country boats during 1885-86, as compared with the figures of 1884-85 ...	xlii

APPENDIX D.—RAIL-BORNE TRAFFIC OF CALCUTTA—

I.—Statement showing the principal staples of traffic carried along the East Indian Railway and imported into Calcutta during 1885-86, as compared with the figures of the two previous years ...	xlvi
II.—Statement showing the principal staples of traffic carried along the East Indian Railway and exported from Calcutta during 1885-86, as compared with the figures of the two previous years ...	lxvii
III.—Statement showing the principal articles of traffic carried along the Eastern Bengal State Railway and imported into Calcutta during 1885-86, as compared with the figures of the two previous years ...	lxxvii

IV.—Statement showing the principal articles of traffic carried along the Eastern Bengal State Railway and exported from Calcutta during 1885-86, as compared with the figures of the two previous years	lxxxviii
--	-----	-----	-----	-----	----------

APPENDIX E.—INLAND TRADE OF CALCUTTA BY ALL ROUTES—

Statements relating to the trade in the principal staples, namely,—

Cotton, raw	xciv
Do. twist and yarn (European)	xcvii
Do. piece-goods	(ditto)	cii
Indigo	cxii
Jute, raw	cxv
Gunny-bags	cavii
Wheat	cxix
Gram and pulse	cxlxi
Rice	cxlxi
Paddy	cxlxi
Miscellaneous spring and rain crops	cxlxi
Hides of cattle	cxli
Salt	cxli
Saltpetre	cxli
Linseed	cxli
Mustard-seed	cxli
Silk, raw	cxli
Sugar, drained and undrained	cxli
Tea (Indian)	cxli
Tobacco	cxli

Statements relating to all staples of traffic—

Statement showing imports into Calcutta by internal routes during 1885-86, as compared with the figures of the two previous years	clxxiv
Statement showing exports from Calcutta by internal routes during 1885-86, as compared with the figures of the two previous years	clxxviii
Statement showing the quantities of all articles of trade imported into and exported from Calcutta by sea during 1885-86, as compared with the figures of the two previous years	clxxxii
Statement showing the values of all articles of trade imported into and exported from Calcutta by sea during 1885-86, as compared with the figures of the two previous years	clxxxvi
Statement showing the import trade of Calcutta with the principal marts in Bengal during 1885-86, as compared with the figures of the two previous years	clxxxviii
Statement showing the export trade of Calcutta with the principal marts in Bengal during 1885-86, as compared with the figures of the two previous years	clxxiv

APPENDIX F.—TRADE OF THE CHITTAGONG PORT—

I.—Statement showing the import trade of the Chittagong Port carried by country boats during 1885-86, as compared with the figures of the two previous years	cc
II.—Statement showing the export trade of the Chittagong Port carried by country boats during 1885-86, as compared with the figures of the two previous years	ccii
III.—Statement showing the trade of Chittagong with Naraingunge during 1885-86, as compared with the totals of the two previous years	cciv
Statements relating to the sea-borne trade of Chittagong during the years 1883-84, 1884-85, and 1885-86	ccv

APPENDIX G.—SEA-BORNE TRADE OF THE ORISSA PORTS—

I.—Statement showing the import trade of Balasore carried by sea during 1885-86, as compared with the figures of the two previous years	ccviii
---	-----	-----	-----	-----	--------

II.—Statement showing the import trade of Cuttack carried by sea during 1885-86, as compared with the figures of the two previous years	ccx
III.—Statement showing the import trade of Pooree carried by sea during 1885-86, as compared with the figures of the two previous years	ccx
IV.—Statement showing the export trade of Balasore carried by sea during 1885-86, as compared with the figures of the two previous years	ccxii
V.—Statement showing the export trade of Cuttack carried by sea during 1885-86, as compared with the figures of the two previous years	ccxiv
VI.—Statement showing the export trade of Pooree carried by sea during 1885-86, as compared with the figures of the two previous years	ccxiv

REPORT

ON THE

RIVER-BORNE TRAFFIC OF THE LOWER PROVINCES OF BENGAL

AND ON THE INLAND TRADE OF CALCUTTA,

AND ON THE TRADE OF CHITTAGONG AND THE ORISSA PORTS

WITH NOTES ON ROAD TRAFFIC

FOR THE YEAR 1885-86.

CHAPTER I.

EXPLANATION OF THE SYSTEM OF REGISTRATION.

THIS report deals with the trade registered on the rivers and canals of the Lower Provinces of Bengal, with the inland trade of Calcutta, and with the trade, inland and sea-borne, of Chittagong and the Orissa ports.

Statistics relative to the rail-borne traffic of these provinces in 1885-86 are reviewed in a separate report called the "Report on the Rail-borne Traffic of Bengal."

That report, besides giving an account of the rail-borne trade, internal and external, under the block system of registration, also gives the statistics of the total traffic carried by the State Railways in these provinces. The present report takes no account of rail-borne traffic except in the chapter which deals with the trade of Calcutta.

2. During the year under report no change was made in the system under which the internal trade of the province is registered on some of the rivers and canals, and the system of registration of the trade of Calcutta, Chittagong, and the Orissa ports also remained the same as in former years.

3. The statistics which are furnished in Chapters II to VIII of this report include—

Trade along the chief routes.

The boat traffic registered on the Nuddea rivers.

The boat and steamer traffic registered on the Brahmaputra and Megna rivers.

The boat traffic registered on the Midnapore and Hidgellee canals.

The boat traffic registered on the Orissa canals.

The boat traffic registered on the Calcutta canals.

4. The boat traffic on the Brahmaputra and Megna rivers, which crosses from Bengal into Assam and *vice versa*, is registered at Bhojrub Bazar and Dhubri under arrangements made by the Assam Administration: statistics of this traffic are incorporated in this report. Boat traffic on these rivers, which does not cross from one province to another, is not registered. The steamers plying on the Brahmaputra and Megna rivers between Bengal and Assam belong to the India General Steam Navigation Company, the Rivers Steam Navigation Company, and the Eastern Bengal State Railway. The steamers of the Inland Flotilla Company, which began to ply on the Brahmaputra in November 1884, ceased running from December 1885.

Since February 1886 the India General Steam Navigation Company has run steamers on the Ganges between Calcutta and the North-Western Provinces, and has opened stations at almost all the important trade centres on the Ganges in Behar. No stops have yet been taken to register the intermediate trade; but, in order that the statistics of the trade of Calcutta may be made as complete as possible, arrangements have been recently made to obtain particulars of the traffic carried by these steamers to and from Calcutta.

A new Company, called the Calcutta Steam Navigation Company, is running steamers between Calcutta and the places named in the margin, and statistics of the trade to and from Calcutta are obtained by Government from the records of the Company.

5. The acknowledgments of the Lieutenant-Governor are again due to the Agents of all the companies above named for the courtesy with which they have always permitted their trade statistics to be used by Government.

6. The inland trade of Calcutta, and the inland and sea-borne trade of Chittagong and of the Orissa ports, is described separately in Chapters IX to XI of this report. The entire inland traffic of Calcutta, imports as well as exports, carried by rail, by river steamer, by boat, and by road, is shown in this report. Comparative figures relating to the sea-borne trade of Calcutta in all the articles enumerated in the returns of internal trade are also given, but the sea-borne trade of Calcutta, coasting and foreign, is more fully dealt with in the annual report of the sea-borne trade and navigation of the Bengal Presidency. In regard to the chief staples, the details furnished show how the imports into Calcutta by sea are distributed over the country, and from what parts of India the goods that were exported by sea came. The boat and road traffic of Calcutta is registered by means of a cordon of registering stations, 26 in number, placed on the Hooghly and on the canals and roads round Calcutta and the suburbs. For Chittagong the returns exhibit the sea-borne trade, foreign and coasting, as well as that carried by country boats, while for the Orissa ports the sea-borne trade only is registered.

7. In paragraph 3, Chapter I of the Internal Trade Report for 1883-84, it was stated (1) that orders had been issued to register at the Karmnassa bridge, in the district of Shahabad, the road traffic carried along the Grand Trunk Road between Bengal and the North-Western Provinces; (2) that arrangements were being matured, in communication with the Government of the North-Western Provinces, to effect the registration of the river-borne traffic between these two provinces; and (3) that the Government of Madras had been addressed on the subject of the registration of the road traffic between Orissa and that Presidency.

Registration of the inter-provincial road trade at the Karmnassa bridge was commenced on the 1st December 1884; and sufficient information having been collected of the inter-provincial road trade, the registering staff was removed on the 1st October 1886.*

* The following is an abstract of the statistics collected from January to December 1885.

		IMPORTS FROM THE NORTH-WESTERN PROVINCES.			EXPORTS TO THE NORTH-WESTERN PROVINCES.			GRAND TOTAL.

Registration of the river-borne traffic between Bengal and the North-Western Provinces commenced in August 1884 at Balia on the Ganges, and at Maniar on the Gogra, the cost of registration being equally divided between the Governments of Bengal and of the North-Western Provinces. So little is known of the ultimate destination of the Ganges-borne trade that the statistics collected at Balia do not afford much useful information, and it was considered advisable to discontinue the registration at Balia from the 1st August 1886. As regards the Gogra-borne trade, however, which is much larger than the Ganges-borne trade, it has been decided to continue the registration at Maniar till the 31st March 1887, in order to observe the effect which the development of traffic on the Bengal and North-Western Railway may have on that trade.*

No arrangement has yet been made for registering the traffic between Orissa and the Madras Presidency.

In accordance with paragraph 4 of Circular Resolution No. 69 (Statistics)—11-9, dated the 16th May 1885, in which the Government of India drew attention to the importance of securing information as to trade routes of all kinds, whether lying wholly within the boundary of one province, or passing from one province to another, with the view of obtaining data for railway extension, a registering station was opened from the 1st October 1886 at Sherghati, in the Gya district (the staff formerly employed at the Karamnassa bridge being removed to this place). At Sherghati two lines of traffic cross each other, viz., one running east and west along the Grand Trunk Road, and the other going north and south converging upon Gya from Chattra, in the Hazaribagh district, and from Gharwa and Palamow, in the Lohardugga district. The information obtained by registration at this station will be of great use in the event of the Patna-Gya State Railway being ever extended southwards, or in the event of the chord line of the East Indian Railway being carried from Mogulserai to Burrakur along the Grand Trunk Road.

* The following summary shows the trade registered at Balia on the Ganges, and at Maniar on the Gogra from January to December 1885.

8. No change was made during the year in the classified list of goods which was prescribed in 1876 for registering the traffic carried by country boats, inland steamers, and by road; but certain amendments have been made in the list in use for registering rail-borne trade. As the last-named traffic is dealt with in a separate Report, the changes referred to have been noticed in that Report.

9. The question of revising the system in force in Bengal of valuing articles of trade has been under consideration, and certain modifications have been made in the method of assigning values to indigo, Indian tea, and cotton piece-goods. These changes have been noticed in paragraphs 11 and 13 of Chapter II of this Report. The usual statement showing the values adopted for all articles of trade is appended (page iii of the Appendices).

CHAPTER II.

GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS
AND NOTICE OF PRICES.

THE rainfall of April and May 1885 was generally deficient, but the south-west monsoon setting in early in June gave generally abundant rain except in Orissa and Behar. In July abundant rain fell everywhere except in Orissa, and in August and September the fall was excessive over the greater part of the Lower Provinces, and caused serious floods in Central and South-Western Bengal and in parts of the Bhagulpore Division. The Orissa Division was visited by a cyclone in September 1885, which caused grievous loss of life and property in the Cuttack district. The scarcity which existed in parts of the Burdwan Division for the first half of the year is noticed below. The outturn of the crops was generally good except in the deeply inundated low lands. Prices of food-grains were high in the Burdwan, Presidency, and Orissa Divisions, but elsewhere were lower than in 1884-85.

General summary of the season.

2. The rainfall in the Burdwan Division was generally abundant In the earlier months sowings both of *aus* and *amun* rice were retarded for want of moisture, but full amends were made later on; and had it not been for the damage done by the August floods, bumper harvests would have been secured throughout the Division. In the district of Burdwan both *aus* and *amun* yielded full average crops except in the Cutwa sub-division; in the Bankoora district the outturn is characterised by the local officers as "splendid," and in Beerbhoom the harvest is estimated at very slightly below the average. Three-fourths of the district of Midnapore derived benefit instead of harm from the heavy rain of August. In the Sudder sub-division the outturn was above the average, and everywhere else fair results were obtained except in Ghattal, where the *aus* harvest suffered considerably, and is said to have been only five annas. This was, however, in great measure compensated by a bumper crop of *boro* rice. The Sudder and Serampore sub-divisions of Hooghly reaped a 12-anna rice crop and in the unflooded tracts of Jehanabad the harvest was a bumper one. But in the parts exposed to the floods the whole crop was lost, the damage being but partly made up by very extensive cultivation of cold-weather crops. Howrah having lost a very large proportion of its winter rice, recouped itself to some extent by a good crop of *boro*.

Burdwan Division.

In Burdwan, Bankoora, and Beerbhoom the price of rice was high, owing to the prevalence of scarcity during the earlier part of the year, but this was compensated by a fall later in the year in consequence of the improved prospect of the crop. In Hooghly, Howrah, and Midnapore the rise in price is attributable to the loss of the crop caused by floods. The people were badly off in the districts of Burdwan, Bankoora, and Beerbhoom during the first half of the year owing to high prices and scarcity; and the relief operations which had to be undertaken in some places were continued until the month of November; but the good outturn of the rice crop placed them in better circumstances before the year closed. In Midnapore and Hooghly there was considerable suffering in the flooded tracts, and the condition of the weaver caste, which has been very much depressed for some years past, is said to have still further deteriorated; the rest of the population suffered no permanent change for the worse. In Howrah, owing to the ready market for produce of all kinds and the brisk demand for labour, even the floods, exceptionally disastrous as they were in this district, appear to have had but a slight effect on the condition of any class of the population.

3. The rainfall was above the average of the preceding five years in all the districts of the Presidency Division; but, except in Khulna, the fall was not well distributed, and

Presidency Division.

the crops suffered alternately from drought and flood. In the 24-Pergunnahs

the season began well, but an insufficient rainfall in July retarded the transplantation of rice, while the heavy downpour in August swamped large areas of the young crops. The total outturn, however (except in the tract affected by the September floods), is reported to have been nearly up to the average. In the small portion of Nuddea that was unaffected by the floods, the outturn of *aus* paddy was good, and throughout the district the soil, enriched by alluvial deposit left by the inundation, yielded excellent cold-weather crops. The cultivation of wheat is rapidly expanding in this district, and received a special stimulus from the loss of the winter rice in the year under review. Of the subdivisions of Jessore, Magoorah and Narail reaped good crops of winter rice, but lost most of the *aus* crop; while in the Sudder subdivision and in Bongong the floods had the reverse effect, destroying most of the *amun*, but only slightly injuring the *aus*. In Jhenidah, in spite of the inundations, the year is said to have been exceptionally prosperous. In Moorshedabad the distribution of the year's rain was very unfavourable to the crops, the whole of the *aus* paddy being destroyed by flood, while the yield of *amun* was up to the average only in the Kandy subdivision. Khulna enjoyed well-timed as well as plentiful rain; the floods affected only a small portion of the Satkhira subdivision, and everywhere else the crops were excellent.

The prices of food-grains, which had been high during 1884-85, rose still higher in 1885-86 except that in Nuddea and Moorshedabad the average price of rice is reported to have been somewhat lower than in the preceding year. The condition of the people during the year was not on the whole very satisfactory. It was affected by the floods to a greater or less extent in every district, while in Moorshedabad and Nuddea depression had been caused by drought in previous years.

4. Though the fall of rain came a little late in some districts in the

Rajshahye Division.

Rajshahye Division, it was sufficient and well distributed. Both the *aus* and *amun* rice crops, which

are the staples of the Division, were good except in the district of Rajshahye, where owing to floods the outturn of the *aus* crop was only 11 annas. Jute, which is the product next in importance, was somewhat deficient. The cold-weather crops and sugarcane were indifferent in Rajshahye, owing to the want of rain from November to February inclusive, but elsewhere the outturn was fair. Tobacco was a good average crop in Rungpore. There was a marked decline in the cultivation of ganja on account of low prices in the previous two years.

The prices of food-grains, though still high, were lower than in the preceding year. There is a general agreement among the district officers that the year was marked by exceptional prosperity. Debts and arrears of rent were paid, and there was an unusual number of marriages.

5. In the Dacca Division the rainfall was sufficient, and on the whole

Dacca Division.

well distributed, though in some parts, notably in

Furreedpore and Mymensing, floods were caused by excessively heavy rain in June, and the subdivision of Bhola in Backergunge suffered to some extent from an unusually copious fall in September. In Dacca the agricultural results were not good; although the *amun* crop was a bumper one in the Manickgunge subdivision, the outturn in the other three subdivisions varied from 10 to 12 annas. The crop was very full in Furreedpore, and quite up to the average in Mymensing and Backergunge. The less important *aus* crop was not so good, as it suffered more or less from excessive rain, especially in Furreedpore. Of other important crops, jute did well in Furreedpore, but not so well in Dacca; sugarcane was below the average in Furreedpore, while betelnuts were plentiful and cocoanuts sufficient in Backergunge.

There was very little change from the high prices of common rice in the previous year, and in Backergunge the rate even increased. There was no diminution in the prosperity of the agricultural classes, who are exceptionally well off in this Division, especially in Backergunge and Mymensingh.

6. In the Chittagong Division the rainfall of the year was above the

Chittagong Division.

average in all the districts, except the Hill Tracts, and was on the whole well distributed throughout

the Division. The rice crop was fair, but the jute crop in Tipperah was poor, and the cold-weather crops in Noakholly and the Hill Tracts were inferior.

Betelnut, which is a very important product of this Division, yielded an average outturn in Noakholly and Tipperah.

Rice sold a little cheaper in Chittagong and Tipperah and a little dearer in Noakholly. The condition of the inhabitants of the Division is almost always good, and was rather above the average during the year 1885-86.

7. The rainfall of the year in the Patna Division was abundant, and though in some places it was not well distributed, and in others it caused loss by reason of local floods,

Patna Division.

the crops were on the whole excellent. The *rabi* harvest was everywhere good, and the outturn of opium was entirely satisfactory. The *bhadoi* and *aghani* harvests were generally above the average.

The tendency of food prices has been to fall slightly, but not to the extent which might have been expected from the excellence of the harvests. A large amount of grain was exported, and it is believed that stocks have been replenished. The general condition of the people during the year under report was better than in the years immediately preceding. The good crops of the year have brought much relief after a succession of bad harvests. Plentiful stocks of food are believed to exist, and complaints of want are no longer heard. Labour was abundant, and there was no necessity of migrating to other parts of the country in search of food.

8. The rainfall in all the districts of the Bhagulpore Division was heavier than it has been since 1881-82: it was also very unevenly distributed over the different months of

Bhagulpore Division.

the rainy season, and the excessive fall in August and September was followed by floods in some part of every district. In Monghyr, Bhagulpore, Purneah, and Maldah the *bhadoi* crop suffered more or less; and in some parts of Bhagulpore and Purneah the *aghani* or winter rice crop was also affected. In Monghyr the rice on high lands sustained much injury owing to the early cessation of the rains. In the southern part of the district of Maldah the *bhadoi* crop was almost entirely destroyed. This loss was compensated by a fair outturn (14 annas) of winter rice, and an unusually large crop of *kalai*.

Prices of food-grains were on the whole much lower than in the previous year, owing to fair winter crops and prospects of a good *rabi* harvest. The condition of the people, never very satisfactory in the districts of this Division south of the Ganges, seems on the whole to have improved during the year under report, and they are slowly but surely recovering from the effects of previous bad seasons. In the district of Maldah there was some distress on account of the floods, but it was confined to a very limited area.

9. In the Orissa Division the rainfall was much less than in the preceding year. In Cuttack, however, a sufficient quantity of rain fell in July, August and September,

Orissa Division.

when it was most needed, and there would have been a bumper harvest, had not a terrible cyclone on the 22nd September destroyed all hopes of good crops in the Jajpur and Kendrapara subdivisions. In the Kuldeep pergunnah of Kendrapara, the whole of the cultivation was lost, and in the pergunnah of Kerora the loss amounted to 75 per cent. In Pooree the year was also an unfavourable one for the agriculturists. The scanty rainfall from the middle of May to that of June injured the crops to some extent and towards the end of June a sudden flood entirely destroyed the crops on the low lands, where replanting was impossible. There was also an unusual amount of rain in November and December, which, though advantageous to the spring crops, did considerable damage to the ripe crops in the ground. In Balasore the rainfall, though not up to the average of previous years, was well distributed, and the *sarad* rice crop (the only important crop in the district) was a full average one.

In Cuttack and Pooree the average price of rice was considerably higher than in the previous year, the figures for the two sudder subdivisions being 15 seers 8 chittacks and 17 seers 9 chittacks, respectively, against 18 seers 8 chittacks and 19 seers 9 chittacks in 1884-85. In Balasore, where prices are kept up in spite of good harvests, by the export trade, there was very little change. In Cuttack the cyclone left a considerable proportion of the population of two subdivisions almost destitute, and relief operations were carried on amongst them; while throughout the district the people were worse off than in the previous year. In Balasore a succession of good years has had a great effect in improving the material condition of the people. There is a considerable

increase in wealth, and the mode of living has much improved. In Pooree the general state of the people showed no marked change during the year.

10. Generally speaking, more rain fell throughout the Chota Nagpore Division than in the previous year, and it was distributed more evenly. The result was a good winter

rice crop everywhere, except in the western pergunnahs of Hazaribagh, in which the Deputy Commissioner writes that "a great deal of the higher lying lands had not been cultivated at all, and a great deal of what had been cultivated bore indications of the crops having been poor in a greater or less degree." The *bhadoi* crops were fair, except in Palamow, where they were injured by excessive rain in August. Singhbhum is reported to have been exceptionally fortunate, every important crop yielding a bumper outturn; and not less than a 14-anna crop of winter rice was harvested in any other district, except in Chattra sub-division of Hazaribagh, where the outturn is estimated at 8 annas. The yield of *mahua*, which is an important crop in Hazaribagh, is set down at 12 annas.

The average price of rice was lower than in the previous year in every district but Manbhum, where "the brisk demand for export to other parts of the province kept prices at a much higher level than they would otherwise have attained." The price of wheat fell in Hazaribagh and Lohardugga. Except in portions of Hazaribagh and Manbhum, the people were on the whole far better off than in 1884-85. Some parts of Hazaribagh have suffered for three or four years from scanty harvests; but the good opium crops of the past two years have counteracted to some extent the failure of food crops, and the good harvests of all important staples secured during the past year have considerably improved matters. In pergunnahs Kendi, Ahoori, and Choi, however, where the rainfall was again deficient, there has been no such improvement in the condition of the people. In the Giridhi and Kharokdiha thanas the cultivators are fortunate in having the collieries to turn to for work when their crops fail. In Manbhum a good deal of pressure were felt in many parts. There was something like a scarcity in pergunnah Bagda, where relief was promptly sent out. The distress, it is said, was intensified by the closing of work on the Bengal-Nagpore Railway, which threw some 13,000 persons out of work.

WHOLESALE PRICES OF AGRICULTURAL STAPLES.

11. The average wholesale prices ruling in Bengal during the past year for the principal agricultural staples are compared below with those of 1884-85:—

				Average wholesale price per maund during the year		Increase.	Decrease.
				1884-85.	1885-86.		
				Rs. A. P.	Rs. A. P.	Per cent.	Per cent.
Cotton, raw	13 12 0	16 0 0	16.36
Indigo	103 0 0	219 0 0	13.47
Jute, raw	3 4 0	3 4 0
Grain and pulse—							
1. Wheat	2 4 0	2 5 0	2.78
2. Gram	2 4 0	2 5 0	2.78
3. Pulses	2 4 0	2 4 0
4. Other spring crops	2 1 0	2 0 0	3.03
5. Rice, husked	2 12 0	2 14 0	4.55
6. Do., unhusked	2 0 0	1 11 0	15.63
7. Jowar and bajra	2 0 0	2 0 0
8. Other rain crops	2 0 0	2 0 0
Lac—							
1. Dye	26 12 0	25 0 0	6.54
2. Shell	37 0 0	30 8 0	17.57
3. Stick	45 0 0	45 8 0	1.11
4. Other kinds	20 8 0	18 0 0	12.19
Oilseeds—							
a. Linseed	3 12 0	4 0 0	6.67
b. Mustard seed	3 8 0	3 4 0	7.14
c. Til or jinjili	3 8 0	3 12 0	7.14
d. Castor	3 2 0	3 2 0
e. Poppy	4 8 0	4 6 0	2.78
f. Other kinds	2 12 0	3 0 0	9.09
Ghee	30 0 0	33 0 0	10.00
Sugar—							
1. Drained	13 0 0	11 8 0	11.54
2. Undrained	8 12 0	4 8 0	48.57
Tea, Indian	60 0 0	52 0 0	13.33
Tobacco	7 8 0	7 12 0	3.33

The rise in the price of raw cotton is due to the better quality of the crop in the past year than in 1884-85. The Collector of Customs, Calcutta, remarks that "the fall in exchange had the effect of keeping up prices, as the exporters could afford to pay a higher price in India and yet lay cotton down in London at the same sterling price as before." The fluctuations in the price of indigo and tea are due to the fact that the values assigned to these products during the past year were those shown by the Calcutta brokers, whereas the prices quoted for 1884-85 were obtained from the local officers of selected districts. The large decrease of 48·57 per cent. in the price of "undrained" sugar is due to coarse kinds of sugar having been classed by district officers in 1884-85 under this head instead of under "drained" sugar, while the price of "undrained" sugar given for 1885-86 represents the price of *gur* or jaggery.

RETAIL PRICES OF FOOD-GRAINS.

12. The average retail prices which ruled in Bengal during the year 1885 for all sorts of food grains are compared with those of the preceding three years:—

		QUANTITIES PER RUPEE IN SEERS OF 80 TOLAHS.						
		Wheat.	Barley.	Rice.		Lesser millets.	Maize or Indian corn.	Gram.
				Best sort.	Common.

Provinces within the Lieutenant-Governorship of Bengal ...	{ Average price for 3 years (1882-84) ...	15 5	21 13	15 14	21 11	22 6	31 13	19 4
	{ Ditto for 1885 ...	16 8	19 0	12 11	17 4	22 12	24 7	17 1

Of the six staples named above, the only two which showed a falling off in price during the year as compared with the average of the three previous years were wheat and lesser millets, the decrease being 7·76 per cent. in the case of the former, and 1·68 per cent. in that of the latter. Under barley the average rise in price was 12·89 per cent., under rice (best sort) 20·08 per cent., under common rice 20·46 per cent. The greatest rise under common rice was in the under-mentioned districts:—

		QUANTITIES PER RUPEE IN SEERS OF 80 TOLAHS.		
		Average of 3 years, 1882-84.	Average of 1885.	Difference
		S. c.	S. c.	S. c.

The advance in the price of Indian corn amounted to 23·18 per cent. and under gram to 11·36 per cent., as compared with the average price of the three previous years.

PRICES OF OTHER STAPLES.

13. On the subject of the valuation of cotton piece-goods, it was stated in paragraph 23, page 43 of the last year's report that the result of the enquiries made in 1884-85 by

Piece-goods.

Collectors of selected districts, to ascertain the average wholesale prices of piece-goods per bale and box, proved entirely infructuous; and in order that a correct valuation of the trade in these goods for statistical purposes might be arrived at, it was suggested to the Government of India that the Railway authorities, who carry more than five-sixths of the entire exports from Calcutta, should register the trade in these goods by value as well as by weight. After consulting the various railway administrations of the country, the Government of India, however, were of opinion that any attempt to compel consignors to state the values of goods tendered by them for transmission by rail would probably be distasteful to the mercantile community; and it was also considered that the statistics which might be obtained by this method would, owing to the fact that no check could be applied to the statement of peons or other servants in charge of the goods, be of very doubtful value. Under these circumstances the Government of India have decided not to make any change in the existing arrangements for ascertaining the value of these goods. It has been necessary, therefore, to revert to the old system of valuing these goods upon the basis of the Custom House returns of Calcutta, in the manner explained in paragraphs 28 and 29, page 50 of the Report on the Internal Trade of Bengal for the year 1879-80. The following statement, which has been prepared from the Custom House returns since the year 1875-76, shows the fluctuations in the prices of European cotton piece-goods per yard when first imported into Calcutta:—

YEAR.	Grey piece-goods.		White piece-goods.		Coloured, printed, and dyed piece-goods.		Average price of all sorts of piece-goods.	
	Per yard.		Per yard.		Per yard.		Per yard.	
	A.	P.	A.	P.	A.	P.	A.	P.
1875-76 ...	1	11 $\frac{3}{4}$	2	1 $\frac{1}{2}$	2	9 $\frac{1}{2}$	2	4 $\frac{1}{2}$
1876-77 ...	1	10 $\frac{1}{2}$	2	3	2	7 $\frac{1}{2}$	2	3
1877-78 ...	1	10 $\frac{3}{4}$	2	1	2	3 $\frac{1}{2}$	2	1
1878-79 ...	1	9	2	0 $\frac{3}{4}$	2	1 $\frac{1}{2}$	2	0 $\frac{3}{4}$
1879-80 ...	1	9 $\frac{1}{2}$	2	2	2	5	2	1 $\frac{1}{2}$
1880-81 ...	1	10	2	1	2	6	2	1 $\frac{1}{2}$
1881-82 ...	1	2	2	1	2	4	1	10 $\frac{1}{2}$
1882-83 ...	1	9 $\frac{1}{2}$	2	2 $\frac{3}{4}$	2	3	2	1 $\frac{1}{2}$
1883-84 ...	1	0 $\frac{1}{2}$	2	2	2	4	1	10 $\frac{1}{2}$
1884-85 ...	1	8 $\frac{1}{2}$	2	1 $\frac{1}{2}$	2	2	1	11 $\frac{1}{2}$
1885-86 ...	1	8 $\frac{1}{2}$	2	1 $\frac{1}{2}$	2	1 $\frac{3}{4}$	1	11 $\frac{1}{2}$

It will be seen from the prices quoted above, that a yard of piece-goods, which was valued at 2 annas 3 pies in 1876-77, was worth only anna 1-11 $\frac{1}{2}$ during 1885-86, or, in other words, the price of these goods has fallen during the year under report by 13·58 per cent. as compared with 1876-77. In the latter year it was ascertained, as explained in paragraph 323, page 95 of the Report on the Internal Trade of Bengal for that year, that the average value of a maund of piece-goods of all sorts when first imported into Calcutta was Rs. 64. If, therefore, 13·58 per cent. be deducted from this valuation, the average value of these goods would be Rs. 50-6-8 $\frac{1}{2}$ per maund, to which must be added, as on previous occasions, 25 per cent. on account of freight, insurance, landing charges, detention in Calcutta, agency charges of all kinds, brokerage, &c., &c. The net value of a maund of these goods would therefore amount to Rs. 63-0-4 $\frac{1}{2}$, but for the purposes of this report Rs. 63 have been taken to represent the value of a maund in these provinces. That this is approximately a correct valuation is in great measure borne out by the statistics of the Calcutta trade. All exports from Calcutta to the interior by rail and by river steamers are registered by weight in maunds, while the exports by country boat, sea, and road are registered by value. The aggregate number of maunds exported by rail from Calcutta to other place in India during the year was 17,25,728 and by river steamers, 1,26,095 $\frac{7}{8}$; the value of these quantities

taking Rs. 63 as the equivalent of a maund, was Rs. 11,66,64,904. To this must be added Rs. 1,25,50,181 the declared value of the quantity carried out of Calcutta by road, river, and sea; the total value of piece-goods internally exported was, therefore, Rs. 12,92,15,085. The whole of the imports into Calcutta aggregated Rs. 13,51,00,625 in value. It appears, therefore, according to the valuation now adopted that of the imports 95·65 per cent. were distributed to places outside Calcutta, and only 4·35 per cent retained. This is not inconsistent with known facts, namely, that stocks have been considerably depleted in 1885-86, as will be seen from the following statement of the Collector of Customs on the subject of grey piece-goods:—

“One satisfactory feature of the past year’s trade is that there was no increase in stocks and portions of the enormous accumulation of the previous year have apparently been cleared out of importers’ hands.”

If last year’s equivalent, Rs. 72 per maund, were adopted the result would be to show a total export to the value of Rs. 14,58,81,500 which would exceed the imports, of the year by Rs. 1,07,80,875. It is impossible that the stocks previously in hand, large as they were, can have been sufficient to meet such a drain as this. In all descriptions of white piece goods “stocks in first hands show decreases,” while as regards coloured, printed, or dyed goods, “last year’s receipts were the largest since 1880-81. The trade has not, however, been of a satisfactory nature, as the imports received about the middle of the year did not meet with a profitable market, as prices fell and losses were incurred.”

In the case of the prices of other articles shown in the valuation statement appended to this report, it will be observed that the most marked fluctuations occurred in the values of raw silk (Foreign and Indian), silk piece-goods (Foreign and Indian), woollen piece-goods (Foreign and Indian), and shawls. No satisfactory explanation can be given of the variations in the prices of these articles owing to the uncertainty of the present method of valuation referred to in paragraph 6 of chapter I of the report on the rail-borne trade of Bengal for 1885-86.

CHAPTER III.

CHIEF WATER-BORNE TRADE.

TRAFFIC ON THE NUDDEA RIVERS.

The following statement shows the amount of traffic carried on the Nuddea rivers during the past year, as compared with the preceding two years:—

1	2	3	4	5	6	7
TOLL STATIONS.	DOWN-STREAM.		UP-STREAM.		TOTAL.	
	Weight.	Value.	Weight.	Value.	Weight.	Value.

2. Last year the aggregate quantity of merchandise registered was 9·04 per cent. below the trade of 1884-85, and 9·74 per cent. below that of 1883-84. Compared with the previous year, the falling off in the down traffic was 6,83,415 maunds, or 9·68 per cent., and in the up traffic, 2,03,770 maunds, or 7·39 per cent. The returns received from Jungypore and Kishengunge exhibited an increase of 1,32,973 maunds and 1,10,561 maunds, respectively, as compared with 1884-85; while those received from Nuddea and Hanskhally showed a large decrease of 4,21,696 maunds and 7,09,023 maunds, respectively. The condition of the Jellinghee river is still unsatisfactory; the Collector of Tolls writes:—

“The traffic on this river, it seems, is on the decline, owing chiefly to the unfavourable state of the river.”

Regarding the Matabhanga route, the Collector of Tolls makes the following remarks:—

“The falling off of traffic is due to several causes, notably the floods, during the height of which the through traffic was virtually stopped, and the whole country being submerged to the depth of from 5 to 10 feet, large number of boats escaped the payment of toll altogether. Again, large quantities of jute, pulses, &c., from the eastern districts, salt and coal from Calcutta were carried by the river steamers which, owing to their companies being in competition with the Flotilla Company, carried cargo at rates with which the country boats could not compete. In October there was a revival of traffic, but it again fell off in November owing to reports being spread as to the unfavorable state of the river.”

3. The articles which contributed most to the decrease in the downward traffic as compared with the preceding year were wheat (2,64,655 maunds), gram and pulse (2,13,571 maunds), miscellaneous spring crops (67,575 maunds), rice (60,297 maunds), stone and marble (1,24,989 maunds), timber (1,00,507 maunds), and miscellaneous saline substances (40,802 maunds); while linseed and mustard seed showed an advance of 1,33,822 maunds, and 53,431 maunds, respectively. In the upward trade, the chief rise was in European cotton piece-goods (Rs. 6,37,745), gunny-cloth (118,687 pieces), and in salt

(47,277 maunds), against a decrease of 1,44,181 maunds under coal and coke, 81,957 maunds under paddy, and 42,619 maunds under iron. The following statement shows the number of laden boats, the cargoes of which were registered during the past three years:—

* Manufactures of silk are shown according to value in rupees.

The fluctuations of the total Calcutta traffic will be explained elsewhere in this report; a brief notice is given here of the principal fluctuations of the intermediate traffic along this route.

5. *Jute, raw*.—The quantity registered was 12,00,290 maunds, showing a decrease of 22,286 maunds as compared with 1884-85, and of 4,14,628 maunds as compared with 1883-84. The Collector of Tolls, Matabhanga river, observes that “during the rainy season large quantities were carried by the river steamer companies at rates with which country boats could not compete” Excluding the Calcutta portion of the trade, there remained 2,94,200 maunds, of which 2,92,148 maunds were shipped for Bhuddressur, which derived its supply chiefly from Dulalgunge (2,85,952 maunds), a mart in the Purneah district. The amount of raw jute carried by this route formed but a small fraction (7·37 per cent.) of the total quantity imported into Calcutta by all routes.

6. *Gunnies*.—The result of the past year's registration exhibited a decrease of 74,682 bags on the trade of 1884-85, and of 784,463 bags on that of 1883-84. The number sent to Calcutta during 1885-86 was 186,480 bags, and to other places 88,650 bags, of which 79,725 bags were shipped for Bhuddressur. Practically the whole of the latter quantity was supplied by Dulalgunge (79,725 bags) in Purneah.

7. *Wheat*.—Under this head there was a decrease of 2,64,655 maunds as compared with the previous year, and of 6,15,999 maunds as compared with 1883-84. The decline is partly due to deficient crops in the producing districts, and partly to a large quantity of wheat having been carried by rail. Out of the total supply during the past year, 5,52,323 maunds were sent to Calcutta, and 10,559 maunds distributed among the different marts in Moorshedabad (7,529 maunds), Burdwan (1,687 maunds), Hooghly (999 maunds), and Nuddea (344 maunds). The quantity shipped for Calcutta by this route was 7·39 per cent. of the total imports, against 90·80 per cent. attracted to the East Indian Railway, and 1·04 per cent. to the Eastern Bengal State Railway.

8. *Gram and pulse*.—There was a very large decrease in this trade, the total quantity being 6,58,514 maunds, against 8,72,085 maunds in 1884-85, and 8,59,641 maunds in 1883-84. The quantity sent to Calcutta was 6,26,703

maunds, the remainder (31,811 maunds) having been despatched to marts in Hooghly (10,613 maunds), Nuddea (7,424 maunds), Moorshedabad (7,371 maunds), Burdwan (5,195 maunds), and other districts (1,208 maunds). The quantity of gram and pulse carried downwards along the Nuddea rivers represented 19·04 per cent. of the total import traffic of Calcutta in this article.

9. *Rice and paddy.*—The weight of rice and paddy registered during the past three years, is shown in the following statement:—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
Rice	6,35,661	2,55,089	1,94,792
Paddy	14,700	25,144	44,125
Total in rice, after converting paddy into rice, at the rate of 25 seers of rice to a maund of paddy			6,44,819	2,70,804	2,22,370

Apart from the Calcutta traffic, there remained 36,362 maunds of rice and 41,560 maunds of paddy, the distribution of which was as follows:—

Names of importing marts.

Other places	5,233	1,241	6,009
Total			36,362	41,560	62,337

The quantity of rice carried by this route was but 4·28 per cent. of the total supply imported into Calcutta by all routes.

10. *Mats.*—The total value of mats was Rs. 12,186, showing a decrease of Rs. 3,794 as compared with 1884-85, and an increase of Rs. 5,978 when compared with 1883-84. The supply sent to Calcutta amounted in value to Rs. 2,794; the remainder (Rs. 9,392 worth) was consigned to the following districts:—

						1885-86.
						Rs.
Nuddea	9,215
Hooghly	177
Total						9,392

11. *Oilseeds.*—The total quantity of oilseeds registered during the past three years was—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
Linseed	10,47,938	10,10,815	11,44,637
Mustard seed	3,73,697	8,21,388	8,74,819
Other oilseeds	1,76,662	1,84,103	1,72,175
Total			15,98,297	20,16,306	21,91,631

The increase during the past year amounted to 8·69 per cent., and 37·12 per cent. as compared with the figures of the two previous years, respectively. Owing to a good demand in Calcutta, the linseed trade rose from 10,10,815 maunds in 1884-85, to 11,44,637 maunds in 1885-86; while under mustard seed the figures showed an advance of 53,431 maunds. The quantity of linseed imported into Calcutta during the past year was 11,32,937 maunds, and the despatches to other places aggregated 11,700 maunds, out of which 9,283 maunds were shipped for Bhuddessur, which obtained its supply chiefly from Dulalgunge (6,391 maunds.) The quantity of mustard seed brought down to Calcutta was 8,18,417 maunds; the distribution of the remaining 56,402 maunds is shown below—

Importing districts.			Mds.	Sources of supply.			Mds.
Hooghly	37,651	Purneah	30,898
Moorshedabad	13,869	Ghazipore	3,818
Burdwan	2,554	Moorshedabad	2,911
Nuddea	1,053	Sarun	2,657
Other places	1,275	Monghyr	1,980
				Pubna	1,255
				Other places	3,883
Total			56,402	Total			56,402

The quantity of linseed and mustard seed carried to Calcutta by this route was 17·92 per cent. and 26·67 per cent., respectively, of the total imports of these seeds by all routes; while the supply consigned by the East Indian Railway was 73·39 per cent. and 50·11 per cent., respectively, and that by River Steamers 0·39 per cent. and 22·11 per cent., respectively.

12. *Silk, raw.*—There has been a satisfactory revival in this trade, the total quantity registered being 636 maunds, against 138 maunds in 1884-85, and 408 maunds in 1883-84. The quantity brought down to Calcutta was 302 maunds, and of the remaining 334 maunds, the local traffic of the Moorshedabad district amounted to 120 maunds; while 111 maunds were carried to Jungypore in Moorshedabad from Maldah. The quantity shipped for Calcutta by this route was 1·25 per cent. of the total imports by all routes, against 71·77 per cent. attracted to the railway, and 26·38 per cent. to the river steamers.

13. *Silk, manufactured.*—There was a large increase under this head, the total value of these goods registered being Rs. 38,350, against Rs. 20,118 in 1884-85, and Rs. 23,750 in 1883-84. It is said that the large increase under this head is to be ascribed to a large consignment of silk goods which was sent by boat to Calcutta by an Arab merchant. The entire supply found its way to the Moorshedabad district, as the following statement will show:—

Importing mart.			Rs.	Sources of supply.			Rs.
Khagra in Moorshedabad	38,350	Shibgunge, in Maldah	27,250
				Kanshat	11,100
				Total	38,350

14. *Sugar, drained.*—The trade under this head showed a decrease of 9,078 maunds as compared with 1884-85, and of 57,927 maunds as compared with 1883-84. The quantity sent to Calcutta during the past year was 6,654 maunds, while the remaining 2,245 maunds were consigned in small quantities to marts, in Moorshedabad (1,733 maunds), and other places (512 maunds). The amount of drained sugar carried by this route forms but a small fraction of the total quantity imported into Calcutta by all routes.

15. *Sugar, undrained.*—As in the case of drained sugar, so in the case of undrained sugar, the figures showed a heavy falling off, namely, 15,189 maunds as compared with the previous year, and 19,186 maunds as compared with 1883-84. The outturn of the year's crop was poor, which accounts for the large decrease shown above. The quantity shipped for Calcutta by this route was 1·71 per cent. of the total imports, against 32·09 per cent. attracted to the railway, and 19·61 per cent. to road routes. After deducting the supply sent to Calcutta, there remained 19,524 maunds, out of which 8,132 maunds were consigned to different marts in Hooghly, 5,088 maunds to Moorshedabad, 5,050 maunds to Burdwan, and 1,254 maunds to other places.

16. *Tobacco*.—There was an increase of 14,637 maunds in the quantities registered during the past year as compared with 1884-85, but a decrease of 45,945 maunds is shown when compared with 1883-84. The increase is attributed to the favourable state of the tobacco market last year. The amount of tobacco carried by this route was 6.65 per cent. of the total imports into the Calcutta market. Out of the total supply during the past year, Calcutta imported 42,735 maunds, and the remainder (1,12,673 maunds) was distributed among the marts named below—

Importing marts.				Sources of supply.			
Marts.	Districts.		Mds.	Districts.			Mds.
Bhuddressur ...	Hooghly ...		86,344	Purneah ...			99,881
Jeaungo ...	Moorshedabad...		12,370	Monghyr ...			8,894

				Mozufferpore ...			275
				Maldah ...			257
				Other places ...			357
Total ...			1,12,673	Total ...			1,12,673

17. *Timber*.—The weight of timber registered was 2,02,656 maunds, showing a decrease of 1,00,507 maunds on the returns of 1884-85, but an increase of 1,08,388 maunds on those of 1883-84. The falling off was due to an unfavourable market. The traffic outside Calcutta amounted to 19,539 maunds, of which 11,049 maunds were carried to Hooghly, 4,428 maunds to Nuddea, and 4,062 maunds to other districts.

18. *Up-stream traffic*.—The principal articles of up-stream traffic registered during the past three years were as follows:—

1	2	3	4	5	6	7	8	9	10
UP-STREAM TRAFFIC REGISTERED AT							PROPORTION OF CALCUTTA TRAFFIC TO THE TOTAL TRADE.

* Piece-goods are shown according to value in rupees, gunny-bags in number, and gunny-cloth in pieces.

19. *Coal and Coke*.—This trade fell from 5,15,026 maunds in 1883-84 to 3,49,159 maunds in 1884-85, and to 2,04,978 maunds in 1885-86. The exports

from Calcutta amounted to 1,83,001 maunds, and from other places to 21,977 maunds. The distribution of the past year's supply, district by district, is shown below—

Importing Districts.

Mds.				Mds.			
Nuddea	1,10,810	Burdwan	5,194
Rajshahye	27,012	Sonthal Pergunnahs	2,800
Pubna	15,375	Bhagulpore	2,087
Dacca	11,475	Monghyr	1,750
Maldah	9,960	Mymensing	1,700
Jessore	8,615	Other places...	1,500
Moorshedabad	6,700				
				Total	2,04,978

20. *Cotton piece-goods, European*—The registered trade in these goods amounted in value to Rs. 6,88,270, which was Rs. 6,37,745 over the trade of 1884-85, and Rs. 6,56,342 over that of 1883-84. The value of piece-goods exported from Calcutta rose from Rs. 44,800 in 1884-85 to Rs. 1,90,920 in 1885-86, and that exported from other places from Rs. 5,725 to Rs. 4,97,350. The increase is due to the temporary divergence of the trade from the railway to country boats on account of the stoppage during nearly the whole of September 1885 of through-booking of goods with the Eastern Bengal State Railway, consequent upon serious breaks on that line caused by floods. The following statement shows the places from which and to which the supplies went during the past year:—

Importing districts.

Sources of supply.

Rs.				Rs.			
Nuddea	4,39,120	Nuddea	3,57,500

Purneah	8,000				
Other places	1,200				
Total	6,88,270				

21. *Gunny-cloth*.—There was a considerable increase in the trade in gunny-cloth, of which 350,844 pieces were exported from Calcutta during the past year, against 258,435 pieces in 1884-85, and 220,170 pieces in 1883-84. The exports from other places also rose from 28,779 pieces in 1883-84 to 32,910 pieces in 1884-85, and to 59,188 pieces in 1885-86. The different districts to which gunny-cloth was sent in large quantities during the past year are detailed below—

Importing Districts.

Pieces.				Pieces			
Durbhunga	173,374	Moorshedabad	7,550
Monghyr	112,195	Chumparun	7,000

23. *Iron and its manufactures.*—This trade amounted to 54,411 maunds, against 97,030 maunds in 1884-85, and 91,475 maunds in 1883-84. Almost the whole of the past year's supply was despatched from Calcutta, which exported 50,228 maunds, while 4,183 maunds were sent from other places. The largest importing districts in connection with this traffic were as follows:—

Principal Importing Districts.

	Mds.		Mds.
Patna ...	9,855	Moorshedabad ...	2,121
Purneah ...	6,739	Monghyr ...	1,990

Maldah ...	2,700		
Pubna ...	2,549	Total ...	54,411
Ghazipore ...	2,515		

24. *Salt.*—The total of the salt trade was 10,90,967 maunds, which showed an advance of 47,277 maunds as compared with 1884-85, but a decrease of 31,696 maunds as compared with 1883-84. The details of this traffic will be found in the Calcutta section of this report.

CHAPTER IV.

TRADE ON THE MEGNA RIVER, TO AND FROM
CHITTAGONG

The total quantity and value of the inter-local boat traffic of Chittagong *via* the Megna river registered during the past three years were as follows:—

	1883-84.		1884-85.		1885-86.	
	Quantity. Mds.	Value. Rs.	Quantity. Mds.	Value. Rs.	Quantity. Mds.	Value. Rs.
Imports ...	16,16,458	42,17,319	12,91,148	55,10,384	16,05,385	51,15,463
Exports ...	2,68,117	2,64,110	3,85,727	3,71,631	5,57,758	8,77,155
Total ...	18,84,575	44,81,429	16,76,875	58,82,015	21,63,143	59,92,618

2. There was a satisfactory revival in the trade during the past year, the increase in the quantities carried both ways being 29 per cent. as compared with 1884-85, and 14.78 per cent. as compared with 1883-84. The imports were so much as 24.34 per cent. over the figures for 1884-85, but they showed a slight falling off of .68 per cent. on the returns of 1883-84; while in the exports there was an advance of 44.60 per cent. on the trade of 1884-85, and of 108.03 per cent. on that of 1883-84. In the import trade, the figures under rice (2,73,519 maunds) and paddy (1,94,255 maunds) showed a marked increase; while under exports, the most noticeable items showing an advance over the previous year's figures are bamboos (2,73,392 in number), timber (76,156 maunds), oils (2,750 maunds), raw cotton (2,319 maunds), and brass and copper (1,220 maunds).

3. The following comparative statement shows all the principal articles carried to and from Chittagong by this route during the past three years:—

The fluctuations of trade will be explained in the section (Chapter X) dealing with the trade of Chittagong.

CHAPTER V.

TRAFFIC ON THE MIDNAPORE AND HIDGELLEEE CANALS.

The amount of traffic carried on the Midnapore and Hidgellee canals during the past three years, is shown in the following table:—

1	2	3	4	5	6	7
NAMES OF CANALS.	DOWN.		UP.		TOTAL.	
	Weight of goods registered by weight.	Value of all articles of trade.	Weight of goods registered by weight.	Value of all articles of trade.	Weight of goods registered by weight.	Value of all articles of trade.

Total { 1883-84	24,18,650	1,40,61,210	26,95,797	1,25,98,028	51,14,447	2,06,59,238
... .. { 1884-85	26,04,788	1,07,33,081	21,92,562	1,12,40,158	47,97,350	2,19,79,339
... .. { 1885-86	27,81,050	88,20,393	20,54,869	91,17,272	48,35,559	1,80,37,640

2. The increase in the gross quantity registered during the past year was 38,209 maunds, or 0·80 per cent., as compared with 1884-85, but the figures show a decrease of 2,78,888 maunds, or 5·45 per cent. in comparison with 1883-84. The increase was mainly in the downward traffic, which rose from 24,18,650 maunds in 1883-84 to 26,04,788 maunds in 1884-85, and 27,81,050 maunds in 1885-86. Along the Midnapore canal, the tidal reaches of which were closed from the 15th February to 31st March 1886 for repairs, the total quantity fell by 66,004 maunds, or 1·88 per cent. on the returns of the previous year. In his revenue report for 1885-86 the Executive Engineer, Cossye Division, observes that the decline in the navigation receipts of the Midnapore Canal may be “accounted for by the exceptional character of the year as regards floods and loss to property and means to purchase, and it is hoped that the up or export trade will recover itself next year.” He adds—“The Collector is of opinion that the opening of the Tarkessur Railway is the cause of the general decrease that has taken place in the traffic, as this line might now be carrying imports to the Northern districts which formerly entered by the canal.”

In connection with the Hidgellee Tidal Canal, the traffic on which increased by 1,04,213 maunds, or 8·09 per cent. as compared with the preceding year, the Executive Engineer, Balasore Division, offers the following remarks:—

“The total revenue receipts for the year amount to Rs. 52,789 against Rs. 43,506 in 1884-85, showing an increase of Rs. 9,283.

“The amount of total increase in the gross revenue would probably have been much larger but for the following reasons:—

1st.—Range II was only opened on the 15th May 1885 after silt clearance, thus for one and a half months out of the 12 no tolls were collected.

2ndly.—The silting of both ranges towards the end of the year, preventing the plying of boats of deep draught.

3rdly.—The accumulation of silt in the lock entrances, preventing the entrance of boats till nearly high tide.

“The estimate for the remodelling of the Hidgellee Canal provides effectual remedies for these very serious obstructions, but until they are put in hand little can be done to improve matters.

“There is no doubt that when the coast canal is open, and the proposed improvements made in the Hidgellee Canal, the condition of the latter will be immensely improved.”

3. Of all staples, the traffic in paddy showed the largest increase, namely, 7,17,550 maunds as compared with 1884-85. The other important items which showed an increase were European cotton twist and yarn (11,131 maunds) and oils (12,862 maunds). The articles in which the decrease was most marked were rice (1,45,183 maunds), timber (1,16,082 maunds), European cotton piece-goods (Rs. 1,83,685 in value), Indian cotton piece-goods, (Rs. 1,06,390 in value), coal (99,609 maunds), salt (44,709 maunds), gram and pulse (42,781 maunds), Indian cotton twist and yarn, (37,955 maunds), other kinds of

provisions, (25,172 maunds), brass and copper (23,768 maunds), raw jute (22,993 maunds), vegetables and fruits (20,923 maunds), and hides 19,865 pieces). The number of laden boats registered during the past year was 67,892, against 69,130 in 1884-85, and 71,049 in 1883-84, as shown below:—

YEAR.	Midnapore canal.		Hidgellie canal.		Total.			
	Down.	Up.	Down.	Up.	Down.	Up.		
	No.	No.	No.	No.	No.	No.		
1883-84	21,800	23,859	11,790	11,100	36,090	34,959
1884-85	26,163	25,416	9,100	8,451	35,263	33,867
1885-86	23,528	24,887	10,091	9,386	33,619	34,273

4. The following statement shows the different districts which contributed to the trade during the past year as compared with the two previous years:—

	Imports.			Exports.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
Calcutta	28,50,286	24,98,816	23,14,168	12,87,197	14,15,638	12,01,121
Midnapore	15,83,027	17,09,511	18,44,743	32,48,483	29,19,483	32,61,860
Hooghly	6,80,969	6,82,056	6,62,988	5,70,767	4,52,828	3,08,038
Other districts	165	6,937	13,670	8,000	9,401	64,540
Total	51,14,447	47,97,350	48,35,559	51,14,447	47,97,350	48,35,559

Compared with 1884-85, the trade of Calcutta by this route fell by 7·39 per cent. under imports, and by 15·15 per cent. under exports, while the rise in the Midnapore district was 7·91 per cent. under the former head, and 11·72 per cent. under the latter. In the trade of the Hooghly district, however, the imports showed an increase of 13·90 per cent., and the exports a decrease of 31·97 per cent.

5. The total traffic in the principal articles carried both ways during the past three years is exhibited in the following statement:—

1	2	3	4	5	6	7
CHIEF ARTICLES OF TRAFFIC.	Registered on the Midnapore canal.	Registered on the Hidgellie canal.	GRAND TOTAL.		PROPORTION OF CALCUTTA TRADE TO THE TOTAL TRAFFIC.

* Mats are shown according to value in rupees; and hides in number.

The details of the traffic shown in the two final columns of the foregoing statement will be considered in the Calcutta section of this report. A brief account is given here of the other portion of the trade in some of the articles mentioned above.

6. *Piece-goods, Indian.*—The figures under Indian piece-goods show a considerable decrease of Rs. 1,06,390 in value as compared with 1884-85, and of Rs. 5,27,500 as compared with 1883-84. The traffic outside Calcutta was only Rs. 25,000 in value, the details of which during the past year were as follows:—

Importing marts.			Sources of supply.		
		Rs.			Rs.
Kharoobaria in Hooghly	16,000	Ghattal in Midnapore	16,000
Ghattal in Midnapore	9,000	Kharoobaria in Hooghly	9,000
Total	25,000	Total	25,000

7. *Fruits, nuts and vegetables.*—The quantity registered was 83,941 maunds, which showed a decrease of 20,923 maunds on the trade of 1884-85, and of 48,331 maunds on that of 1883-84. Excluding the Calcutta portion of the trade, there remained 13,680 maunds, which were distributed as follows:—

	Mds.
Local trade of the Midnapore district ...	7,100
Local trade of the Hooghly district ...	670
Trade between Midnapore, Hooghly and Jessore ...	5,910
Total ...	13,680

8. *Rice and paddy.*—The total quantities of rice and paddy registered during the past three years were—

	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.
Rice ...	19,71,993	14,71,963	13,26,780
Paddy ...	9,45,731	10,80,833	17,98,383
Total in rice after converting paddy into rice at the rate of 25 seers of rice to a maund of paddy ...	25,63,075	21,47,484	21,50,769

The large increase of 7,17,550 maunds under paddy is worthy of notice. The quantity sent to, and from, Calcutta was 11,98,180 maunds of rice, and 7,44,358 maunds of paddy. The local trade of the different marts within the Midnapore district comprised 1,09,800 maunds of rice, and 6,23,187 maunds of paddy, as shown below:—

Small marts	500	30,984	19,865
Total	18,100	4,19,792	2,80,470

The local trade of the Hooghly district was 85 maunds of rice, and 3,095 maunds of paddy, while the trade between Midnapore, Hooghly, 24-Pergunnahs, Jessore, and Balasore aggregated 615 maunds, and 7,951 maunds, respectively.

9. *Provisions other than ghee.*—There was a considerable decrease under this head, the total quantity registered being only 29,245 maunds, against 54,417 maunds, and 58,539 maunds in 1884-85 and 1883-84, respectively. The supply despatched to and from Calcutta amounted to 24,920 maunds, while 4,325 maunds represent the trade between the different marts within the adjoining districts of Midnapore, Hooghly and 24-Pergunnahs.

10. *Sugar, undrained.*—The weight of undrained sugar registered was 1,15,055 maunds, against 1,12,999 maunds in 1884-85, and 1,15,600 maunds in 1883-84. The Calcutta portion of the trade amounted to 1,07,790 maunds, and of the remainder, 5,065 maunds comprised the local trade of the Midnapore district; the trade between Midnapore, Hooghly, and 24-Pergunnahs aggregated 2,200 maunds.

11. *Tobacco.*—The tobacco trade fell from 1,22,819 maunds in 1883-84, to 1,14,446 maunds in 1884-85, and to 1,03,785 maunds in 1885-86. The quantity imported into and exported from Calcutta through these canals was 99,894 maunds, while the trade of the other districts was 3,891 maunds. Of this latter item, 3,551 maunds relate to the local trade of the different marts in the Midnapore district.

12. *Timber.*—Under this head there was a decrease during the past year of 1,16,082 maunds when compared with 1884-85, and of 47,802 maunds in comparison with 1883-84. The total quantity of the local trade of the Midnapore district was 54,370 maunds. The supply imported into and exported from Calcutta by this route was 12,689 maunds, while the remaining 2,698 maunds represent the trade between Midnapore, Hooghly, and 24-Pergunnahs.

CHAPTER VI.

TRAFFIC ON THE ORISSA CANALS.

The total quantity and value of traffic carried downwards and upwards on the Orissa Canals during the past year, as compared with the trade of the preceding two years, are shown in the following statement :—

1							2	3	4	5	6	7
ORISSA CANALS.							Weight of goods registered by weight.			Value of all articles of trade.		
							1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
							Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Down traffic							12,87,620	16,08,588	16,37,779	37,46,528	53,79,018	27,19,163
Up traffic							8,50,258	4,76,111	3,00,452	20,43,667	22,33,034	11,89,396
Total ..							16,16,897	14,84,499	14,34,231	66,90,395	56,12,047	38,58,499

2. The quantity carried both ways during the past year was 50,268 maunds, or 3·39 per cent. below the figures of 1884-85, and 2,12,656 maunds, or 12·91 per cent. below those of 1883-84.

3. The number of laden boats registered during the past three years, was as follows :—

						1883-84.	1884-85.	1885-86.
						Rs.	Rs.	Rs.
Down	4,139	4,160	3,615
Up	3,826	4,058	4,232
Total						7,965	8,218	7,847

4. The distribution of the trade, district by district, during the past three years was as follows :—

1	2	3	4	5	6	7	8	9	10	11	12	13
NAME OF DISTRICT.	IMPORTS.						EXPORTS.					
	Weight of goods registered by weight.			Value of all articles of trade.			Weight of goods registered by weight.			Value of all articles of trade.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Balasore ...	2,88,230	1,53,945	4,30,259	5,16,012	4,77,513	7,10,442	1,83,837	2,36,533	1,84,911	28,18,097	16,91,288	5,73,907
Cuttack ...	13,58,848	13,31,554	10,03,512	61,73,483	61,34,534	31,47,587	14,57,780	12,52,916	12,44,545	40,69,897	39,04,682	32,69,152
Pooree	180	410	5,270	5,050	4,775	7,401	16,097	15,440
Total ...	16,46,887	14,84,499	14,34,231	66,90,395	56,12,047	38,58,499	16,46,887	14,84,499	14,34,231	66,90,395	56,12,047	38,58,499

Compared with 1884-85, the figures of the Balasore district showed an advance of 2,77,314 maunds under imports, but a decrease of 41,622 maunds under exports. As regards Cuttack, the imports fell considerably, namely by 3,27,742 maunds, while in the export trade there was only a very slight difference in weight.

5. The chief articles of commerce carried along this route during the past three years are shown below:—

1	2	3	4	5		
NAMES OF ARTICLES.	Quantity.				Value.	
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Cotton, raw	1,241	810	240	18,615	7,012	2,810
Cotton twist and yarn (European)	40,484	19,548	6,650	21,80,135	10,57,544	3,47,360
Turmeric	4,274	2,000	2,000	29,918	21,545	12,500
Wheat	240	530	3,210	680	787	7,423
Gram and pulse	9,714	9,580	11,430	21,855	21,555	20,075
Rice	7,62,236	7,23,822	5,04,655	19,03,590	19,00,310	14,50,843
Paddy	74,351	89,658	67,364	1,30,114	1,79,316	1,13,677
Salt	19,590	25,437	25,692	63,655	81,080	83,499
Til-seed	7,127	6,022	5,553	30,280	21,077	20,869
Other oilseeds	1,657	1,164	1,480	5,060	2,201	4,440
Spices	7,670	7,890	2,270	3,14,470	1,55,190	70,370
Stone and marble	2,34,808	83,272	56,873	9,59,873	5,62,086	3,60,074
Sugar, undrained	51,638	37,150	32,247	6,90,504	3,25,141	1,45,112
Timber	22,640	33,171	22,007	79,240	1,14,098	91,868
All other articles	4,09,173	4,44,718	6,90,938	4,74,433	10,69,408	11,03,909
Total	16,46,387	14,84,499	14,31,231	66,90,308	56,12,047	38,58,490

The articles in which the decrease during the past year, as compared with 1884-85, was most marked are rice (2,19,167 maunds), paddy (22,294 maunds), stones (26,399 maunds), European cotton twist and yarn (12,906 maunds), timber (10,204 maunds), spices (5,120 maunds), and undrained sugar (4,912 maunds), while wheat showed an increase of 2,860 maunds, and gram and pulse of 1,850 maunds.

6. *Rice and paddy.*—The gross weight of rice and paddy carried during the past year was 30·28 per cent. and 24·86 per cent. respectively, below the previous year's figures, and 33·79 per cent. and 9·39 per cent., respectively, below those of 1883-84. The following statement shows all the important marts from which, and to which, the supplies were carried during the past three years:—

TRAFFIC ON THE ORISSA COAST CANAL.

7. A portion of the Orissa Coast Canal was opened for trade in July 1885. The total quantity and value of the traffic conveyed by this route since that period were as follows :—

					1885-86 (NINE MONTHS.)	
					Quantity.	Value.
					Mds.	Rs.
Down	54,016	2,53,810
Up	3,11,372	5,55,751
Total					3,65,388	8,14,561

8. The Executive Engineer, Balasore Division, remarks as follows :—

“This Range, which was opened for traffic for the first time on the 15th July 1885, is 36 miles in length.

“The gross revenue for 8½ months amounts to Rs. 13,985. When it is borne in mind that this Range forms at present no line of open communication, but stops at a very small unimportant village, its yield of revenue must be regarded as very satisfactory.

“Of course it is premature to speak of the whole canal from less than a year's experience of the traffic on one Range, but there is every indication of the excellent beginning developing into a prosperous future when the other Ranges are complete”

9. The number of laden boats registered on this canal during the above period was as follows :—

				Down.	Up.	Total.
				No.	No.	No.
July 1885 to March 1886	2,735	2,760	5,495

10. The following statement shows the total traffic of the different districts passing this route during the last nine months of 1885-86 :—

					Imports.	Exports.
					Mds.	Mds.
Midnapore	57,633	2,50,613
Hooghly	50
Calcutta	2,97,866	36,884
Balasore	9,839	77,891
Total					3,65,388	3,65,388

It will be seen that 81·52 per cent. of the imports were destined for Calcutta; while as regards the export trade, Midnapore contributed 68·59 per cent., Balasore 21·32 per cent., and Calcutta, only 10·09 per cent. of the total traffic.

11. The principal staples comprised in the downward and upward traffic are named in the following statements :—

				DOWNWARD GROSS TRAFFIC.		PORTION RELATING TO THE CALCUTTA TRAFFIC.	
				Quantity.	Value.	Quantity.	Value.
				Mds.	Rs.	Mds.	Rs.
Coal and coke	13,640	7,672	9,530	5,361
Cotton twist and yarn (European)	1,305	67,860	1,305	67,860
“ piece-goods (ditto)	22,000	21,700
Gram and pulse	3,610	8,235	3,610	8,235
Rice, unhusked	3,979	6,711
Salt	9,565	31,086	8,925	29,006

CHAPTER VII.

TRAFFIC ON THE CALCUTTA CANALS.

The total quantity and value of the trade registered on the Calcutta canals during the past three years were as follows:—

	QUANTITY OF GOODS REGISTERED BY WEIGHT.			VALUE OF ALL ARTICLES OF TRADE.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Imports	1,49,88,484	1,42,54,643	1,31,61,536	4,34,31,007	3 60,49,777	3,25,69,655
Exports	42,00,883	39,95,043	39,60,439	1,27,74,906	1,36,48,916	1,08,22,526
Total	1,91,89,367	1,82,49,691	1,71,21,995	5,62,05,913	4,96,98,693	4,33,92,181

Boats passing along the Calcutta canals, which have been loaded, or which are to be unloaded, at the Port Commissioner's wharves on the Hooghly river, are not registered at the stations on these canals, because they are registered at the Port Commissioners' wharves.

2. The foregoing statement shows a considerable falling off in the trade conveyed by this route, the total quantity registered being 11,27,696 maunds below the figures of 1884-85, and 20,67,372 maunds below those of 1883-84. In reporting upon the general condition of the trade on these canals, the Collector and Supervisor, Calcutta Canals, writes as follows:—

“The depression of trade during the year has again influenced the traffic. There has also been during the current year, to divert the traffic from the canals and reduce the toll collections, the opposition between the various river steam navigation companies, during which the vessels of these companies made 159 more trips through the Soonderbunds route (without considering the trips through the Nuddoa rivers) than in the previous year. The carrying capacity of these vessels is from 12 to 16 thousand maunds. Take the smallest, $12,000 \times 159 = 19,08,000$ maunds additional cargo carried by them over the last year. These companies carried at almost nominal freight cost to the consignors. That such influences could fail to affect the canal revenue could scarcely be expected. That they have not done so to a greater extent is a point for congratulation. The jute season has been a small one, and the quantities through the Calcutta canals decreased materially, there being a falling off of Rs. 10,036 on this head alone. When the Eastern Bengal Railway was breached between Managhat and Ramnagore during the last rains, I anticipated a rush of traffic through the canals, but it made no difference due, I imagine, to steam navigation companies carrying cargo at low rates. Since January last they have amalgamated and bought up the new Flotilla company, from which time they returned to their old rates. The gross collections for January, February, and March 1886 amount to Rs. 1,91,969 against Rs. 1,87,507 for the corresponding months of 1885, which seems to indicate that my theory is correct.”

3. In the import trade, the items which contributed most largely to the decrease in the year's traffic as compared with 1884-85 were lime and limestone (2,90,071 maunds), provisions (1,96,436 maunds), gram and pulse (1,67,515 maunds), rice (1,49,014 maunds), raw jute (1,22,169 maunds), linseed (1,06,913 maunds), spices (94,970 maunds), and fire-wood (69,404 maunds); and the only articles which showed an increase were vegetables (1,58,117 maunds) and paddy (61,939 maunds). In the export trade, the largest decrease was in salt (1,64,712 maunds) and oils (1,62,434 maunds), and the largest increase in paddy (50,610 maunds). Detailed statements of this trade are published in the appendices to this report.

CHAPTER VIII.

TRAFFIC ON THE BRAHMAPUTRA AND MEGNA RIVERS,
INTERNAL AND EXTERNAL (WITH ASSAM).

It was explained in the previous year's report that the registration of traffic on the Brahmaputra and Megna rivers is, under existing arrangements, limited to a record of the trade under three different heads, namely—

- (1) Traffic carried by the River Steamer Companies.
- (2) Traffic carried by the steamers of the Eastern Bengal State Railway.
and
- (3) Trade of Bengal with Assam carried by country boats.

2. The steamers of the Inland Flotilla Company which began to ply on the Brahmaputra in November 1884, ceased running from December 1885. The result of the registration in respect of the traffic carried along these two routes during the year 1885-86 is separately given for each of these heads in the following pages.

RIVER-BORNE TRAFFIC CARRIED BY THE RIVER STEAMER COMPANIES.

3. The following statement shows the aggregate weight and value of all kinds of goods carried by the River Steamer Companies along the Brahmaputra and Megna rivers during the year 1885-86, as compared with the figures of the preceding two years :—

Last year there was an advance of 7,29,778 maunds, or 12·43 per cent. in the entire trade as compared with the figures of 1884-85, and of 23,76,451 maunds, or 56·23 per cent. on the returns of 1883-84. Along the Brahmaputra route, the total traffic increased by 8,63,564 maunds as compared with 1884-85, but as regards the Megna river, the trade fell by 1,33,786 maunds, chiefly in the downward trip from Bengal, in which the decrease amounts to 2,96,370 maunds. The different articles in which the increase during the past year, as compared with 1884-85, was most important were—raw jute, (2,02,765 maunds); liquors (Rs. 1,68,220 in value); hides (131,916 pieces); gram and pulse (92,617 maunds), salt (68,088 maunds); Indian tea (67,622 maunds); rice (37,165 maunds); mustard seed (34,536 maunds); oils (31,041 maunds); and tobacco (16,792 maunds): whilst

the largest falling off occurred under cotton piece-goods, European (Rs. 14,96,917 worth); betelnuts (69,028 maunds); wool manufactured, Indian (Rs. 58,077 in value); silk, manufactured, Indian (Rs. 26,026 in value); cotton piece-goods, Indian (Rs. 23,250 in value); leather, manufactured (Rs. 21,172 in value); gunnies (20,916 bags); and coal and coke (11,990 maunds).

4. The abstract below shows the quantities and values of the important articles of traffic conveyed during the past three years :—

Apart from the Calcutta traffic, an account of which is given in another section of this report, the only articles of intermediate traffic which are of any importance are caoutchouc, coal, gunnies, gram and pulse, rice, hides, liquors, provisions, mustard seed, and tea seed, and they are briefly noticed as follows :—

5. *Caoutchouc or India-rubber*.—Of the total trade under this head, 646 maunds were sent from Assam to Goalundo, and 34 maunds to Naraingunge.

6. *Coal*.—The exports from Bengal under this head aggregated 3,51,522 maunds, against 4,54,289 maunds in 1884-85, and 4,96,313 maunds in 1883-84. The total quantity sent to Assam from Calcutta was 1,98,714 maunds, against 3,31,451 maunds in the previous year. Large quantities of this article, however, are now exported from Assam, the total quantity despatched last year being 91,701 maunds, against only 462 maunds in 1884-85. The quantity supplied to Calcutta was 36,136 maunds, to Goalundo 48,571 maunds, and to Serajgunge 7,000 maunds.

7. *Gunnies*.—The supply sent to Assam was 76,037 bags, against 123,935 bags in 1884-85, and 95,670 bags in 1883-84. Last year 46,771 bags were sent from Calcutta, 26,286 bags from Serajgunge, and 2,980 bags from Goalundo.

8. *Gram and pulse*.—Under this head the total exports to Assam were 2,04,176 maunds, showing an increase of 94,055 maunds and 88,675 maunds over the trade of 1884-85 and 1883-84, respectively. The quantity exported from Calcutta was 1,31,773 maunds, and of the remainder, 54,652 maunds were carried from Serajgunge, 17,086 maunds from Goalundo, and 665 maunds from Naraingunge.

9. *Rice*.—The total supply sent to Assam amounted to 3,82,638 maunds, against 4,19,416 maunds in 1884-85, and 3,63,242 maunds in 1883-84. The past year's figures are made up of exports from Goalundo (1,85,206 maunds), Serajgunge (89,732 maunds), Calcutta (58,200 maunds), and Kaligunge in Rungpore (49,500 maunds).

10. *Hides*.—The import hide trade rose from 43,539 pieces in 1883-84 to 61,915 pieces in 1884-85, and 1,51,917 pieces in 1885-86. Calcutta, with 1,38,254 pieces, imported the largest quantity, the chief places of supply being Naraingunge (1,14,976 pieces), Goalundo (20,598 pieces), and Assam (2,680 pieces).

11. *Liquors*.—The export trade under this head amounted in value to Rs. 12,65,179, against Rs. 10,96,959 in 1884-85, and Rs. 9,19,805 in 1883-84. During the past year Rs. 12,54,748 worth of liquors were sent from Calcutta, the whole of which was destined for Assam, with the exception of Rs. 2,546 worth despatched to Goalundo, and Rs. 7,885 worth to Serajgunge.

12. *Provisions*.—The total quantity sent to Assam was 52,724 maunds, against 35,594 maunds in 1884-85, and 30,280 maunds in 1883-84. Of the past year's trade, Calcutta contributed 45,660 maunds, Goalundo 6,475 maunds, Serajgunge 672 maunds, and Dacca 17 maunds.

13. *Mustard seed*.—The total quantity of mustard seed registered amounted to 6,84,072 maunds during the past year as against 6,49,536 maunds in 1884-85, and 1,07,805 maunds in 1883-84. Excluding the Calcutta traffic, amounting to 6,78,382 maunds, there remained a balance of 5,690 maunds, of which 5,470 maunds were sent to Goalundo from Assam, 200 maunds to Serajgunge, and 20 maunds from Kaligunge to Assam.

14. *Tea seed*.—The total quantity carried to Bengal from Assam fell by 10,433 maunds as compared with 1884-85, and by 1,908 maunds as compared with 1883-84. Out of the total supply during the past year, Calcutta received 3,597 maunds, and Goalundo 1,298 maunds.

**TRAFFIC ON THE BRAHMAPUTRA AND MEGNA RIVERS CARRIED BY THE
STEAMERS OF THE EASTERN BENGAL STATE RAILWAY.**

15. The total weight of goods carried by the steamers of the Eastern Bengal State Railway along the Brahmaputra and Megna rivers during 1885-86, as compared with the figures of the two previous years, was as follows:—

The gross quantity registered during the past year was 8·51 per cent. greater than in the previous year, and 5·40 per cent. in excess of the total of 1883-84, the increase being entirely in the downward traffic. The proportion borne by the Calcutta traffic to the total trade carried both ways was 91·32 per cent.

16. The articles which contributed most to the increase in the downward traffic were raw jute (3,75,389 maunds), rice, husked (1,01,653 maunds), gunny bags (54,690 in number), and raw cotton (17,617 maunds); while the staples in which the largest falling off occurred were hides (217,961 pieces), skins (160,500 pieces), mustard seed (72,286 maunds), linseed (20,736 maunds), and

tilseed (13,521 maunds). In the upward trade, the chief rise was in gunny-bags (23,715 pieces) and ghee (1,495 maunds), while iron showed a decline of 38,225 maunds, oils of 14,413 maunds, and salt of 13,440 maunds.

17. *Dacca service*.—The total decline in the gross weight of goods conveyed by this service amounted to 10·99 per cent. on the figures of 1884-85, and to 23·28 per cent. on those of 1883-84. The abstract below shows the total quantity and value of the principal staples carried during the past three years:—

Chief articles of downward traffic.

18. The chief staples in the down traffic which showed an increase over the figures of 1884-85 were rice (70,220 maunds), Indian piece-goods, (Rs. 38,720), raw cotton (17,617 maunds), and mustard seed (5,073 maunds); while raw jute, hides, and skins showed a decrease. As regards the up traffic, the largest increase was in gunny-bags (29,685 pieces), and the articles showing the largest decrease were European piece-goods (Rs. 2,10,880), manufactures of silk (Rs. 40,800), iron (48,072 maunds), liquors (Rs. 29,390), leather, manufactured (Rs. 12,760), salt (10,851 maunds), drugs and chemicals (Rs. 9,400), and Indian piece-goods (Rs. 6,800).

19. *Serajunge service*.—The aggregate quantity carried by this service shows a large increase of 33·36 per cent. as compared with the total of the previous year, and of 54·56 per cent. as compared with that of 1883-84. The following statement shows the quantity and value of the principal articles of traffic carried during the past three years:—

Chief articles of downward traffic.

20. The largest increase in the down traffic during the past year as compared with 1884-85 was in raw jute (4,14,385 maunds), and the articles which showed the largest decrease were mustard seed (67,134 maunds), tilseed (14,170 maunds), and other fibres, raw (7,251 maunds). Of the staples in the up traffic, European piece-goods showed the largest decrease, namely, Rs. 4,96,880 in value, as compared with the preceding year and the other items which showed a falling off were gunny-bags (8,640 in number), oils (6,413 maunds), Indian piece goods, (Rs. 3,040), and salt (2,589 maunds); the articles in which the increase was most marked were liquors (Rs. 1,750), leather, manufactured (Rs. 1,500), spices, all other kinds (1,292 maunds), brass (590 maunds)

21. *Cachar service*.—The fluctuations in the total traffic under this head are unimportant, the trade being almost stationary. The chief staples of merchandise of which this traffic consisted were—

Chief articles of downward traffic.

22. The quantity of tea carried last year was only 348 maunds below the figures of 1884-85, but the total value showed a large decrease of Rs. 3,50,272; this is due to the revised valuation adopted for this article in the trade returns. According to the Calcutta brokers' prices, the rate last year was Rs. 52 per maund against a provincial valuation of Rs. 60 per maund in the previous year. In European twist and yarn, the quantity fell by 304 maunds, valued at Rs. 15,808, and in European piece-goods a large decrease of Rs. 3,45,840 in value is observed. Other metals showed a decline of 246 maunds, and the only staple which showed a marked increase was liquors, of which Rs. 17,670 worth were carried upwards, against Rs. 7,164 worth in 1884-85.

TRADE OF BENGAL WITH ASSAM CARRIED BY COUNTRY BOATS.

23. THE following statement shows the total quantity and value of the trade carried along the Brahmaputra and Megna rivers by country boats during the year 1885-86 as compared with the figures of the preceding year:—

24. The traffic on these rivers during the past year showed an increase of 10.69 per cent. under imports, and a decrease of 3.89 per cent. under exports as compared with the previous year. The aggregate quantity of the Brahmaputra traffic showed a falling off of 18.77 per cent., and that carried along the Megna an increase of 17.71 per cent. It will be observed that out of the total imports from Assam, the largest supply (51.63 per cent.) went to the Chittagong Division; the share of Calcutta was 30.42 per cent., and of the Northern and Eastern Bengal blocks 11.15 per cent., and 6.38 per cent., respectively. As regards exports, the contribution from the Chittagong Division amounted to 43.23 per cent., that from Calcutta to 23.72 per cent., and that from other places to 33.05 per cent.

25. The following statement shows the principal articles registered during the year under review as compared with 1884-85:—

00. In the import trade, the articles which showed a marked advance as compared with 1884-85 were rice, unhusked (6,15,287 maunds), lime and limestone (4,34,900 maunds), timber (77,985 logs), raw jute, (26,715 maunds), mats (Rs. 20,588 in value), canes and rattans (Rs. 16,499 in value), dried fish (2,496 maunds), potatoes (8,442 maunds), raw cotton, (7,656 maunds), and spices other than betelnuts (4,319 maunds); and the only items which showed a decrease were oranges (15,112,000 in number), bamboos (586,000 in number), linseed (102,233 maunds), mustard seed (62,240 maunds), rice, husked (1,791 maunds), stone and marble (16,935 maunds), and til or jinjili (4,491 maunds). As regards the export traffic, a large portion of the increase was due to the development of the trade in cocoanuts (731,912 in number). The other articles which showed an increase over the trade of the previous year were Indian piece-goods (Rs. 43,720 in value), rice, husked (39,754 maunds), gram and pulse (25,264 maunds), undrained sugar (31,288 maunds), gunny-bags (15,441 in number), earthenware and porcelain (Rs. 13,769 in value), potatoes (10,623 maunds), and drained sugar (6,930 maunds); while European piece-goods showed a decrease of (Rs. 2,84,750 in value), oils of (61,775 maunds), and salt of (63,528 maunds.) A detailed statement in connection with this traffic will be found among the appendices to this report.

CHAPTER IX.

INLAND TRADE OF CALCUTTA.

The total quantity and value of the import and export trade of Calcutta by internal routes registered during 1885-86, as compared with the figures of the two previous years, were as follows :—

SPECIFICATION OF ROUTES.	IMPORTS.		EXPORTS.		TOTAL.	
	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.

Average of the last three years ...	8,73,53,509	59,97,00,832	2,34,92,504	27,44,68,127	11,08,79,346	87,41,68,958

2. As explained in the last report, the value shown above against the rail-borne trade does not represent the value of the entire traffic, but only of the trade in those articles enumerated in the revised list of commodities prescribed by the Government of India in January 1884. It will be seen that the entire trade of Calcutta, carried both ways during the past year, increased by 12,25,172 maunds, or 1·14 per cent., as compared with the preceding year, but it was still below the figures of 1883-84 by 82,53,180 maunds, or 7·07 per cent. While the imports rose by 20,62,693 maunds the exports fell by 8,37,521 maunds. As regards the several routes followed by the trade, the weight carried by the East Indian Railway amounted to 38·16 per cent. of the total traffic, against 34·79 per cent. in the previous year. The next most important route is the river route, which carried 36·65 per cent., against 40·89 per cent. in the other year. The Eastern Bengal State Railway comes next with 10·29 per cent., against 11·48 per cent., and then the road route with 7·59 per cent., against 7·69 per cent. The steamer service with 5·38 per cent., against 5·15 per cent. is last, but it may be mentioned that the traffic on this route has steadily increased of late; in 1883-84 the quantity attracted to it was nearly 34 lakhs of maunds, in the following year it was over 55½ lakhs of maunds, while in 1885-86, it rose to nearly 60½ lakhs of maunds.

COTTON, RAW.

3. The trade of Calcutta in raw cotton registered during the past three years was as follows :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.

„ East Indian Railway ...	9,79,147	4,92,073	6,60,640	2,126	2,157	1,678
„ Eastern Bengal State Railway ...	36,040	24,261	40,809	40,704	37,728	11,144
„ road ...	9,131	8,703	4,203	8,008	5,677	2,298
„ sea ...	2,05,682	2,19,212	2,05,000	8,67,173	3,93,653	5,07,509
Total ...	12,66,173	8,04,529	9,80,125	9,30,333	4,46,438	6,11,821

There has been a recovery in this trade, both as regards imports as well as exports. The outturn of the year's crop was larger than in the preceding year, and was also of better quality. The Collector of Customs, Calcutta, remarks as follows :—

“The year 1884-85 was one in which there was a poor crop both in quality and quantity, and the exports were therefore small. In the past year, however, there was an improvement in both respects, for the crop was larger and the quality better. Prices were very steady throughout the season, the rate for “good” at the opening being Rs. 15-8 per maund, the fluctuation being between that price and Rs. 15 per maund. The fall in exchange had the effect of keeping up prices, as the exporters could afford to pay a higher price in India and yet lay cotton down in London at the same sterling price as before.”

4. The supply imported into Calcutta by all routes was 21·82 per cent. in excess of the figures of the previous year, but Imports. it was 22·53 per cent. below the trade of 1883-84. The quantity attracted to the East Indian Railway was 33·45 per cent. more than in 1884-85. The amount of raw cotton supplied by each province is shown below :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
From the North-Western Provinces and Oudh	9,21,468	4,10,457	5,66,578
“ Bengal	79,407	95,429	1,16,165
“ Punjab	55,385	68,725	81,098
“ Rajputana	167	7,646	6,304
“ Other places	2,08,746	2,22,273	2,09,980
Total	12,65,173	8,04,529	9,80,125

The consignments from the North-Western Provinces were 1,56,121 maunds more than in the previous year. The following statement is made in the returns of the rail-borne traffic of those Provinces during the 3rd quarter of 1885-86 :—

“The cotton crop had suffered considerably from the excessive rains both in 1884 and 1885 ; but the drought which occurred during the latter part of 1885 did much to improve its quality, and in many of the cotton districts, although the crop was not heavier, still it was much finer than in the year 1884.”

The increase of 20,737 maunds shown against Bengal during the past year as compared with 1884-85, was chiefly due to larger exports from the Dacca district, which supplied 43,120 maunds, against 17,123 maunds in the preceding year.

5. The following statement shows the imports from the principal supplying stations along the railway lines during the past year, as compared with the totals of the preceding two years :—

Principal railway stations.

Stations.	Districts	1883-84.	1884-85.	1885-86.
		Mds.	Mds.	Mds.
Agra	Agra	2,62,470	1,51,157	1,90,405
Cawnpore	Cawnpore	3,56,331	82,717	1,30,438
Etawah	Etawah	11,011	11,288	60,883
Delhi	Delhi	55,385	54,004	59,690
Ferozabad	Agra	11,206	51,212
Koorjah	Bulandshahr	1,40,036	98,447	43,057
Allyghur	Allyghur	78,232	25,360	26,306
Umballa	Umballa	14,650	21,408
Chundowsi	Moradabad	49,304	17,196	20,615

The steamer services of the Eastern Bengal State Railway carried 27,965 maunds of raw cotton during the year, all of which was shipped from Dacca.

6. The imports by sea showed a falling off of 14,152 maunds as compared with 1884-85, but they were almost the same as in 1883-84. Last year the quantity despatched from Bombay was 1,83,430 maunds, from Madras 9,325 maunds, from British Burmah 4,058 maunds, from Chittagong 8,065 maunds, and from other places 182 maunds.

7. The total quantity of raw cotton exported from Calcutta during the past year was 36·96 per cent. over the trade of 1884-85, but 34·28 per cent. below that of Exports.

1883-84. Almost the whole trade was sea-borne, and its distribution was as follows :—

	1883-84.		1884-85.		1885-86.	
	Cwts.	Mds.	Cwts.	Mds.	Cwts.	Mds.

To Indian ports—						
Bombay and other Indian ports	477	650	243	331	186	253
GRAND TOTAL	637,106	8,67,173	289,214	3,93,652	416,945	5,67,509

Last year there was an increase in the exports of raw cotton to foreign ports of 44½ per cent. as compared with 1884-85, but the figures are still below the average of previous years.

The Collector of Customs, Calcutta, writes :—

“There were advances in shipments to all the countries taking supplies from Calcutta principally the United Kingdom, France, Italy, and China.

“The increase to the United Kingdom was 10½ per cent., but the figures are still below the average. The American crop of cotton was small, and the importations into the United Kingdom were also small, which would cause a demand for Indian cotton, but the principal reason for the increase is no doubt the larger crop, especially as there was no exceptional cause at work in Lancashire to produce a larger trade.

“There has been a resumption of direct shipment to France after a nearly blank year. This direct trade is apparently of a very intermittent character, one year of comparatively large shipments being followed by a year of small exports. The increased shipments from Calcutta to France do not apparently indicate any increase of trade in cotton with that country, as exports were smaller both from Bombay and from the United Kingdom the latter exports consisting partly of Bengal cotton from London.

“There were advances to Italy and Austria of 145 and 297½ per cent, respectively, due principally no doubt to the larger crop. Both these countries draw their supplies of Indian cotton largely from Bombay. There was also another reason for the advance shown in shipments to Mediterranean ports. It is that freight was reduced by the Austro-Hungarian line of steamers from Rs. 40 per ton, which ruled in 1884-85, to Rs. 30 per ton in the past year.

“To China the figures for the past year show an advance of 47½ per cent. over 1884-85. The smaller shipments of the previous year would probably induce larger exports during the year succeeding, but the principal reason has of course been the larger crop. The figures are, however, below those for years previous to 1884-85. The higher exports from Calcutta do not indicate that more Indian cotton has been taken by China, as the total shipments from India have declined by about 30,000 cwts.

“There were larger shipments to Belgium, Germany, and to Australia.

“A point worthy of notice in connection with the exports of raw cotton is that shipments amounting to 901 cwts. were made for the first time to the United States (San Francisco). Probably this cotton was required for some special purpose, for which it was more profitable to use a low-priced article than the better quality produced in the United States; but it is a curious circumstance that such a large cotton-producing country should find it necessary to import the raw article.”

8. The total quantity of raw cotton not exported before the close, of the year under report was 3,68,704 maunds against 3,58,094 maunds in 1884-85, and 3,34,840 maunds in 1883-84.

Quantity not exported before the close of the year.

COTTON TWIST AND YARN.

9. The trade of Calcutta in cotton twist and yarn during the past year as compared with the figures of the preceding two years, was as follows :—

11. The remarks made under this head by the Collector of Customs. Calcutta, are abstracted below:—

“In cotton twist and yarn the trade also has not been of an encouraging character, except perhaps Turkey red yarns, which for a portion of the year did fairly well. Speaking of the whole trade generally, the past year has not been a good one for importers, as profits have been few, and losses, although perhaps not very heavy, have been suffered.

“There has been a decline in the total receipts of twist and yarn of nearly one million pounds, attributable to a heavy decline in the importation of ‘T. red,’ which fell off by nearly two millions of pounds, and coloured yarn; grey and white show an advance of over one million pounds. This increase in the importation of grey twist and yarn is principally shown in 40s. and the higher counts, as the coarse numbers show decreases. The lowest counts 15s. and under show a falling off, no doubt because the jute manufacturing industry was in such an unfortunate position these low counts being used in the manufacture of gunny bags. These large importations of 40s. have not, however, gone into consumption, as the stock at the close of 1885 were 2,426 bales against 1,765 bales at the end of the previous year. In the finer descriptions of twist, there were decreases in the stock held by importers.”

12. As regards the twist and yarn manufactured in this country, the figures showed a falling off of 11·49 per cent. on the returns of 1884-85, and of 11·85 per cent. on those of 1883-84. In the case of the sea-borne trade, which for the most part represents imports from Bombay, the fluctuation is very slight; the Collector of Customs writes as follows:—

“There has been a small decline in the importations under this head from coast ports, From Bombay the imports were slightly smaller, though the figures are still large, while there was an advance from other ports, principally from Madras and Coconada.

“The receipts of twist and yarn from Bombay still continue to consist of the low counts, although the total declared value shows an advance over the figures of the previous year when the importations were larger.

“The decline shown is not due to any increase in importation from the United Kingdom of twist and yarn of the qualities which compete with the Bombay article. In the low counts Bombay has almost entire command of the market, the receipts from the United Kingdom being only 89,038lbs. of yarn which could not in any way be said to compete with the country spun yarn.”

13. The bulk of the supplies imported by country boats was shipped from the different mills in the vicinity of Calcutta, as shown below:—

PLACE OF SHIPMENT.		1883-84.		1884-85.		1885-86.

14. The falling off in the consignments by the Eastern Bengal State Railway was 32,427 maunds and 6,663 maunds on the totals of 1884-85 and 1883-84, respectively; by far the largest supplies were received from Shammuggur where there is a cotton mill. The quantity of raw material worked up during the year, in that mill was 66,166 maunds, against 74,680 maunds in 1884-85.

15. In the case of the road traffic, which also represents part of the outturn of the mills in and around Calcutta, the imports showed an increase of 5,903 maunds on the trade of 1884-85, but a decrease of 6,062 maunds on that of 1883-84.

16. The exports of European twist and yarn from Calcutta during the past year was 10·42 per cent. over the trade of 1884-85, and 11·57 per cent. over that of 1883-84. The destination of these exports during the past three years was as follows:—

EXPORTS.
European twist and yarn.

Exports by internal routes.

Total ...	5,869,716	71,334	7,008,843	85,175	7,485,837	90,974

In the exports by internal routes, the figures rose by 12·15 per cent. as compared with 1884-85, and by 5·55 per cent. as compared with 1883-84. As regards the exports by sea, which also showed an advance of 6·81 per cent. and 27·53 per cent. in comparison with the trade of the two previous years, the Collector of Customs writes:—

“There has been an advance in the total exports under this head. To Madras ports there was a decline, with increased shipments to British Burmah and Orissa. The last-named place has taken larger quantities of both country and foreign twist and yarn.”

17. The exports to the principal river marts during the past three years were as follows:—

Principal river marts.		were as follows :—				
Marts.		Districts.	1883-84.	1884-85.	1885-86.	
			Mds.	Mds.	Mds.

Santipore	...	Ditto	...	2,513	551	1,584
Hooghly	...	Hooghly	...	1,150	1,249	938

Besides these supplies, the quantity of this class of goods which was sent to the Midnapore district direct from the neighbouring mills without passing the Port Commissioners' wharves, but which was registered on the Midnapore canals, was 21,119 maunds, against 59,899 maunds in 1884-85, and 34,861 maunds in 1883-84. The gross imports of that district therefore amounted to 44,457 maunds, as shown below:—

	European twist.			Indian twist.			Total.		
	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.

The foregoing figures show that the manufacture of cotton cloth in the Midnapore district is steadily declining year by year in consequence of the competition of English manufactured goods, and it is stated that “the condition of the weaving class is consequently becoming deplorable.” The other districts which imported twist and yarn largely from Calcutta during the year were Balasore (47,672 maunds, against 46,947 maunds), Dacca (19,082 maunds, against 20,603 maunds), Nuddea (16,922 maunds, against 12,953 maunds), Hooghly (8,993 maunds, against 9,647 maunds), and Furreedpore (7,211 maunds, against 7,559 maunds).

19. The following are the chief railway stations to which twist and yarn were consigned during the past three years :—

Stations.	Districts.	1883-84.	1884-85.	1885-86.
		Mds.	Mds.	Mds.
Cawnpore ...	Cawnpore ...	11,718	12,806	14,968
Delhi ...	Delhi ...	4,922	7,197	5,755
Goalundo ...	Furreedpore ...	4,960	5,096	5,501
Umritsur ...	Umritsur ...	6,274	5,013	4,439
Kooshtea ...	Nuddea ...	4,822	3,185	4,250

To Foreign Ports—						
United Kingdom	50	1
Other Foreign ports	1,088,056	13,222	1,008,800	13,353	783,336	9,520
Total of Foreign Trade ...	1,088,106	13,223	1,008,800	13,353	783,336	9,520
GRAND TOTAL ...	4,186,373	50,875	3,833,737	46,590	2,584,397	31,408

The Collector of Customs, Calcutta, writes :—

“ There has been a falling off in the exports of these goods to coast ports of 34 per cent., and the figures are the lowest shown in the table. The decline to British Burmah was over a million pounds; the falling off has apparently been counterbalanced by an increase in the export of cotton twist and yarn of foreign manufacture of nearly the same quantity.

“ The increase under ‘ other ports ’ is due to larger shipments to Bengal ports, principally Chandbally.”

22. The total quantity of cotton twist and yarn, both European and Indian, exported during the year, was 48,694 maunds in excess of the quantity imported, against a surplus of 31,352 maunds in 1884-85, and 57,274 maunds in 1883-84.

COTTON PIECE-GOODS.

23. The following statement shows the piece-goods trade of Calcutta during the past three years :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.

Total ...	11,32,58,808	10,99,70,860	10,81,17,199	13,44,62,270	13,77,39,440	12,92,16,085

24. Piece-goods carried by rail and by inland steamer are registered by weight only; the value of this trade is calculated at Rs. 63 per maund, which is taken as the average price in Bengal of piece-goods of all sorts. The manner in which this figure has been arrived at, is explained in paragraph 13, Chapter II of this report. In the case of these goods carried by country boat, by road, and by sea-going vessels, however, the figures represent declared values.

25. The total value of European piece-goods cleared for consumption from ship-board and from bond during the past year showed a trifling decrease of 1·58 per cent. as compared with 1884-85, but a falling off of 4·52 per cent. in comparison with 1883-84. The sources of the supply during the past three years were as follows :—

	Imports by sea.		
	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
Foreign ports—			
United Kingdom	11,21,09,273	10,86,78,696	10,70,54,533
Other Foreign ports	6,57,579	6,44,324	5,53,715
Total of Foreign trade ...	11,27,66,852	10,93,23,020	10,76,08,248
Indian ports—			
Bombay	2,15,959	1,95,776	1,71,792

British Burmah	19,994	47,353	33,590
Other Indian ports	1,500	2,850	3,425
Total of interport trade ...	2,80,845	3,19,322	3,25,458
GRAND TOTAL ...	11,30,47,697	10,96,42,342	10,79,33,706

The Collector of Customs, Calcutta, makes the following remarks on the condition of the piece-goods trade during the past official year:—

“In comparison with the year 1884-85, there has again been a fall in the importations of cotton goods during the past year. This decline was in grey cotton piece-goods, white piece-goods, with an increase in coloured, printed, or dyed piece-goods.

“The cotton trade in Lancashire was throughout the year in a most unsatisfactory condition, and there were numerous failures amongst manufacturers. There were many interruptions to business during the year: *first*, the fear of a Russian war, which lasted for about two months; also a scare in July with regard to the settlement of the Afghan boundary; then the dissolution of Parliament, which always causes an interference with trade; and further, the great strike that occurred amongst the cotton-spinners at Oldham. The crop of cotton also was not on a large scale, and this tended to keep prices of the raw material very firm. Spinners and manufacturers were thus obliged to pay high rates for these raw materials, while it was difficult, almost impossible, to get the higher prices for the goods in the foreign markets. The strike at Oldham lasted a little more than three months, and reduced the production of yarn very largely for that time, as more than 7,000,000 spindles were stopped. This also caused the stoppage of a large number of looms owing to the scarcity of yarn. To merchants the trade has not been so unsatisfactory, but to producers the year generally has been one of loss.

“In Calcutta the cotton piece-goods trade has not been altogether unsatisfactory, though it cannot be said that losses have not in some cases been suffered. In grey piece-goods the business for part of the year was not generally satisfactory, for when the prices at which the goods had been sold showed a profit, it sometimes happened that this vanished in cases where the remittances could not be arranged at once owing to the steady fall in exchange. This happened particularly about the close of the year. The unsteadiness of exchange has been a serious matter for importers throughout the year, and has seriously interfered with business, as it was impossible to enter into any transactions with any feelings of security so long as this unsteadiness and constant fall continued. In white cotton piece-goods the trade has not been unsatisfactory; while in coloured, printed or dyed the business was not unprofitable for a portion of the year; but the very large supplies received, altered this state of things, and the market then became also unsatisfactory.”

26. The exports from Calcutta during the past year are valued at Rs. 12,92,15,085, showing a decrease of Rs. 85,24,355 as compared with 1884-85, and of Rs. 52,47,185 as compared with 1883-84. This decrease in value last year is owing to the comparative cheapness of Manchester goods, and not to diminished consumption, for, according to quantities, the exports are 7·21 per cent. higher than the figures of 1884-85, and 9·82 per cent. in excess of those of 1883-84. The following statement illustrates the distribution of the past year's exports, province by province, as compared with the figures of the two previous years:—

				Exports from Calcutta.		
				1883-84.	1884-85.	1885-86.
				Rs.	Rs.	Rs.
To Bengal	4,29,50,319	4,54,53,083	4,03,08,628
„ Behar	3,30,31,806	3,44,47,604	3,33,47,910
„ North-Western Provinces and Oudh	3,14,51,260	3,08,52,076	3,01,66,764
„ Punjab	1,56,18,744	1,27,40,688	1,24,31,790
„ Assam	44,52,178	66,81,457	52,88,525
„ British Burmah	20,46,323	24,69,382	25,40,011
Orissa	10,40,076	15,80,029	17,90,815
Chota Nagpore	14,12,352	14,34,960	14,52,605
Madras	6,27,501	7,93,587	6,38,654
Rajputana	5,27,760	3,59,352	5,01,858
Central Provinces	9,01,872	6,55,488	4,56,813
Foreign ports	1,79,947	1,57,298	1,57,633
Bombay	1,46,855	63,027	85,114
Other Indian ports	36,109	42,697	88,578
Other places	39,168	8,712	9,387
Total	13,44,62,270	13,77,39,440	12,92,15,085

27. After the addition of 25 per cent. to the total clearances from ship-board and from bond on account of under-statement of values, insurance, landing charges, &c., &c., the total of the year's traffic would be raised to Rs. 13,51,00,625, out of which Rs. 12,92,15,085 worth of goods were exported during the year as shown above. The surplus of imports over exports amounts on this calculation to Rs. 58,85,540.

28. The estimated values of piece-goods sent to the different divisions of Bengal Proper from Calcutta during the past three years were as follows:—

TRADE OF BENGAL PROPER.
Imports.

	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
Burdwan Division (excluding Howrah) ...	73,11,450	72,46,019	70,73,787
Presidency Division (excluding Calcutta and the Suburbs) ...	92,64,263	92,48,726	82,67,319
Rajshahye Division ...	1,18,70,093	1,32,23,714	1,25,20,468
Dacca Division ...	1,30,42,071	1,41,38,858	1,09,02,859
Chittagong Division ...	14,62,442	15,95,766	15,35,195
Chota Nagpore Division ...	14,12,352	14,34,930	14,62,605
Total ...	4,43,62,671	4,68,48,043	4,17,61,233

29. Besides these, the imports into Bengal Proper by rail, and into Chittagong from foreign and Indian ports other than Calcutta were:—

	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
Imports into Bengal by rail ...	8,640	4,176	4,284
Imports into Chittagong from Foreign and Indian ports other than Calcutta ...	3,15,792	3,07,519	3,22,100
Total ...	3,24,432	3,11,695	3,26,384

30. The gross imports into Bengal Proper were, therefore, Rs. 4,20,87,617, against Rs. 4,71,99,738 in 1884-85, and Rs. 4,46,87,103 in 1883-84.

31. The total value of piece-goods exported from Bengal Proper by rail and by land is shown below:—

	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
To Behar ... (by rail) ...	23,616	18,072	11,529
„ North-Western Provinces and Oudh (do.) ...	504	144	756
„ Punjab ... (do.) ...	576	504	2,709
„ Rajputana ... (do.) ...	576	288	567
„ Southern India ... (do.) ...	72
„ Nepal, Sikkim, and Bhutan ... (by road) ...	6,09,028	5,37,618	4,81,698
Total ...	6,34,372	5,56,626	4,97,259

32. The surplus of imports over exports thus amounts to Rs. 4,15,90,358 during the past year. This would give a rate of consumption in Bengal Proper of Re. 1-0-5 per head on a population of 40,419,594 souls, against Re. 1-2-5 per head in 1884-85, and Re. 1-1-5 in 1883-84.

33. The value of piece-goods despatched from Calcutta to the Behar Province, division by division, during the past three years, was as follows:—

TRADE OF BEHAR
Imports.

	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
Patna Division ...	2,53,62,664	2,51,51,972	2,44,92,158
Bhagulporo Division ...	96,69,142	92,95,632	88,55,762
Total ...	3,30,31,806	3,44,47,604	3,33,47,910

The imports by rail from other sources in those years were—

	1883-84. Rs.	1884-85. Rs.	1885-86. Rs.
From Bengal (excluding Calcutta) ...	23,616	18,072	11,529
„ North-Western Provinces and Oudh ...	26,280	30,816	57,141
„ Punjab	72	11,781
„ Central Provinces ...	360	504	...
„ Bombay ...	76,536	84,096	61,740
Total ...	1,26,792	1,33,560	1,42,191

The aggregate registered value of imports into Behar therefore amounted to Rs. 3,34,90,101, against Rs. 3,45,81,164 in 1884-85, and Rs. 3,31,58,598 in 1883-84.

34. The value of piece-goods exported from Behar by rail and by land during the past three years, was as follows :—

				1883-84.	1884-85.	1885-86.
				Rs.	Rs.	Rs.
To Howrah (by rail)	23,544	9,144	16,632
" Bengal (do.)	7,992	1,512	3,087
" North-Western Provinces and Oudh (do.)	25,344	29,304	43,155
" Punjab (do.)	6,336	7,632	5,733
" Rajputana (do.)	1,296	4,896	1,449
" Central Provinces (do.)	216	..
" Bombay (do.)	72	360	..
" Southern India (do.)	144
" Nepal (by road)	15,89,261	14,20,135	12,55,333
Total				16,53,989	14,73,199	13,25,383

35. Deducting exports from imports, the value of piece-goods left for consumption in Behar was Rs. 3,21,64,713, which, among a population of 23,127,104 souls, would give an average consumption of Re. 1-6-3 per head, against Re. 1-6-11 in 1884-85, and Re. 1-5-9 in 1883-84.

36. The importation of piece-goods into the Orissa Division during the past three years was as follows :—

				1883-84.	1884-85.	1885-86.
				Rs.	Rs.	Rs.
From Calcutta	10,40,076	15,80,029	17,90,815
" other Indian ports	7,621
Total				10,47,697	15,80,029	17,90,815

Last year the exports from Orissa were valued at Rs 1,275, and the balance, amounting to Rs. 17,89,540, gives an average yearly local consumption of annas 5-6 per head of a population of 5,199,877 souls, against annas 4-10 in 1884-85, and annas 3-2 in 1883-84.

37. The supply of piece-goods sent to Assam from Calcutta amounted to Rs. 52,88,525 in value, against Rs. 66,81,457 in 1884-85, and Rs. 44,52,178 in 1883-84.

38. The statements below show the piece-goods trade between the Bengal Presidency and the Upper Provinces during the past three years :—

				Imports into Bengal.			
				Into Calcutta.	Into Bengal.	Into Behar.	Total.
				Rs.	Rs.	Rs.	Rs.

45. In none of the cotton mills in Bengal were piece-goods manufactured during the year. Regarding the manufacture of cotton cloth by hand, the information furnished in some of the divisional annual administration reports for the past year is abstracted below:—

Burdwan Division.—“The manufacture of cotton cloth is carried on more or less in all the districts of this Division. This industry has, however, been gradually declining year by year in consequence of the competition of English manufactured goods. The bulk of buyers are poor, and the cheapness of Manchester cloth is a strong recommendation to them, the condition of the weaving class is consequently becoming deplorable.”

Presidency Division.—“Santipore *dhooties*, *sarees* and *chaddars* are noted for their fine texture and neat embroidery. The sale of these during the year is estimated at Rs. 1,62,000. *Dhooties* and coloured *sarees* and cotton wrappers made at Kushtea may also be noted among the cotton fabric manufactures of this district.”

Rajshahye Division.—"The manufacture of this article in Pubna seems inclined to recover from the depressed state into which it had fallen. It is extensively made there and exported. It is made in the other districts also, but for local use only."

Bhagulpore Division.—"The manufacture of country cloth is declining gradually. A limited amount is manufactured by weavers in the Sonthal Pergunnahs, and preferred by agriculturists to European cloths as being warmer and more durable, though slightly dearer."

INDIGO.

46. The following statement shows the indigo trade of Calcutta during the past year, as compared with that of the preceding two years:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

.. Boat	1,227	2,046	3,173	163	379	138
.. Road	35	21	7
.. Sea	261	502	361	1,49,774	1,41,622	1,03,735
Total ...	1,50,074	1,55,851	1,04,030	1,50,394	1,47,027	1,04,740

47. Owing to unseasonable rainfall, the outturn of the year's crops was generally very small. With the exception of Lower Bengal where the result was very nearly the same as in the preceding year, the indigo industry suffered much in all the producing districts. The Collector of Customs, Calcutta, writes—

"With a decline in shipment the average value shows a large advance. There was a much smaller crop of indigo, owing to the excessive rain that fell during some portions of the year, and in many districts there was a heavy falling off in production. Prices were considerably higher at the beginning of the sales than in 1884-85, but a portion of the advance was afterwards lost, especially in the case of higher qualities. The quality generally of the crop was better, and in many instances above the average."

48. The supply carried to Calcutta was 51,821 maunds, or 33·25 per cent. below the figures for 1884-85, and 46,044 maunds, or 30·68 per cent. below the trade of 1883-84. Compared with 1884-85, the falling off was most marked in the consignments carried by the East Indian Railway, which amounted to only 90,833 maunds during the year, against 1,43,092 maunds in 1884-85. The statement below shows all the provinces from which the supply of indigo was derived during the past three years:—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Behar	65,515	69,841	59,481
North-Western Provinces and Oudh	73,939	71,861	30,580
Bengal	10,150	12,298	13,423
Other places	470	1,851	546
Total ...	1,50,074	1,55,851	1,04,030

By far the largest falling off occurred in the imports from the North-Western Provinces and Oudh, where the excessive rains in the months of July and August 1885, washed off the colouring substance from the leaves while the plant still stood in the field. This considerably reduced the percentage of dye and caused many indigo planters to close their factories during the year. In Behar where the decrease amounted to 14·83 per cent. as compared

with the last year, the crop suffered from excessive rainfall. In their circular of the 6th October 1885 Messrs. Moran and Company reported as follows—

“The returns from Behar are far less than we expected at the commencement of *mahai*. The weather during the earlier part of the fortnight under review was most ruinous for the *khoonties*, as shortly after the issue of our circular of the 22nd ultimo, we received great complaints of very heavy rain having fallen in Tirhoot, Chumparun and Chupra. The fall was so great as to necessitate most factories closing *mahai* on account of the exceedingly poor produce, the result being the outturn will probably only reach 52,650 (factory) maunds as compared with 62,088 (factory) maunds last year.”

For Bengal, the figures showed an increase of 9·15 per cent over those of 1884-85.

49. The exports decreased by 28·76 per cent. and 30·35 per cent. as compared with 1884-85 and 1883-84, respectively. The quantity exported by sea during the three years was distributed as follows:—

		1883-84.		1884-85.		1885-86.

Regarding the exports to foreign ports, the Collector writes—

“There has been a decline in the exports of indigo of 28½ per cent. during the past year in comparison with 1884-85, and the figures are the lowest since 1879-80.

“The principal decrease appears in the exports to the United Kingdom. To the importers of indigo in London the trade during the past year has been fairly satisfactory, as the indigo sold generally realized higher prices than had been paid in Calcutta. The reduced crop here naturally caused prices to advance in London, and values in October were considerably in advance of prices ruling in April. All the East Indian indigo imported has gone into consumption, and the position of this dye is now said to be very strong.”

“It is satisfactory to notice that the large shipments to the United States still continue; the decline in exports to that country being smaller in proportion than the shipments to the United Kingdom. The shipment of indigo direct from Calcutta may partly account for this, as purchases for the last few years were made in London for that market. With a rapidly increasing population, and in absence of competition from other dyes, the consumption of indigo in the United States should continue to advance.”

“The shipments direct to Germany, referred to in last year’s report, have continued, but with a smaller crop, naturally on a decreased scale. The total value, however, was about the same as in the previous year.”

50. The result of the past year’s traffic was a deficit in the imports compared with exports of 719 maunds, against a surplus of 8,824 maunds in 1884-85; in 1883-84, the exports exceeded the imports by 320 maunds.

JUTE, RAW.

51. The jute trade of Calcutta during the past three years is shown in the following statement:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

Total ...	1,06,59,425	1,30,53,436	1,22,82,799	85,61,898	1,03,65,201	96,33,441

52. The total quantity carried to Calcutta during the past year was 5·90 per cent. below the trade of 1884-85, but 15·20 per cent. in excess of that of 1883-84. The supply brought by the Eastern Bengal State Railway showed a decrease of 3,31,832 maunds, and that by country boats of 7,97,450 maunds as compared with the preceding year, but the figures of the road traffic increased by 1,21,628 maunds, and those of the inland steamer traffic by 2,02,760 maunds. The causes of fluctuations in this trade are stated by the Collector of Customs, Calcutta, to be as follows:—

“The crop was a smaller one than in the previous year, though better in quality, and higher prices were obtained. There was an unfortunate break in the Eastern Bengal Railway, owing to heavy floods in August, which caused an interruption to communication and seriously interfered with business here, as the jute required to complete contracts previously made could not be obtained. Heavy losses were occasioned by this, and although river communication on a large scale was immediately organised, for which high rates of freight were paid, the trade did not return to its normal condition until the break in the line had been repaired.”

53. The jute crop was good in Furreedpore, but below the average in Dacca. In Mymensingh it was less extensively cultivated than in the preceding year. In Backergunge jute is now grown in Mendigunge and in the north-eastern riverside tracts. In the trade and commerce section of his General Administration Report for 1885-86, the Commissioner writes as follows:—

“Dacca.—Owing to unseasonable weather in April and May, the crop harvested was less than an average one. I have heard complaints as to the dulness of the jute trade, and there is certainly room for improvement. The jute mills at Naraingunge and Dacca continue to work.”

“Furreedpore.—Trade in jute was weak, the market ruling low.”

“Mymensingh.—The trade in jute appears to have been brisk in the Kishoregunge subdivision, but rather slack in Attia. The exports from Attia were less, in consequence of the Eastern Bengal Railway refusing to show Attia the same indulgence that it did to Serajgunge. It carried jute from Serajgunge at the same rate as it charged for the carriage from Goalundo to Calcutta, but the exports from Attia were treated differently. This affected the sales in this subdivision. In Jamalpore the quantity grown was less, but the quality was superior and the prices higher. Both cultivators and traders profited by this. In Netrokona the crop was not good, and the price low.”

54. Regarding the jute trade in the Rajshahye Division, the Commissioner writes:—

“Jute occupies the next place in the list of articles of trade of the Division. It is reported that in 1885-86 the trade in jute increased in Dinagepore, Pubna, and Julpigoree but it decreased in Rajshahye and Bogra. The district officer of Pubna says that in 1885-86 about 38,00,000 maunds were imported against 25,03,000 maunds, and 40 lakhs of maunds were exported against 25 lakhs of maunds in 1884-85. Some of the figures are said to have been furnished by the Superintendent of the jute company. The decrease in Rajshahye was owing to injury from floods. Only 74,300 maunds are said to have been sent away by rail from Nattore and Raninagore railway stations. The subdivisional officer of Nowgong estimates the exports from his subdivision at 1,60,000 maunds against 2,31,650 maunds. Mr. Ruddock thinks, and I agree with him, these figures may be fairly correct, as Rajshahye sends away much jute by boats. Jute is not much grown in the subdivisions of Nattore and head-quarters for exportation. The decrease in Bogra was owing to the crop not having

been good and the selling price not having been high. The district officer of Rungpore reports that the 'jute trade flourished well,' but says that about 21,795 tons (about 5,99,365 maunds) were sent from the railway stations, which I find is less than the quantity that was exported in 1884-85, viz., by rail, 6,25,069 maunds and by river 1,41,318 maunds: in all 7,66,387 maunds. The cultivation of jute in the Darjeeling Terai and the manufacture of gunny-bags is said to be receiving more attention."

55. The following statement shows all the principal districts which contributed to the trade, the supplies carried by railway are also given :—

Regarding the exports to foreign ports the Collector of Customs, Calcutta, writes as follows :—

“ The exports of raw jute have declined during the past year in comparison with 1884-85 by 6½ per cent., but they were fairly up to the average of previous years.

With the exception of Italy smaller shipments were made to all the principal consuming countries. To the United Kingdom the decline was 6½ per cent. The jute manufacturing industry in Dundee has had another unfortunate year, for prices there for these goods have been the lowest ever known. Fortunately for spinners and manufacturers the price of the raw material has not been high, and there were no violent fluctuations. Short time in many of the mills has continued, and this, coupled with the short time movement in Calcutta, has no doubt had some effect in keeping down the prices of jute, which, owing to the smaller crop, would probably have advanced considerably in value. In addition to the general badness of trade all over the world, Dundee has severe competition to contend against, and has also the misfortune to find, owing to protective legislation, that other markets on the continent of Europe are being gradually closed against her manufactures.”

61. After deduction of the gross exports from the total quantity imported into Calcutta, there remained a surplus of 26,49,358 maunds, against 26,88,235 maunds in 1884-85, and 20,97,527 maunds in 1883-84.

Quantity not exported before the close of the year.

GUNNY-BAGS.

62. The gross registered import and export traffic of Calcutta under this head during the past three years, were as follows :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

63. The supply brought to Calcutta during 1885-86 was 13·36 per cent. in excess of the figures for 1884-85, but it was 15·15 per cent. below those for 1883-84. Compared with

Imports.

1884-85, the increase was most marked in the consignments carried by country boats (47·77 per cent.), while the quantity imported by the Eastern Bengal State Railway showed a decrease of 14·26 per cent. On the other hand, the figures of traffic attracted to the East Indian Railway showed an increase of 38·82 per cent., and the supplies by road routes were 49·21 per cent. in excess of the previous year's trade, while the imports by sea were more than three times the trade of 1883-84. The Eastern Bengal State Railway figures include 2,568,055 bags consigned *via* the Northern Bengal State Railway, against 4,427,185 bags in 1884-85, and 4,671,660 bags in 1883-84.

64. The following statement shows all the important districts from which gunny-bags were largely imported into Calcutta by internal routes during the past three years :—

65. Last year the increase under power-loom manufacture was 29·12 per cent. as compared with 1884-85, while hand-loom pieces fell by 17·96 per cent. Regarding the former, the Collector of Customs, Calcutta, writes—

“The past year has again been an unfortunate one for the jute manufacturing industry. Prices have been low and losses have been incurred. The outturn has again been in excess of the consumption owing to the large extensions in the mills, referred to in last year's report, which were made or initiated when the trade was in a prosperous condition. The trade was in such a bad condition that one mill was obliged to go into liquidation during the year, and the other mills suffered so heavily that the question of short time was forced upon them. The point was whether it was better for the mills to go on producing to their utmost extent, thereby reducing the cost of the bags, or to work short time, which would lower the price of the raw material by decreasing the demand, and also advance the price of the manufactured article. The latter was the course generally agreed upon, and after much discussion it was arranged that all the mills should work short time, with one exception, which, for reasons of its own, refused to join the combination, while one mill closed altogether, waiting for better times. An association was also formed for the regulation of prices. The effect of this arrangement has apparently been satisfactory, so far as it must have had a direct effect on the demand for the raw material by reducing consumption, and prices have been kept down, while the prices of the manufactured article have shown an advance. At the same time, the cost of production must have been increased, and any advance in this direction would naturally operate in curtailing consumption, and also have the effect of allowing Dundee a certain advantage. If the effect that the measures already adopted have had, continues, which is perhaps doubtful, prices may ultimately be forced up to a profitable point, when all the mills will again revert to full time working in order to secure the profits then to be made. But unless there is a general revival in trade, of which there are no signs at present, that course would just place the mills in the same position as they were before the arrangement to run short time was made. If, however, there is such a revival of trade, and the outturn is kept under control until that time, it is quite possible that there will be a return of prosperity to the jute manufacturing industry.”

Regarding hand-made bags, the Commissioner of the Rajshahye Division writes :—

“The manufacturing of gunny-bags is steadily declining in Dinagopore, Rungpore, and Jalpigoree. They are being supplanted by mill-made bags. About 19 million yards of gunny-cloth were made at the Sorajgunge jute mills. The manufacture of gunny-bags in Rajshahye, Bogra, and Darjeeling is very insignificant.”

66. The following statement shows the marts which despatch the largest supplies by country boats :—

The falling off in the exports to Foreign ports amounted to so much as 14·54 per cent. The Collector of Customs, Calcutta, writes :—

“There has been a decline of 24 per cent. in the exports of jute gunny-bags during the past year in comparison with 1884-85, which was a year of very large exports, and the figures have returned to the level of 1883-84. The decrease is visible in shipments to the United States, China, the Straits Settlements, and Australia, with small increases to the United Kingdom and Egypt.

“There has been a small advance in shipments to the United Kingdom, and the figures are again the highest quoted.

“The principal falling off was in shipments to the Straits, the decline being over ten millions of bags, the figures having returned to their normal condition. Probably the very large shipments of 1884-85 left large stocks, which would of course keep exports small in the following year. The same remark may be made regarding exports to the United States, which declined, taking the figures under that country and Hong-Kong together, by over 7½ millions of bags, or 26½ per cent. The market in San Francisco must have been very much overstocked at the beginning of the year, for shipments made direct up to July amounted to only 50,000 bags, while the last three months of the year they reached nearly 15½ millions, or more than half the total quantity sent to America, either direct or via Hong-Kong.”

“The decline to Australia was over 3½ millions of bags, and was no doubt due to the smaller outturn of the mills.”

69. The exports by the East Indian Railway during the past year were chiefly consigned to Delhi (2,994,775 bags), Cawnpore (2,664,620 bags), Patna (2,522,240 bags), Amritsar (704,690 bags), Fyzabad (653,555 bags), Sonthal Pergunnahs (568,610 bags), Burdwan (545,230 bags), and Beerbhoom (514,185 bags). The supplies carried by country boats were for the most part destined for Hooghly (500,410 bags), 24-Pergunnahs (339,615 bags), Nuddea (117,125 bags), and Midnapore (110,362 bags).

70. The surplus exports over imports aggregated 106,458.423 bags, against 119,674,316 bags in 1884-85, and 101,166,377 bags in 1883-84. This represents part of the outturn of the mills in Calcutta and the Suburbs.

GUNNY CLOTH.

71. The total quantity of gunny cloth imported into and exported from Calcutta by internal routes registered during the past three years, was as follows :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Pieces.	Pieces.	Pieces.	Pieces.	Pieces.	Pieces.
By Inland steamer	24	804
" Boat	10,724	25,172	25,353	6	83	254
" Eastern Bengal State Railway	24
" Road	7,210	9,004	8,745	303	201	1,179
Total ...	26,934	34,836	34,122	339	284	2,237

As explained in paragraph 72 of the report for 1884-85, gunny-bags and gunny-cloths have been shown together in the railway returns since the beginning of that year. The quantities of gunny-cloth and bags carried by the East Indian Railway had always before been shown in the returns furnished to Government under a head "gunnies." Moreover, while the registration of the road and boat trade is made according to pieces, the sea-borne trade returns show this article in yards. For the purposes of converting pieces into yards, a machine-made piece is taken as equal to 80 yards, and a hand-made piece is equal to 22 yards. The foregoing figures, therefore, do not represent the actual extent of the transactions in Calcutta under this head (part of the trade in gunny-cloth having been included under the next preceding head "gunny-bags").

72. The sea-borne trade of Calcutta in this article is shown in yards ; the total traffic during the past three years is given below :—

	1883-84.	1884-85.	1885-86.
	Yds.	Yds.	Yds.
Imports	15,944	48,775	10,731
Exports	11,010,569	19,923,884	25,267,418

73. There was little or no change in the import trade during the past year by internal routes as compared with 1884-85. Out of the total supply, 5,474 pieces were of power-loom manufacture, and 28,648 pieces were hand-made, as detailed below :—

Power-loom Gunny-cloth.

GRAND TOTAL OF HAND-MADE PIECES					22,414	26,146	28,648

After converting pieces into yards at the rate of 80 yards to a piece in the case of machine-made gunnies, and of 22 yards to a piece in the case of hand-made gunnies, the total traffic amounted to 1,078,907 yards, against 1,319,187 yards in 1884-85, and 870,652 yards in 1883-84.

74. The sea-borne exports from Calcutta advanced by 26·82 per cent. on the returns of 1884-85, while they were more than double those of 1883-84. The details of this trade are shown below :—

GRAND TOTAL ...	10,892,169	118,400	11,010,569	19,847,217	76,667	19,923,884	25,157,197	112,221	25,267,418

The Collector of Customs, Calcutta, writes:—

“The exports of gunny-cloth have increased, and are the largest shown in the table, due to advanced shipments to the United Kingdom and the United States. The effect of the over-production of the previous year has apparently been continued in the year under review.”

75. If imports be deducted from exports, a deficit of 24,367,471 yards will be found, against 18,627,417 yards in 1884-85, and 10,167,037 yards in 1883-84. The excess of exports over imports is due to the large manufacture of gunnies in Calcutta and the suburbs.

76. Besides the registered supplies mentioned above, the consignments of power-loom gunny cloth despatched up-country direct from the neighbouring mills without passing the Port Commissioners' wharves, but intercepted at the toll stations on the Nuddea rivers, was as follows:—

Outturn of the mills in the vicinity of Calcutta.

77. Last year the number of jute mills at work around Calcutta was 18, against 19 in 1884-85, and 20 in 1883-84. The amount of raw jute worked up during the year in 17 of them was 37,68,892 maunds, showing a decrease of 2.11 per cent., as compared with the previous year, but an increase of 5.46 per cent. in comparison with 1883-84. No statistics, however, are available to show separately how much of the raw material was used in making gunny cloth and gunny bags. The following statement shows the number of looms and spindles at work, and the quantity of raw jute consumed in the different mills in

Hooghly, Howrah, and the 24-Pergunnahs districts, during the past three years:—

DISTRICTS.	Total number of mills at work.	NUMBERS OF—		QUANTITY OF JUTE WORKED UP DURING THE YEAR.		REMARKS.
		Looms.	Spindles.	Cwts.	Mds.	
Hooghly	4	1,432	28,004	714,680	9,72,782	(a) In three mills. Figures for the other mill are not available.
Howrah	4	1,407	27,014	(a) 554,814	7,55,103	
24-Pergunnahs	10	3,250	61,524	1,499,508	20,40,997	
Total ... {	18	6,089	1,16,542	2,708,982	37,68,892	(b) Represents the amount of jute worked up in 18 mills. Figures for the other mills are not available.

FOOD-GRAINS.

78. The comparatively plentiful harvest of the year resulted in a general increase in the food-grain traffic of Calcutta as compared with the transactions of 1884-85, but it still showed a considerable falling off when compared with 1883-84. As regards the imports, the figures exhibit an increase of 14·89 per cent. on the trade of 1884-85, but a decrease of 14·09 per cent. as compared with 1883-84. In the export trade, there was an increase of 16·64 per cent. compared with the previous year, but a decrease of 22·91 per cent. compared with 1883-84. The details of the trade in each staple during the past three years are given below:—

					Imports into Calcutta.		
					1883-84.	1884-85.	1885-86.
					Mds.	Mds.	Mds.
Rice	1,34,13,318	1,17,49,985	1,30,80,446
Paddy	15,53,920	20,68,448	14,14,511
Wheat	1,12,12,086	46,09,141	71,94,330
Gram and pulse	31,72,502	31,47,913	32,91,737

Expressed in tons, the imports and exports of the last three years have been as follows :—

	1883-84.	1884-85.	1885-86.
	Tons.	Tons.	Tons.
Imports	411,873	172,621	264,281
Exports	383,944	131,956	213,743

81. Owing to a brisk demand in Calcutta for export by sea, the imports increased by 53·09 per cent. as compared with 1884-85, but they were still below the trade of 1883-84 by 35·83 per cent. The quantity brought to Calcutta by the East Indian Railway was 69·79 per cent. in excess of the imports by that route during the preceding year, and that brought by the Eastern Bengal State Railway increased by 29·50 per cent. The boat traffic, however, fell off by 23·39 per cent. The Collector of Customs, Calcutta, makes the following remarks regarding the sea-borne trade in this grain :—

“The exports of wheat have recovered from the decline shown in 1884-85, and have advanced in comparison during the past year by 63½ per cent.”

“Almost the whole of the wheat exported has gone to the United Kingdom. To Malta, Belgium, and France there were no exports, while there were small increases to Holland, Mauritius, Réunion, and the Straits Settlements.

“The advance to the United Kingdom was 81½ per cent. These large exports were made notwithstanding that there was again a good harvest in England and very large supplies from other countries.

“The year 1884-85 was one of very low prices in the United Kingdom, but last year the price of wheat was still lower owing to the good harvest and to the large supplies received from foreign countries. The average price throughout the year was 2s. 6d. per quarter below 1884-85, and on the 1st January 1886 the *Gazette* quotation was 30s. 3d. per quarter. In spite of these low prices in the United Kingdom the shipments from Calcutta were very much larger, as also were the exports from the western side of India. Prices were so very low in 1884-85 that producers were not satisfied with them, and rather than sell, they preferred to store their wheat. During the past year prices in India were higher, and the holders of supplies parted with their stocks as they got more money for them. With lower prices in England it would appear strange at first sight that shippers could afford to pay higher prices to the producers, but this is probably due to the fall in exchange. The heavy fall in exchange, while making little or no change in the London

price, enabled the exporter to pay more rupees to the producer, who no doubt has benefited materially by this fall. Another reason for the larger shipments is that, during April and May when a rupture was anticipated with Russia, there was a good deal of business done by speculators, who rather overdid their purchases. The low range of freights throughout the year would also assist in increasing shipments, and in addition to the above-named reasons, the crop was a larger one than in 1884-85. All these causes combined have no doubt resulted in placing the exports of wheat last year ahead of the previous year's shipments.

"With the large exports from Calcutta there were also increased shipments from Bombay and Kurrachee."

82. The following statement shows the places of supply, province by province, during the past three years:—

	1883-84.	1884-85.	1885-86.

Total ...	33,54,234	9,91,018	8,34,906

The above figures show that the greatest fluctuations occurred in the exports from the Patna and Shahabad districts. As regards the Patna district, it may be explained that all the wheat exported from that district is not grown there, for it is said that the importation of wheat during the past year into Patna City alone was about 10 lakhs of maunds. The Collector says—"Of these large importations, which are for the most part conveyed by river from the districts of the North-Western Provinces and Oudh and North Behar, only a little more than one-third is believed to be consumed locally, and almost the whole of the rest is again exported to Calcutta;" and it may be added to marts lower down the Ganges. Shahabad being an agricultural district, its export trade is limited to surplus agricultural products. The decrease in the exports

from this district is attributed by the Collector "partly to scanty yields during the preceding years which exhausted all the surplus grain which would otherwise have been available for export."

85. The Bengal supply was chiefly comprised of imports from the following districts:—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
Nuddea	1,92,274	2,38,825	2,23,064

88. The exports of wheat rose by 22,26,425 maunds, or 61·98 per cent. over those of 1884-85, but they were below those of 1883-84 by 44·33 per cent. The quantities shipped from Calcutta by sea during the past three years, were destined as follows:—

	1883-84.		1884-85.		1885-86.	
	Cwt.	Mds.	Cwt.	Mds.	Cwt.	Mds.
To Foreign Ports	7,611,414	1,03,89,980	2,561,677	34,86,727	4,189,531	57,02,417
„ Indian „	11,800	16,184	7,554	10,252	9,038	12,802
Total ...	7,623,304	1,03,76,164	2,569,231	34,97,009	4,198,569	57,14,719

89. If exports be deducted from imports, there remain 13,75,770 maunds, against 11,07,006 maunds in 1884-85, and 7,60,278 maunds in 1883-84.
Quantity not exported before the close of the year.

GRAM AND PULSE.

90. The principal staples comprised under this head are *mutter*, *khesari*, *mushuri*, *maskalai*, *moog*, *boot* or *chhola*, and *urhur*. The total weight of the Calcutta trade in these grains was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
By East Indian Railway	14,59,689	8,83,841	18,89,574	3,057	62,181	11,710
„ Eastern Bengal State Railway	1,55,390	3,04,082	1,47,487	20,267	3,596	4,791
„ Boat	13,97,728	16,69,917	11,52,573	2,39,311	2,34,092	2,38,507
„ Road	76,702	90,034	56,819	2,02,302	2,24,793	2,22,028
„ Inland steamer	23	1,280	4,348	1,03,083	68,725	1,31,938
„ Sea	82,900	1,98,479	41,237	6,00,122	9,29,074	8,80,390
Total ...	31,72,502	31,47,918	32,91,737	12,58,142	15,80,938	15,44,364

91. The import trade shows an advance of 4·54 per cent. on the trade of 1884-85, and of ·61 per cent. on that of 1883-84. There was a great demand in Calcutta for these cereals for export to Madras and other ports. The chief increase is observable in the supplies carried by the East Indian Railway, which brought to the Calcutta market 10,06,033 maunds and 4,29,905 maunds in excess of the figures of 1884-85 and 1883-84, respectively. The quantity carried by the Eastern Bengal State Railway fell off by 1,57,175 maunds as compared with 1884-85, but it was equal to the weight carried in 1883-84. The boat traffic showed a very large decrease of 5,17,345 maunds and 2,45,156 maunds as compared with the two years 1884-85 and 1883-84, respectively. The imports by road showed a falling off of 33,515 maunds and 20,183 maunds, and those by sea of 1,57,242 maunds and 41,753 maunds as compared with the two previous years, respectively.

92. The following comparative statement shows the importation of gram and pulse from the several provinces during the past three years:—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
From North-Western Provinces and Oudh	6,62,583	3,07,121	12,06,291
„ Bengal	11,16,646	18,03,624	11,55,546
„ Behar	12,18,017	7,56,455	5,11,984
„ Punjab	24,592	46,487	3,38,604
„ Madras	74,177	1,95,725	33,340
„ Central Provinces	62,778	32,004	31,104
„ Other places	13,709	6,497	14,868
Total ...	31,72,502	31,47,918	32,91,737

The foregoing statement shows a very heavy falling off as regards Bengal, a somewhat less heavy decline in the importation from Behar, and a very large increase from the North-Western Provinces and Oudh and the Punjab. This clearly shows that the crop in the Lower Provinces was not equal to the demand made upon it, and more distant places were therefore drawn upon to supply part of the needs of Calcutta. As in the previous year so in 1885-86, the imports were largest from the Nuddea district, namely 5,82,888 maunds, against 7,64,003 maunds in 1884-85. Next to Nuddea comes

Patna, from which 1,83,928 maunds were consigned, against 3,16,637 maunds in the previous year. Jessore contributed 1,45,908 maunds, against 2,42,843 maunds in the preceding year. In the North-Western Provinces, the imports from Cawnpore rose from 90,918 in 1884-85, to 3,94,301 maunds in 1885-86, Futtehpore supplied 3,22,901 maunds, against 80,463 maunds in 1884-85, and Allahabad 1,60,089 maunds, against 68,745 maunds. From the Punjab, the imports from Delhi alone were 1,94,692 maunds, against only 33,117 maunds in the previous year.

93. The quantities imported by country boats were obtained chiefly from the following marts:—

Principal river marts.

Marts.	Districts.	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.

	Allumdanga ...	Do. ...	4,042	5,807	3,295
	Koksha ...	Do. ...	1,572	12,633	3,292

95. The abstract below shows the marts which despatched the largest supplies by road:—

Principal marts on road routes.

	1883-84. Mds.	1884-85. Mds.	1885-86. Mds.
In 24-Pergunnahs ... { Baraset ...	45,671	54,731	35,353
... { Bussirhat ...	16,353	18,954	10,940
In Jessore ... { Bongong ...	11,996	12,052	7,323

96. The exports were almost equal to those of 1884-85, but they exceeded those of 1883-84 by 2,86,222 maunds, or 22.75 per cent. The exports by sea from Calcutta in those years were as follows:—

WHITENESS EXPORTED.		1883-84.		1884-85.		1885-86.	
		Cwts.	Mds.	Cwts.	Mds.	Cwts.	Mds.
To Foreign Ports	300,831	4,00,455	513,400	7,20,099	259,510	3,53,222
.. Indian	140,074	1,00,057	148,789	2,03,870	387,307	5,27,108
Total ...		440,905	5,00,512	662,189	9,23,969	646,817	8,80,330

Commenting upon the gram trade with foreign ports, the Collector of Customs, Calcutta, writes :—

“To the Mauritius and to the Straits there were advances in the shipments against a decline to Ceylon and to “Other countries.” Under the last named is included Réunion, to which place there was, however, an increase in exports.

“Our trade in gram with Mauritius has declined to comparatively small figures during the past eight or nine years, and they were not in the past year more than one-fifth of what they were in 1877-78. The exports to Ceylon have also declined in a similar manner. There has been no marked decline in the exports to these countries from the whole of India during the above period, and it is evident that there has been a diversion of the trade from Calcutta to some other port of India.”

97. The exports balance the imports with a surplus amounting to 17,47,373 maunds in 1885-86, against 15,96,975 maunds in 1884-85, and 19,14,360 maunds in 1883-84.

Quantity not exported before the close of the year.

RICE AND PADDY.

98. The total quantity of rice and paddy imported into, and exported from, Calcutta during the past three years, was as follows :—

SPECIFICATION OF ROUTES.				IMPORTS.			EXPORTS.

99. The Customs returns for 1885-86 contain the following remarks on rice in connection with the sea-borne trade of Calcutta in that year :—

“There has been an advance in the exports of rice of 11½ per cent. during the past year in comparison with 1884-85, but the total shipments do not reach the average of the other three years. The higher rates of value have continued, and with smaller exports during the past year in comparison with 1882-83, the year of largest shipments, of over a million cwts, the increase in the value was over 46 lakhs of rupees. There was generally a higher range of prices than in 1884-85, so that the cultivator with average crops should have done even better than in that year, having again received more money for his produce.”

100. Last year the import trade exceeded the figures for 1884-85 by 7.06 per cent., but it was below those for 1883-84 by 2.92 per cent. As regards the several routes followed by the trade, the boat traffic exhibits a decrease of 4,64,539 maunds under rice, and of 4,56,598 maunds under paddy as compared with 1884-85; the traffic on the East Indian Railway shows a very large increase of 12,92,066 maunds under rice, and that on the Eastern Bengal State Railway of 6,04,854 maunds. On road routes there was a decrease of 47,110 maunds under rice, and of 12,866 maunds under paddy, while the sea-borne imports show a falling off of 1,28,629 maunds under rice, and of 1,98,080 maunds under paddy. For the first time last year the imports by inland steamer reached an appreciable quantity, namely, 73,819 maunds of rice, against *nil* in 1884-85, and only 37 maunds in 1883-84. The following statement shows the sources of this

supply, province by province, together with the different routes followed by the trade during the past three years :—

104. The quantity of rice imported by sea was for the most part shipped from Balasore (6,39,100 maunds, against 7,75,504 maunds in 1884-85, and 10,06,674 maunds in 1883-84), Chittagong (30,922 maunds, against 19,596 maunds in 1884-85, and 33,569 maunds in 1883-84), and British Burmah (13,039 maunds, against 5,468 maunds in 1884-85, and 8,801 maunds in 1883-84).

105. The quantity of rice exported during the year showed an increase of 5·66 per cent. on the returns of 1884-85, but a decrease of 10·37 per cent. as compared with those of 1883-84. The bulk of this trade was sea-borne, and its destination was as follows :—

Exports of Rice from Calcutta by Sea.

Regarding the rice trade with foreign ports, the Collector of Customs, Calcutta, remarks as follows :—

“There were increased exports to the United Kingdom, the Cape of Good Hope, Mauritius, South America, West Indies, Arabia, Persia, the Maldives, and the Straits Settlements with decreased shipments to Réunion, Ceylon, Australia, France, Zanzibar and Natal.

“To the United Kingdom the exports advanced by 40½ per cent. Though the quantity shows such a large increase, there appears to have been no special demand in London, as the market was generally in a dull state. There was at one period, however, some excitement owing to fear of a rupture with Russia and prices advanced, but when the scare subsided the market returned to its original condition. Speculators at this time operated freely, the highest prices in the year being those reached at that time, and they must have suffered in the fall which followed. The larger shipments from here during the past year, and also the larger exports from Burma to the United Kingdom, do not, however, appear to have entered into the figures of imports, as the following show that the receipts for the calendar year 1885 were considerably below those for 1884 and 1883 :—

	Cwts.	Cwts.	Cwts.
From British East Indies	7,387,226	5,414,685	4,832,532
.. other countries	371,613	1,176,218	728,527
	7,758,839	6,590,933	5,561,059

“The competition from other countries in the London market would, from the above figures, appear to have not been so keen in 1885 as it was in 1884, the receipts from other countries showing a greater decline proportionately than the imports from British East Indies.

“The decline in the receipts is said in one trade circular not to be owing to any decrease in the consumption of rice in the United Kingdom, but rather to a diversion of trade from the United Kingdom to continental ports, principally Bremen, due to the increasing steam communication with the large markets.

"The exports of rice to France show a further decline, the direct trade being practically *nil*, as the shipments only amounted to 10 cwts. To Italy there were no exports, and this trade also has died away as rapidly as it sprung up. There have been no exports of importance to Egypt or to Malta, so that there would not have been any diversion of cargoes to the Mediterranean ports, and the trade in Bengal rice with these places has apparently been only of a temporary character.

"Ceylon still continues to be the most important consumer of Bengal rice, and though the shipments from Calcutta show a small decline, there has been no decline in the total exports, as larger supplies have been sent from other ports.

"The trade with Zanzibar has not been on so large a scale as in 1884-85, and the shipments to Natal also show a decline.

"The direct exports to Germany (almost entirely to Bremen) have increased materially during the past year, and were the highest totals yet reached, being for three years—

	Cwts.					
1883-84	1
1884-85	15,262
1885-86	45,256

106. The stocks of rice at all the markets and warehouses of Calcutta in the first week of April of the past three years, were as follows:—

	First week of April.		
	1884. Mds.	1885. Mds.	1886. Mds.
Baliaghatta	10,12,000	7,00,000	10,74,000
Ooltadanga	86,900	54,600	68,500
Chitpore, Golabaree, Coomertoolce, Hatkhola, and Culpay Ghât	7,76,800	7,73,900	5,32,300
Pathuriaghatta, Posta, and Jorabagan	6,400	4,500	7,000
Tollygunge, Chitla, Kidderpore, and Moonshigunge	1,47,150	1,27,800	1,44,900
Twenty-one minor bazars (estimated)	2,40,000	2,40,000	2,40,000
Other retail shops, 3,129 in number (estimated)	2,50,000	2,50,000	2,50,000
Boidyabatty, Nowabgunge, Bhuddressur, and Chandernagore	31,087	8,951	11,491
On railway premises on both sides of the river	1,560	1,938	16,824
On boats, unloaded	66,282	1,30,357	51,759
Total	26,21,179	22,92,046	23,99,774
Probable stock available for exportation by sea as estimated on local enquiry	15½ lakhs	12½ lakhs	13½ lakhs

The figures given above do not include paddy, of which 14,14,511 maunds were imported into, and 5,55,983 maunds exported from, Calcutta during the past year, leaving a balance of 8,58,528 maunds, equivalent to 5,36,580 maunds of rice. If this be added to the stocks of rice shown above, the total will be raised to 29,36,354 maunds, against 31,73,278 maunds in 1884-85, and 34,06,545 maunds in 1883-84.

MISCELLANEOUS SPRING AND RAIN CROPS.

107. The principal staples comprised under this head are barley, *kodo*, *shama*, Indian-corn, oats and millets, which are reaped during the spring and rainy seasons. The amount of the Calcutta trade in these grains during the past three years was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.

108. The import trade of the past year showed a falling off of 5.15 per cent. as compared with 1884-85, but it exceeded the figures of 1883-84 by 60.45 per cent. The imports by boat were nearly the same as in 1884-85; but in the quantity carried by the East Indian Railway, there was an increase of 18,195 maunds,

while the figures of the Eastern Bengal State Railway showed a decrease of 40,384 maunds. The following table gives an abstract of the imports, province by province, during the past three years :—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.

North-Western Provinces and Oudh	25,778	30,271	49,946
Other places	3,420	4,012	16,926
Total			2,97,110	5,02,594	4,76,669

There was a great falling off in the imports from Bengal during the past year. The largest decline was in the quantities received from Nuddea, Hooghly, and Jessore, the total imports from which districts were 42,314 maunds, 14,947 maunds, and 9,286 maunds respectively, less than in 1884-85.

109. The principal stations or marts both on river routes and on the line of rail which contributed largely to the trade, were—

Marts.	Districts.	By boat, 1885-86.	By rail, 1885-86.	Total.

113. The import trade of the past year showed an increase of 1·77 per cent. and 24·45 per cent. in comparison with 1884-85 and 1883-84, respectively. The quantities carried by country boats fell by 35,836 pieces as compared with 1884-85, the imports

Imports.

by inland steamers showed an increase of 127,348 pieces, and those by the East Indian Railway of 291,648 pieces. The road traffic returns show a decrease of 49,052 pieces, and the sea imports of 119,305 pieces. The distribution of the imports is classified by provinces in the following statement :—

	1883-84.	1884-85.	1885-86.
	No.	No.	No.
Behar	2,493,560	2,801,531	3,201,300
Bengal	2,424,549	2,615,857	2,606,292
North-Western Provinces and Oudh ...	773,864	1,385,641	1,345,970

Other ports ...	2,130,761	210,331	2,523,505	262,520	2,949,548	319,114
Total ...	6,428,685	543,518	7,162,868	602,378	7,524,558	659,762
To Indian ports ...	280	23	8,672	636	1,718	119
GRAND TOTAL ...	6,428,965	543,541	7,171,540	603,014	7,526,276	659,881

The causes of fluctuations in this trade are stated by the Collector of Customs, Calcutta, to be as follows :—

“There was an increase of 10½ per cent. in the exports of raw hides during the past year in comparison with 1884-85, and the figures are the highest tabulated. There were advances in shipments to the United Kingdom, France, Italy, and the United States, with a decline to Austria.

“The market here throughout the year generally was in a very quiet state, and there was not much fluctuation in prices, which, however, were lower at the close of the year. There was little or no support received from the home markets, as the trade in these goods was irregular with considerable fluctuations in prices, which on the whole declined during the year.

“The United Kingdom takes the largest quantity of raw hides from Calcutta, the shipments thither being more than one-half the total quantity exported. There was a small increase in the exports during the past year for which no special reason can be assigned, it probably being an ordinary fluctuation of trade.

“There was a decline in shipments to Austria of 32½ per cent., to which country the exports in 1884-85 were the largest shown, and a falling off in the succeeding year was therefore not improbable.

“The advance in the exports to Italy is very marked, and the expansion of this trade has been remarkable during the past ten years, the total shipments in the past year being more than double what they were in 1876-77. The regularity of communication between Calcutta and Italian ports has no doubt had some influence in producing the increase shown.

“To the United States exports of raw hides have again advanced, and the figures are the highest shown in the above table. There has evidently been an accumulation of stocks in the United States, as shipments of leather have been made to Canada which were sold at very low prices.

“The trade in tanned hides has fallen away to a very small proportion, and the figures are of comparative insignificance.”

119. After deduction of the exports from the imports there remained

Quantity not exported before the close of the year. 588,868 hides, against 765,755 in 1884-85, and 82,381 in 1883-84.

SALT.

120. The result of the registration of the salt trade of Calcutta during the past three years is shown in the following statement :—

1	2	3	4	5	6	7	8	9	10	11	12
YEAR.	IMPORTS INTO CALCUTTA BY SEA.			EXPORTS FROM CALCUTTA AND HOOGHLY.

121. The large increase noticed last year was not maintained during the year under report; the average retail price of salt in these provinces was also lower than in 1884-85. The following statement which has been compiled from the published prices current shows that there was a fall in price in 18 of the 47 districts named below, a rise in 16 districts, and in the remaining 13 districts the average price was the same as in the previous year:—

Retail price of salt per rupee.

Total ...	330,802	330,084	319,043	90,05,161	89,85,613	86,85,051

123. Compared with 1884-85, the imports from Liverpool fell off by 10·70 per cent., and those from Arabian and Persian Gulfs by 43·88 per cent., against a large increase of 234·63 per cent. under Italy and of 42·86 per cent. under Bombay. The report on the Administration of the Salt Department in these provinces for the year 1885-86 contains the following explanation of the fluctuations noticed above:—

“In Calcutta there was a decrease in the importations from the United Kingdom and the Arabian and Persian Gulfs, while there was an increase in the importations from Italy and Bombay, and nearly 20,000 maunds of salt were imported from Hamburg and a small quantity from Port Augustus”

With regard to the increase in the importations from Italy, the Collector of Customs, Calcutta, observes—

“Since the Italian salt has a longer journey to make, and is subject to canal dues, its prosperity cannot be lasting. It will probably last as long as the steamers continue to run, because sooner than come out in ballast they will bring salt. It is not the demand for salt, but the convenient form it assumes for ballast that in many cases decides the importation, and the decrease or increase of importations from any particular place cannot be referred to the laws ordinarily regulating such transactions. If other cargoes could be got, it may be safely assumed that the import salt trade would undergo contraction, or, perhaps as was the case with importations from France this last year, cease altogether.”

124. The total quantity of indigenous salt imported into Calcutta by the East Indian Railway during the past three years was 332 maunds, against 95 maunds in 1884-85, and 315 maunds in 1883-84.

125. It will be seen that the decrease last year was 1·13 per cent. as compared with 1884-85, but the figures showed an increase of 4·15 per cent. as compared with 1883-84.

Exports.

Compared with 1884-85, the boat traffic exhibits a decrease of 1·67 per cent.; the traffic on the East Indian Railway shows a decrease of 3·03 per cent.; that on the Eastern Bengal State Railway a decrease of 1·86 per cent.; that on the Northern Bengal State Railway a decrease of 2·43 per cent.; that on road routes a decrease of 9·40 per cent., and that carried by inland steamers an increase of 57·80 per cent. The different provinces to which salt was consigned from Calcutta during the past three years are shown in the subjoined statement:—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
To Bengal	45,59,142	41,95,934	44,25,431
„ Behar	26,90,681	29,86,987	28,64,395
„ North-Western Provinces and Oudh	2,04,943	3,01,901	4,21,982
„ Assam	3,23,627	3,76,730	3,53,035
„ Chota Nagpore	1,45,898	1,80,324	1,51,740
„ Other provinces	851	2	956
Total			79,25,042	83,41,878	82,17,539
„ Sea Ports	829	7,540	37,566
Grand Total			79,25,871	83,49,418	82,55,105

126. The excess of imports over exports amounted to 4,30,278 maunds, against 6,36,290 maunds in 1884-85, and 10,79,605 maunds in 1883-84.

Comparison of imports with exports.

127. The gross weight of salt on which duty was paid in Calcutta and the 24-Pergunnahs district during the past three years, as compared with the quantity sent into the interior from Calcutta in those years, was as follows:—

Clearances from ship-board and bond.

			Sea-imported salt.	Excise salt.	Total clearances.	Sent into the interior.
			Mds.	Mds.	Mds.	Mds.
1883-84	85,79,927*	12,657	85,92,584	79,25,871
1884-85	93,71,06†	11,124	93,82,210	83,49,418
1885-86	90,70,437‡	8,135	90,78,572	82,55,105

The total clearances of salt showed a falling off of 3·23 per cent. on the returns of 1884-85, but in comparison with 1883-84, the figures showed an advance of 5·65 per cent.

* Including 5,16,498 maunds of Bombay and Madras salt, which was passed free of duty.

† Ditto 4,15,994 ditto Bombay salt, which was passed free of duty.

‡ Ditto 5,25,983 ditto Bombay and Madras salt, which was passed free of duty.

128. It will be seen that the amount of salt available for consumption in Calcutta, the Suburbs, Hooghly, and a part of the 24-Pergunnahs district was 8,23,467 maunds, against 10,32,792 maunds in 1884-85, and 6,66,713 maunds in 1883-84.

129. Salt was carried from Calcutta to the different Divisions of the Lower Provinces other than those of Behar in the quantities shown below :—

SALT TRADE OF BENGAL.

Imports.

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Burdwan Division (excluding Hooghly with Howrah)	9,44,325	10,25,387	9,68,467
Presidency Division (excluding Calcutta, the Suburbs, and a part of the 24-Pergunnahs district)	11,36,609	9,63,670	9,66,561
Rajshahye Division	10,78,391	12,16,367	12,21,408
Dacca ditto	12,76,117	12,09,469	11,92,165
Chittagong ditto	1,23,700	82,041	76,830
Ghota Nagpore ditto	1,45,898	1,80,324	1,51,740
Orissa	38,462
Total	<u>47,05,040</u>	<u>46,76,258</u>	<u>46,15,633</u>

The imports into these Divisions from other sources during those years were as follows :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Imported by rail	2,941	281	1,824
Clearances of salt manufactured in the 24-Pergunnahs and Orissa under the excise rules	4,39,257	5,01,256	4,78,749
Sea-imported salt on which duty was paid in the Chittagong, Naraingunge, Cuttack, and Balasore ports	4,45,123	5,37,047	3,62,542
Total	<u>8,87,321</u>	<u>10,38,584</u>	<u>8,43,115</u>

The combined total of the registered imports therefore amounted to 54,58,748 maunds, against 57,14,842 maunds in 1884-85, and 55,92,361 maunds in 1883-84.

130. The amount of salt exported to places outside the Bengal province during the past three years was as follows :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
To districts in Behar from the Bengal block of the East Indian Railway	13,976	9,107	5,719
To North-Western Provinces from the Bengal block of the East Indian Railway	272
To Nepal, Sikkim, and Bhutan from districts on the Northern Frontier	1,196	1,477	3,721
Total	<u>15,444</u>	<u>10,584</u>	<u>9,440</u>

131. The total quantity of salt available for consumption within Bengal during the past three years, was as follows :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Metropolitan consumption	6,66,713	10,32,792	8,23,467
Consumption in the interior after deducting exports	55,76,917	57,04,258	54,49,308
Total	<u>62,43,630</u>	<u>67,37,050</u>	<u>62,72,775</u>

132. The population of Bengal being taken at 46,409,757 souls, the consumption of salt would be 11lbs 2 oz. per head, against 11lbs 15oz. in 1884-85, and 11lbs 1 oz. in 1883-84.

Consumption per head of population.

133. The amount of salt despatched to Behar from Calcutta during the
SALT TRADE OF BEHAR. past three years, was as follows:—
Imports.

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Patna Division	18,59,523	21,22,567	20,62,137
Bhagulpore Division	8,31,158	8,64,420	8,02,258
Total	26,90,681	29,86,987	28,64,395

The supplies carried to Behar by rail from places other than Calcutta during those years, were—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
From Punjab	66,937	33,667	24,950
" Bengal	13,976	9,107	5,719
" North-Western Provinces and Oudh...	3,701	1,003	1,820
" Rajputana	2,883	270	1,350
Total	87,497	44,047	33,839

The gross registered imports therefore amounted to 28,98,284 maunds, against 30,31,034 maunds in 1884-85, and 27,78,178 maunds in 1883-84.

134. The registered quantity of salt exported from Behar during the past three years, is shown in the following statement:—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
To Bengal block from the Behar block of the East Indian Railway...	2,641	186	1,564
" North-Western Provinces from the Behar block of the East Indian Railway	2,461	2,120	5,993
" Rajputana and Central India from the Behar block of the East Indian Railway	274
" Central Provinces from the Behar block of the East Indian Railway	283
" Nepal from districts on the Northern Frontier of the Behar Province	96,468	96,269	97,448
Total	1,01,570	98,584	1,05,561

135. The total supply left for consumption within Behar last year was 27,92,723 maunds, which allowed 9lbs 15 oz. per head of population, consisting of 23,127,104 souls, against 10lbs 7 oz. in 1884-85, and 9lbs. 8 oz. in 1883-84.

136. The amount of salt sent to Assam from Calcutta was 3,53,035 maunds, against 3,76,730 maunds in 1884-85, and 3,23,527 maunds in 1883-84. Out of the past year's supply, 1,65,283 maunds were carried by inland steamers, and 1,87,750 maunds by country boats.

137. The following statements show the registered trade of Bengal with the Upper Provinces during the past three years:—

		Imports into Bengal (by rail).

SALTPETRE.

139. The total quantity of the trade of Calcutta in saltpetre during the past three years, is shown in the following statement :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
By East Indian Railway	7,44,135	6,95,656	6,18,825	2,468	1,330	509
„ Eastern Bengal State Railway	3	791	454	518
„ Boat	12,218	27,296	20,840	5,550	499	799
„ Inland steamer	234	262	140
„ Road	2,089	280	50
„ Sea	4	6,71,509	6,17,862	5,44,024
Total ...	7,56,350	7,22,932	6,39,678	6,82,688	6,20,703	5,46,100

140. The saltpetre trade is regulated by the demand in European countries, and, according to the customs returns, it appears that at the beginning of the year under report, when there were apprehensions of war with Russia, there was a strong demand for saltpetre, and at intervals, when appearances were warlike, there were advances in price, with a large demand for the United Kingdom, where prices had advanced in a similar manner.

141. The quantity imported by all routes was 11·52 per cent. below the trade of 1884-85, and 15·42 per cent. below that of 1883-84. Compared with the previous year, the supply carried by the East Indian Railway showed a falling off of 76,831 maunds, or 11·04 per cent., and that by country boats of 6,447 maunds, or 23·61 per cent. The following statement shows the imports of saltpetre from the different provinces during the past three years :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Behar	5,29,347	5,07,284	4,55,834
North-Western Provinces and Oudh	1,39,321	1,27,906	1,18,701
Punjab	87,401	87,039	63,766
Other places	281	743	1,677
Total ...	7,56,350	7,22,952	6,39,678

The heavy decrease of 51,630 maunds under Behar was owing to shorter despatches of this article, chiefly from the districts of Patna and Mozufferpore, which supplied 40,768 maunds and 29,036 maunds, respectively, less than in 1884-85. The Commissioner of the Patna Division writes :—

“ With regard to saltpetre and the manufacture of sulphate of soda, these industries, I find, showed a marked decrease in number of licenses, outturn and revenue, in the Mozufferpore district. The Superintendent, Northern India Salt Department, is entirely unable to account for the decrease. I have the same account from Sarun, where the trade seems to be declining, and, it is said, is not likely to revive under the present revenue rules, which do not favour the petty manufacturers of crude saltpetre, and therefore also do not favour the development of the trade in refined saltpetre, which depends on the supply of crude saltpetre. In Durbhunga and Chumparun also there has been a decrease in the outturn of saltpetre and sulphate of soda.

“ The decrease in Durbhunga is attributed to the heavy rainfall of the year, which retarded the formation of efflorescence of nitrous soil. The decrease in Chumparun is due to the unfavourable weather, which prevented work being started as early as usual after the rains.”

142. The stations on the line of railway from which large consignments were sent were—

Principal railway stations.	Districts.	1883-84.	1884-85.	1885-86.

GRAND TOTAL	...	493,397	453,939	6,17,862	399,691	5,44,024

Regarding this trade with foreign ports, the Collector of Customs Calcutta, writes:—

“The total exports of saltpetre show a decline of 11½ per cent. during the past year in comparison with 1884-85, but they were quite up to the average of previous years.

“The principal advance occurs in the shipments to the United Kingdom with a smaller increase to France, against decreases to the United States and China.

“The increase to the United Kingdom was 17½ per cent. The trade in London has been in a more satisfactory state, for there were larger deliveries for consumption during the year, leaving smaller stocks, and with a substantial advance in value.

“The falling off to the United States amounted to about 13½ per cent. The increased shipments of the previous year and the large demand from the United Kingdom operated in causing the fall shown in the exports to America.

“To China (Hong-Kong) the decline was 52½ per cent. The same reasons probably operated in producing this decrease as influenced the decline to the United States, and there would also be a smaller demand owing to cessation of hostilities with France.”

145. The excess of imports over exports amounted to 93,578 maunds, against 1,02,244 maunds in 1884-85, and 73,662 maunds in 1883-84.

Quantity not exported before the close of the year

LINSEED.

146. The total amount of linseed carried to and from Calcutta during the past three years was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
By Boat	13,54,101	13,20,801	12,50,832	1,706	411	703
Inland steamer	840	10,624	24,872	57	21	13
East Indian Railway	42,53,400	32,77,381	40,44,381	69	3	15
Eastern Bengal State Railway	2,20,404	3,08,083	3,72,832	10	107	53
Road	23,164	38,747	23,041	180	20
Sea	137	2,151	1,541	58,39,588	51,13,734	64,25,211
Total	58,59,341	49,66,827	63,27,499	58,41,890	51,14,296	64,26,055

147. Owing to the failure of the linseed crop in Russia, and to a strong demand which existed throughout the year for this article in England, the

trade received a great stimulus during the year under report. The Collector's remarks on the subject are extracted below—

“At the beginning of the year, owing to the probability of a war between Russia and England, there was a strong demand for linseed for several weeks during the time that negotiations were in progress. When, however, it was seen that the difficulty would be amicably arranged, a quieter feeling set in. This did not last long, for there was throughout the year a strong demand, at occasional intervals, and prices were much in advance of those ruling in the previous year.

“The extremely low freights during the past year have probably had some effect in producing the increase shown above, as the advantage in this direction possessed by the ports on the western side of India cannot have been so great as in ordinary years of high freights when the difference in rates would be greater than it was last year. Another factor which no doubt would contribute to the advance in shipments is that during the year the rates of carriage for oilseeds were reduced by the East Indian Railway, which, causing a decline in the cost laid down here, also placed exporters in a better position to compete with Bombay and Kurrachee.”

148. The import trade showed a considerable increase of 27·39 per cent. as compared with 1884-85, and of 7·99 per cent. as compared with 1883-84. The boat traffic exhibited a falling off of 60,929 maunds as compared with 1884-85, but the supplies attracted to the East Indian Railway showed an enormous advance of 13,67,000 maunds. The different provinces which contributed to the trade during the passed three years were as follows:—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Behar	35,78,047	26,79,959	35,28,120
North-Western Provinces and Oudh ...	12,02,808	8,62,202	16,03,443
Bengal	8,67,297	11,22,180	10,88,950
Central Provinces and Rajputana ...	1,75,853	2,07,001	54,359
Assam	26,757	91,023	46,896
Other places	8,579	4,403	5,731
Total	58,59,341	49,66,827	63,27,499

In Behar there was a great advance in the quantities received from Patna (4,53,017 maunds) Gya (90,474 maunds) Durbhunga (79,205 maunds) Bhagulpore (59,008 maunds), and Chumparun (58,732 maunds). The principal districts which contributed to the improvement noticed against the North-Western Provinces and Oudh, were Bara Banki, Shahjehanpore, Fyzabad and Allahabad, which supplied 3,03,163 maunds, 1,43,735 maunds, 84,923 maunds, and 46,251 maunds respectively, in excess of the figures of 1884-85. The figures under the Central Provinces showed a fall of 1,52,642 maunds. In the returns of rail-borne traffic for the quarter ending on 31st March 1886, the Director of Agriculture, Central Provinces, writes—

“The decrease in the exports of linseed is due to the exceptionally bad outturn of the present year. The first linseed crop came to market during the currency of the quarter and had a considerable influence on the exports. The extent of the depression in some parts of the Provinces may be judged of, from the fact that the Nagpore Division only exported 78,160 maunds against 2,46,736 maunds in 1885.”

The decrease in the case of Assam was entirely in the imports from Sylhet.

149. The following are the principal railway stations which exported linseed to Calcutta during the past three years:—

Principal railway stations.

Stations.	District.	1883-84.	1884-85.	1885-86.

The Collector of Customs, Calcutta, writes—

“During the past year there was an advance of 25½ per cent. in the exports of this seed in comparison with 1884-85, and the figures are the highest shown. This increase was principally due to larger exports to the United Kingdom, to France, and to Holland, while to the United States shipments show a heavy decline.

“To the United Kingdom the advance has been 58½ per cent., and the figures are the highest tabulated. Calcutta has obtained by far the largest share of the trade with the United Kingdom, the exports from this port being in a higher proportion than for the past two years.

“To the United States exports have declined to about the level of the year 1882-83, showing a reduction in comparison with 1884-85 of 75 per cent. The larger demand from the United Kingdom would naturally leave a smaller quantity available for shipment to the United States; but the principal reason for the decline is that there was a very large crop of flax seed raised there, as it was found more profitable to grow it than wheat. This

crop was sold at extremely low prices, and it is said that it was even exported to Europe. There has also been an increase in this trade with the United States from South America, but it has not yet become of sufficient importance to materially affect the trade.

"After two blank years there was a resumption of exports to France, but our shipments to that country are a very small fraction of the total exports from India.

"Under 'Other countries' are included the shipments to Holland, which were largely in excess of the previous year, the figures being—

1884-85 ... Cwts.—31,172 | 1885-86 ... Cwt.—148,543

152. After deducting the imports from the exports, there was a deficit of 98,556 maunds, against 1,47,469 maunds in 1884-85; in 1883-84, there was a surplus of 17,751 maunds.

MUSTARD SEED.

153. The total quantity of mustard seed carried to and from Calcutta by all routes during the past three years, was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

154. According to the Custom House returns, the demand for mustard seed during the past year was sluggish, and there was a fall in prices. This was, it is said, in sympathy with the London market, where the depression of 1884 was continued last year with a continuous fall in prices. Notwithstanding the smaller supplies received by the United Kingdom, the stocks there are said to be still very large.

155. The imports showed a decrease of 7,31,302 maunds on the trade of 1884-85, and of 4,67,778 maunds as compared with that of 1883-84. The decrease in the imports by the East Indian Railway was 20·93 per cent., that by the Eastern Bengal State Railway 58·02 per cent., and that by country boats 14·57 per cent. The sources of supply, classified by provinces, were—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Behar	10,56,191	12,67,087	15,39,454
Bengal	4,71,135	10,26,018	5,94,353
Assam	91,748	4,09,503	4,43,967
North-Western Provinces and Oudh	14,19,883	10,37,707	4,38,398
Other places	4,97,410	59,576	47,417
Total	35,36,367	37,99,891	30,68,680

There was a large increase in the imports from Behar during the past year. The different districts which contributed to the increase, as compared with 1884-85, were Patna (1,76,242 maunds), Bhagulpore (60,116 maunds) Durbhunga, (41,191 maunds), and Monghyr (27,476 maunds). The figures under Bengal showed a considerable fall of 42·07 per cent. The crop was not good in Rajshahye owing to the almost total want of rain from November to February inclusive. The exports from the Chota Nagpore Division, too, were very limited during the year. The supply imported from the North-Western Provinces and Oudh also showed a large decrease of 5,99,309 maunds, or 57·75 per cent., as compared with the previous year, which was due to shorter consignments from Cawnpore (3,59,979 maunds), Allyghur (60,982 maunds) and Etawah (36,226 maunds).

156. The quantities carried by rail were for the most part booked from the following stations : —

The Collector of Customs, Calcutta, writes—

“The large shipments of this seed in 1884-85 have been followed by a decline in the past year of 40 per cent. Nearly the whole of this trade is with the United Kingdom, the exports to other countries being comparatively small.”

159. The quantity of mustard seed not exported before the close of the year was 9,85,974 maunds, against 7,65,267 maunds in 1884-85, and 6,62,564 maunds in 1883-84.

SILK, RAW.

160. The following statement gives the total quantity of raw silk imported into, and exported from, Calcutta during the past three years :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

Road	19	45	301
Sea	1,507	2,812	1,400	28,310	22,253	19,542
Total	24,308	29,689	24,147	29,341	30,479	22,486

161. The condition of this trade during the past year is thus described by the Collector of Customs, Calcutta:—

“Throughout the year the supplies of silk sent into the market were not large, notwithstanding that there was a substantial advance in prices, the crop generally being poor.

“The fall in production appears to be in pure raw silk, as “ohussum,” the most important sort exported as regards quantity, has steadily advanced during the past five years. This fact accounts for the heavy fall in the total value of the exports.

“The demand for Bengal silk in London was during the early part of the year small, but towards the end a strong demand set in, and a large quantity was disposed of at improved prices.”

162. The total decrease under imports was 18·66 per cent. as compared with 1884-85, and ·66 per cent. as compared with 1883-84.

Imports.

The supply carried by rail, which amounted to 67·63 per cent of the total trade, was 23·09 per cent. less than in 1884-85. In the case of the East Indian Railway, the traffic fell off by 17·43 per cent., and in that of the Eastern Bengal State Railway by 33·28 per cent. The following remarks are made by Commissioners of Divisions on the prospects of the silk industry during the past official year:—

Presidency Division—“As reported last year, a superior quality of silk called *gorad* is still woven at Mymari, Radhakantpore, Panchkoola, and Jugdabad, in the district of Burdwan. It finds a ready market in Calcutta. A pair of silk cloth 10 yards long is sometimes sold at Rs. 22, and a piece of equal length from Rs. 12 to Rs. 20, according to the quality of the fabric. The estimated outturn was 16,900 yards valued at Rs. 21,000. The manufacture of silk in Bankoora is almost entirely confined to the towns of Bursingha, Bishenpore, and Sonamukhi. The first-mentioned town is, however, the seat of the manufacture. There are 20 looms in it which work in silk only. The Bursingha and Sonamukhi looms generally turn out the stuff called *kootni*. The Bishenpore weavers have obtained great excellence in the art, and have obtained prizes and honourable mentions at India and foreign exhibitions. There is some demand for the stuff called *kootni* in the North-Western Provinces. It is used in making screens and quilts by Europeans and native gentlemen.

“In Midnapore silk fabrics are manufactured in some parts of the Sudder subdivision to a smaller extent, and to a greater extent in the Ghatal subdivision, from whence the following silk fabrics were sent during the year for the Indo-Colonial Exhibition:—

Coloured check silk.

Flowered silk.

Plain silk.

Neck cloths.

“Two hundred and fifty-one maunds 21 seers of silk were manufactured in this district, the value of which is estimated at Rs. 1,31,554. Business was very dull on account of continuous fall in the price of silk and on account of the degeneration of cocoons.

“In Beerbhoom the silk manufacture is confined to the factories in Gonotia. The outturn was 232 maunds, worth Rs. 1,37,031, against 300 maunds, valued at Rs. 1,64,914, in the previous year. The decrease is due to a reduced supply of cocoons. Besides the above, about 21,400 pieces of *kora* (each 7 yards long), estimated value Rs. 1,50,000, were exported by the agents of different merchants and dealers to Calcutta. The manufacture of silk in Hooghly and Howrah is in the wane, and does not require special notice.

“Tussur silk cloth is manufactured in all the three districts of Burdwan, Bankoora, and Beerbhoom. In Midnapore also tussur cocoons are obtained from the jungle mehals, and are reeled and manufactured into cloths in parts of the Sudder and Ghatal subdivisions. The principal seat of the industry in Burdwan is at Bagtikari, Moosthol, and Ghoranash, in the Cutwa subdivision. The cocoons are imported from the districts of Moorshedabad and Chota Nagpore. Over 200 persons are employed in this manufacture. The outturn is estimated at 30,010 yards, valued at Rs. 40,242. In Bankoora the principal seats of the industry are Bankoora, Beersinghapore, Sonamukhi, and Bishenpore. The supply of tussur cocoons in the district is not adequate for the requirements of the manufacture. Large importations are therefore made from Chota Nagpore. The tussur cloth finds a ready market in Calcutta and North-Western Provinces. The value of the fabrics produced is estimated at about Rs. 20,000. In Beerbhoom 21,500 pieces of tussur, valued at Rs. 1,40,000, against 17,460 pieces to the value of Rs. 96,030, were exported from the weaving centres of Kaddya, Beersinghapore, Parulia, and Tantipara. The demand for this article from Europe is on the increase.”

“The number of silk factories which worked in the Moorshedabad district during the year was 72. They produced 200,911lb of silk, valued at Rs. 13,03,914. The silk industry was, it is said, not profitable. The depression is attributed to a strong competition in the European market of Italian silk. Silk cloths of a superior quality are manufactured at Mirzapur and Baluchar. It is stated that of late there has been a rise in the price of silk, and it is now selling at Rs. 10 a seer, against Rs. 7 to Rs. 8 before.”

Rajshahye Division.—"There was again a falling off in this industry in Rajshahye. The quantity manufactured and exported by the two European firms was 113,400lb against 133,633lb. By way of giving a stimulus to the silk industry a cocoon exhibition was held in Beaulah by order of Government in January, and Rs. 1,920 were distributed in rewards. Mr Wardle, a silk expert, visited some of Messrs. R. Watson and Company's silk filatures during the cold season. The district officer understands the French firm Messrs. L. Payen and Company are pushing the manufacture of tussur silk on a new principle.

"A little silk is manufactured and locally used in Bogra."

Bhagulpore Division.—"The manufacture of tussur and bafta pieces by the weaver in Champanagore, Nathnagore, and Khanjarpore of Bhagulpore is still maintained. The outturn during the year under report is estimated at 22,417 pieces valued at Rs. 1,13,088, as compared with 44,555 pieces worth Rs. 1,91,500 in the previous year; the figures show a sad falling off, and I am afraid this too must be written down as a decaying form of industry.

"There are five silk factories in the district of Maldah under European management, besides numerous natives silk filatures. The season was not a good one, as the worms were not so plentiful as usual, the mulberry having suffered severely owing to the drought and great heat during the first three months, and the heavy rainfall and floods during the latter portion of the season; this, too, is a gradually decaying branch of industry. The demand for silk appears to be falling off, and is insufficient to maintain the industry in its formerly prosperous condition."

Chota Nuyppore Division.—"In Hazaribagh the manufacture of tussur silk is said to have received an impetus owing to the establishment of a filature in the town of Hazaribagh by a French gentleman, who is working in cocoons on an improved method. The same industry is said to have been very much depressed in Manbhoom in consequence of the large export of raw silk to Europe and the consequent rise in the price of the raw product."

163. The imports by rail during the past year were for the most part consigned from Damoodka (4,464 maunds, against 7,472 maunds in 1884-85) on the Eastern Bengal State Railway, and from Azimgunge (4,589 maunds, against 3,843 maunds), and Mooraroc (2,687 maunds against 4,144 maunds) on the East Indian Railway.

164. The bulk of the imports by river routes was consigned from Ghattal (2,390 maunds, against 3,175 maunds in 1884-85), and from Midnapore (1,338 maunds, against 709 maunds in 1884-85).

165. There was a large decrease in the export trade, amounting to 15.08 per cent. as compared with 1884-85, and 14.63 per cent. as compared with 1883-84. The destination of the exports by sea during the past three years was to the following places:—

Concerning the trade of Calcutta with foreign ports, the Collector of Customs, Calcutta, writes:—

"There has been a decline in the total exports of raw silk of 9½ per cent. during the past year in comparison with 1884-85.

"To the United Kingdom the shipments have declined by 38½ per cent., and to Italy by 45½ per cent., while there was an increase to France of 23½ per cent.

"The exports to France are the highest shown in the above table: they consist principally of *chussum*.

"The fall in shipments to Italy is a heavy one, notwithstanding that the crop there was not said to be a large one. As pointed out in last year's report, there appears to be very little chance of Bengal silk being able at present to compete with Italian and China silks, unless it be for some purposes for which it is specially adapted."

166. During the year under report the surplus of imports over exports was 1,661 maunds, against 3,210 maunds in 1884-85. In 1883-84, however, the exports exceeded the imports by 2,033 maunds.

SUGAR.

167. The following statement shows the registered trade of Calcutta in drained and undrained sugar during the past year, as compared with the totals of the preceding two years :—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.

168. As regards the imports, the figures under drained sugar showed a decrease of 1·14 per cent. on the trade of 1884-85, and of 24·10 per cent. on that of 1883-84, while those under undrained sugar exhibited a decrease of 6·12 per cent. as compared with 1884-85, and of 11·59 per cent. as compared with 1883-84. In the boat traffic there was an increase of 12,066 maunds under drained, but a decrease of 52,097 maunds under undrained sugar, as compared with the previous year. The fluctuations in the supply carried by rail were very slight, but the figures of road traffic exhibited a decrease of 32,850 maunds and 14,128 maunds under drained and undrained sugar, respectively, while in the sea-borne imports the quantities of drained sugar advanced by 20,611 maunds. The following statement shows the imports of sugar, classified according to the provinces from which it was imported :—

PROVINCES.	DRAINED SUGAR.			UNDRAINED SUGAR.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
Bengal	3,63,031	2,13,868	1,98,373	9,78,514	9,55,111	9,02,199

169. Speaking about the sea-borne trade, the Collector of Customs, Calcutta, writes :—

“As in 1884-85, Bengal was a large importing, instead of being an exporting country, and the importations were far in excess of any previous year, the figures being from the principal sources of supply—

	1884-85.		1885-86.	
	Cwts.	Value. Rs.	Cwts.	Value. Rs.
From United Kingdom ...	22,166	2,47,385	17,201	1,98,698
.. Java ...	20,043	1,62,963	8,684	1,89,943
.. Mauritius ...	3,312	45,041	43,704	5,87,663
.. Austria ...	13,542	1,69,928	Nil.	Nil.

“The importations were smaller from the United Kingdom, Java, and Austria, but the decrease was more than counterbalanced by exceptionally large receipts from Mauritius.”

170. The Commissioner of the Presidency Division makes the following remarks on the condition of sugar manufacture in his Division :—

*“ 24-Pergunnahs.—Gur and sugar are largely manufactured in the Bussirhat and Baraset subdivisions, both from cane and the juice of the date-palm. In Bussirhat the manufacture of gur from palm juice is carried on on an extensive scale, and is said to form the principal source of income next to rice. The annual outturn of gur from the date-palm is estimated at 3,53,000 maunds, about two-fifths of which are sold raw and the rest converted into sugar. The local price of gur and sugar varied respectively from Rs. 2-2 to Rs. 2-12 and from Rs. 6 to Rs. 8 per maund. The area under sugarcane in the Bussirhat subdivision is estimated at about 2,100 bighas, producing about 63,000 maunds of gur. Of this something over one-half is exported raw and the remaining quantity is converted into sugar. The prices of gur and sugar varied respectively from Rs. 3 to Rs. 3-2 and Rs. 12 to Rs. 12-8 per maund. The area under sugarcane in the Baraset subdivision is estimated at about 19,000 acres, and the yield about 11 lakhs of maunds of cane. Almost the whole of the yield is used for making gur, one-half of which is sold in the Calcutta markets and the other half is converted into sugar in the refineries at Goberdanga, which are 49 in number and give employment to 439 persons from the month of *Aghran* to *Choitro*. The sugar is despatched by rail to Calcutta for sale. During the year under report the total export by rail amounted to 56,557 maunds. Taking the price per maund at Rs. 10, the value of the export may be estimated at over 5½ lakhs of rupees.*

“ Nuddea.—Sugar is largely manufactured at Santipore and Chogdah, in the Ranaghat subdivision, and at Jibannagpur, Munshigunge, and Allumdanga in Choondanga. During the year under report, the export of sugar from the Ranaghat subdivision amounted to 57 780 maunds valued at Rs. 3,51,805, and from the Choondanga subdivision to 44,884 maunds.

“ Jessore.—Sugar is the most important manufacture in this district. There are above 250 factories in it, and the area under cultivation is 46,276 bighas. The total outturn of sugar during the year was 3,35,448 maunds, against 3,90,376 in 1884-85, and the price varied, according to quality, from Rs. 5 to Rs. 8 per maund. The sugar season was not unfavourable, though the outturn shows a decrease of 54,928 maunds. This is ascribed to the fact that the statistics were not collected by a special establishment retained for the purpose, but by the existing establishment of sub-deputies and canoongoes after the end of the year. The Collector thus apparently thinks that they are not so complete as they were last year.

“ Khoulga.—During the year under report the outturn of sugar is estimated at 75,000 maunds, of which three quarters were manufactured in the Satkhira subdivision. It is stated, however, that the trade is leaving Satkhira in the direction of Goberdanga.”

171. The Commissioner of the Rajshahye Division gives the following account of the sugar industry in his Division during the past year :—

“ Molasses is manufactured more or less in every district, and is a thriving industry on the whole owing to the impetus given to the cultivation of sugarcane by the introduction of the sugarcane mills. They are largely made in Dinagore, Rajshahye, Pubna, Bogra, and Rungpore. Messrs. Ruddock and Vowell estimate that about 50 or 60 thousand maunds were made in Rajshahye and Pubna respectively, and Mr. Borooah reports that about Rs. 30,000 worth was made in Bogra. The outturn in Rajshahye was smaller than in 1884-85. This was owing to some of the sugarcane being injured by floods. The manufacturers in Pubna use Messrs. William. Renwick, Livermore's sugarcane mills and boiling pans for the manufacture. They are let out by the agent (Mr. Brae) by the month. More sugar is made in Julpigoree than in the other districts.”

172. Regarding the Dacca Division, the Commissioner writes :—

“ Sugarcane is largely cultivated in Furreedpore, and to a smaller extent in Backergunge, and in the Manickgunge subdivision in Dacca. Both in Dacca and Backergunge the crop was a good one, but not quite so good in Furreedpore.”

173. The Commissioner of the Patna Division writes :—

“ The sugar industry, which, as has been noticed in previous reports, ranks next in importance to indigo, is carried on more or less extensively in all the districts of the Division.

“ In the Gya district sugar is manufactured at three factories. The industry shows signs of development. The quality of the sugar is coarse, but there is apparently a good demand for it, and the factories appear to be doing well. There is a very large export of molasses from this district, agents being employed even from Bombay, to which exportation is made direct by rail.

“ In Shahabad the sugar industry is the most important of the district manufactures, and the only prosperous one. It is carried on extensively in Buxar and Sasseram subdivisions and elsewhere on a comparatively small scale. The season was a favourable one for the cultivation of the crop. The outturn of the Buxar subdivision is estimated by the subdivisional officer at 35,850 maunds, against 23,880 maunds in the previous year; while in the Sasseram subdivision the quantity of sugar manufactured was 44,908 maunds, valued at Rs. 3,37,203.

“ The principal feature of the year was the introduction of hand turbines at Nasrigunge, the seat of the industry in Sasseram and elsewhere, which resulted in the increased manufacture of sugar.

"The Collector estimates that about seven-eighths of the total quantity of sugar manufactured in the district is exported to Cawnpore, Agra, and other places in the North-Western Provinces, and to Bombay.

"In the Durbhunga district sugar is manufactured principally in the Madhubani subdivision, also in some parts of the Sudder subdivision; and the outturn, estimated at an exceedingly rough calculation, is said to have been 10,000 maunds. The bulk of the produce appears to be locally consumed. A small quantity finds its way into the neighbouring districts of Behar and Nepal, and very little, if any, is exported to Lower Bengal. The Collector is inclined to think that, sooner or later, the Madhubani sugar will find itself unable to cope with machine-made sugar, and will cease to be manufactured.

"There was a good sugar-cane crop in Sarun, and the sugar trade is reviving: several of the old refineries closed in the previous year had re-opened. In Chumparun the manufacture of sugar is confined to certain localities in the Bettiah subdivision. The outturn is estimated at 60,000 maunds, valued at Rs. 54,000, and the bulk of the sugar is exported. The area under sugarcane cultivation is estimated at about 20,000 acres. The crop in the past year was, however, not a particularly good one in this district."

174. The following extract from the Commissioner's General Administration Report gives an account of the sugar industry in the Bhagulpore Division:—

"The cultivation of sugarcane and the manufacture of sugar has still further increased in the Banka and Soopole subdivisions of the Bhagulpore district. In Banka rice lands have in many places been planted out with cane; in the Soopole subdivision molasses is sold to sugar refiners, who have built refineries within that subdivision. The total quantity of molasses manufactured in the Banka subdivision is estimated at 50,000 maunds, half of which is said to have been exported. It is reported that 20,000 maunds of refined sugar have been exported from the Soopole subdivision. In the south of this district the old country mill has become a thing of the past, certain mahajans leasing out Behea mills to the cultivators. The manufacture of molasses is also carried on in the Jamui subdivision of the Monghyr district, where also Messrs. Thompson and Mylne's cane presses have entirely supplanted the old country presses."

175. The different districts from which sugar was largely consigned for Calcutta during the past three years, are shown below:—

176. The exports of drained sugar fell off by 18,685 maunds as compared with 1884-85, and by 2,59,772 maunds as compared with 1883-84; while those of undrained sugar increased by 2,433 maunds, but they were still below the figures of 1883-84 by 56,103 maunds. Last year the East Indian Railway carried the largest quantity of undrained sugar, namely, 1,20,920 maunds, against 59,358 maunds and 27,700 maunds in 1884-85 and 1883-84, respectively. The amount of sugar shipped from Calcutta by sea during those years is shown below:—

	DRAINED SUGAR.						UNDRAINED SUGAR.					
	1883-84.		1884-85.		1885-86.		1883-84.		1884-85.		1885-86.	
	Mds.	Cwts.	Mds.	Cwts.	Mds.	Cwts.	Mds.	Cwts.	Mds.	Cwts.	Mds.	Cwts.
To Foreign ports ...	3,17,773	180,990	17,483	13,852	5,766	4,259	63,789	61,559	35,480	36,045	2,146	2,312
„ Indian „ ...	88,284	64,892	36,559	18,048	36,797	20,500	4,812	2,835	4,500	5,306	4,879	2,978
Total ...	3,06,057	245,882	54,042	31,899	41,563	20,759	68,601	64,394	39,980	41,351	7,025	5,290

In connection with our trade in refined sugar with foreign ports, the Collector of Customs, Calcutta, remarks as follows:—

“The exports of sugar have further declined during the past year by 67 per cent., and the trade appears to be at present in a moribund condition.

“The shipments to the United Kingdom were the smallest since 1880-81, and to all the other countries taking sugar, the quantities are more trifling still. The decline in this trade during the past ten years will be seen from the following comparison. Exports in—

1876-77.	1885-86.
Cwt.	Cwt.
637,090	4,229

“There is always a demand for sugar for local consumption, but this cannot be the cause of the great falling off in exports. The production of beet sugar in Europe continued during the past year, though not on the enormous scale of the year 1884, yet it was still very large and probably beyond the consuming capacity of the markets. Prices in Europe were higher last year than in the previous year, but had no effect in attracting supplies from this market, and there is no doubt that so long as these large crops of beet sugar are produced in Europe, our trade in sugar must continue to be of small dimensions.”

177. After converting drained into undrained sugar at the rate of one maund of the former to $2\frac{1}{2}$ maunds of the latter, the total of the year's traffic aggregated 18,80,153 maunds under imports, and 7,04,307 maunds under exports. The surplus of imports over exports would thus amount to 11,75,846 maunds, against 12,03,266 maunds in 1884-85, and 9,16,781 maunds in 1883-84.

TEA INDIAN.

178. The total amount of Indian tea carried to, and from, Calcutta during the past three years, was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.						EXPORTS.					
	1883-84.		1884-85.		1885-86.		1883-84.		1884-85.		1885-86.

179. The figures exhibit a large increase in the imports as well as the exports compared with 1884-85 and 1883-84. The average price according to the customs returns was 9 annas 9 pies per pound during the past year, against 10 annas in 1884-85, and 10 annas 10 pies in 1883-84. The Collector of Customs, Calcutta, writes on the subject as follows:—

“The year 1884-85 was an unfortunate one for tea proprietors. Prices were low, and there was an increasing outturn to be dealt with, the consequence being that, except in the most economically managed gardens, the results of the year's working were not satisfactory. Having in view the fact that the large crop of that year was apparently too large for the London market to take off profitably, there was a very gloomy outlook for the year under review when the outturn was considerably in advance of the previous year. At the beginning of the past year there were large clearances in London owing to the impression which prevailed that the duty might be raised, and this caused a reduction in stocks of 9 millions of pounds. But these heavy clearances did not mean greater consumption, and the outlook was anything but bright. Contrary, however, to expectations the year just past has been a fairly good one for tea proprietors. Notwithstanding the larger shipments, which exceeded the previous year's by $4\frac{1}{2}$ millions of pounds, prices were better than in 1884, and profits were made by many concerns, the share list showing in some cases that very handsome dividends were paid to shareholders. The average declared value is certainly lower, which would lead to the conclusion that prices generally have been on a lower level, but this has not been the case, as prices in London were for most kinds higher than in the previous year, being at the close of the year 1885 in comparison with 1884 for common kinds 1d. to 2d. per pound dearer; medium 1d. to $1\frac{1}{2}$ d. dearer; fine on about the same level, while finest were slightly lower. The reason of the lower average declared value is no doubt that a larger

quantity of the common grades were manufactured, which would of course cause a reduction in the average price.

"The larger shipments of the past year are owing to the extension to old gardens and to the new areas having come more fully into bearing. This increased production will no doubt continue, especially as in years like the last, prices having been good, further extensions will be stimulated. The advance in the production of tea in India during the past ten years is very marked, the exports of last year being about $2\frac{1}{2}$ times those of 1876-77. Prices have fallen since the average declared value in that year, being 15 annas against 9 annas 9 pies in the past year; but notwithstanding this fall carefully and economically managed gardens can still earn very good dividends for the proprietors."

180 The Commissioner of the Rajshahye Division gives the following account of the tea industry in Julpigoree and Darjeeling during the year under report:—

"This is a very thriving manufacture in Julpigoree and Darjeeling. The Deputy Commissioner of Darjeeling observes that there is scarcely a planter who is not anxious to extend his garden, and he is constantly receiving applications for land in the small area reserved for native cultivation. In the East Teesta tract three new gardens have been opened out, and three more are about to be opened."

Last year the number of tea gardens in these two districts rose by 22 as compared with 1884, the area under cultivation increased by 7,062 acres, and the gross yield showed an advance of 19·23 per cent.

181. Regarding the tea industry in the Chittagong district, the Commission writes:—

"The season was a very good one for all the gardens in the sudder sub-division. The yield was good, and prices were high. The Custom House valuation is misleading, as the larger quantity exported was entered as worthless than the smaller quantity exported in the previous year, whereas it sold for much more. Necessarily valuations, particularly at the beginning of the season, are mere guess work. The gardens in Cox's Bazar subdivision gave a very poor yield."

"They felt the want of rain in the earlier months along with the gardens in the north, and when the latter were enjoying favourable weather later in the season the southern gardens were getting so much rain that the yield was very greatly reduced."

182. The tea industry in the Chota Nagpore Division is said to have done well during the year under report. The Commissioner writes on the subject as follows:—

"The past year is said to have been very favourable for the growth of tea. There was timely and sufficient rainfall during the latter part of the year, so that with an increase of 293 acres in the area under cultivation in Lohardugga and a decrease of 29 in Hazari-bagh, the total outturn in the two districts was altogether 128,235 lb more than that of 1884-85. Mr. Binning, the Manager of one of the Lohardugga gardens, remarks:—"The weather during February and March was all that could be desired, but the hot west winds and want of rain in April and May prevented any large quantity of the tea being made during the first half of the season. The weather during the rains was very favourable to growth, with the result that the past is the best season on record as regards quantity, so far as this concern goes."

183. As regards the imports, the figures show an increase of 12·19 per cent. as compared with 1884-85, and of 19·22 per cent. as compared with 1883-84. This increase was distributed among all the routes of traffic, thus:—by inland steamer 13·35 per cent.; by the Eastern Bengal State Railway 5·62 per cent.; by the East Indian Railway 58·99 per cent., and by sea 4·56 per cent. The quantity brought to Calcutta from each province is shown below:—

		1883-84.		1884-85.		1885-86.

The steamer service of the Eastern Bengal State Railway carried tea from the undermentioned stations in Sylhet:—

			1883-84.		1884-85.		1885-86.	
			Mds.	lbs.	Mds.	lbs.	Mds.	lbs.
In Sylhet—	Chuitack	1,252	103,022	257	21,147	3,166	260,515
	Fenchooogunge	1,350	777,600	2,319	190,821	14,635	1,204,255
	Sylhet	935	76,937	276	22,711	3,719	306,021
	Monomook	11,656	959,125

The quantity imported by the steamers of the East Indian Railway from Caragola Ghât in Purneah was 1,664 maunds (136,924 lbs.) during the past year, against 2,738 maunds (225,298 lbs.) in 1884-85, and 1,463 maunds (120,384 lbs.) in 1883-84.

186. The supply imported by sea during the past three years consisted of exports from the following ports:—

			1883-84.		1884-85.		1885-86.	
			lbs.	Mds.	lbs.	Mds.	lbs.	Mds.
Chittagong	849,598	10,325	853,491	10,372	884,571	10,750
British Burmah	108	1	4,500	55	164	2
Madras	4,347	52	1,386	17	1,070	13

GRAND TOTAL	59,543,920	7,23,625	63,617,323	7,73,127	68,256,494	8,29,506

Regarding the fluctuations in the year's traffic, the Collector of Customs, Calcutta, observes—

"The principal advance in shipments was of course to the United Kingdom. There was also an increase to Australia with a decline to the United States."

"To the United Kingdom the increase was 7½ per cent. The course of the trade in London has not been altogether satisfactory to the importers of tea, for while during some parts of the year prices were fairly good, at others, notably in July, when large quantities of the new crop, which were poor in quality, arrived, heavy losses were suffered."

"The exports of tea to Australia have advanced in comparison with 1884-85 by 11½ per cent., and the figures, with the exception of those for 1882-83, are the highest shown. It is a satisfactory feature in the trade that the exports to Australia are gradually recovering the fall of 1883-84 in however small a degree, as it shows that the experience gained has not been lost, and that no doubt care is being taken to avoid the errors made in previous years. A very rapid expansion cannot well be looked for, but if the exports continue to increase quietly, as they have done in the past two years, relief will be afforded to the London market, upon which nearly all our tea is at present thrown."

"To America the exports have further fallen away, and it would appear that the efforts of the Tea Syndicate in former years in trying to open out this market have been fruitless."

188. The imports exceed the exports by 28,255 maunds in 1885-86, 59,384 maunds in 1884-85, and 53,243 maunds in 1883-84.

Comparison of imports with exports.

This article has been valued in the returns at the rate of Rs. 52 per maund, or 10 annas 1 pic per lb in the brokers' valuations for the year, as explained in paragraph 11 of Chapter II of this Report.

TOBACCO.

189. The amount of tobacco carried to and from Calcutta by all routes during the past three years, was as follows:—

SPECIFICATION OF ROUTES.	IMPORTS.			EXPORTS.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
By Eastern Bengal State Railway ...	3,36,176	2,54,440	3,17,652	2,409	2,055	6,952
" Road ...	2,13,061	1,81,766	1,12,967	86,906	43,807	39,331

" Inland steamer ...	12,078	11,436	26,646	2,120	3,150	6,178
" East Indian Railway ...	19,129	14,990	18,043	4,222	24,203	25,222
" Sea ...	12,191	11,937	10,686	4,02,654	2,54,837	2,80,146
Total ...	7,79,884	6,15,243	6,42,847	5,96,266	4,10,550	4,44,219

190. The tobacco crop turned out very well in the Rajshahye Division. In Rungpore, which is the largest tobacco-producing district in Bengal, the yield was a full one. The following statement is made by the Divisional Commissioner in the weather and crops section of his General Administration Report for 1885-86:—

"The extent of tobacco cultivation is not great in Rajshahye. It is largely grown within the sudder, Nelphamari and Kurigram sub-divisions of Rungpore, and constitute one of the principal articles of the export trade of the district. The chief centre of the trade in the district is at Chpalopak on the Teesta, where the process of rearing, bundling, &c., is extensively carried on. The cultivation of this crop is gradually extending in the Dooars, but as yet it is not well understood there. Along the road from Saibaree to Alipore very fine tobacco is grown."

191. In the Chogdah and Haringhatta thanas of the Ranaghat Sub-division in the Nuddea district, tobacco is extensively grown. The Commissioner writes:—

"The Hingli tobacco is well known for its quality, and commands a good price in the market. In the year under report the crop was successful, and it is reported that the export was 1,17,700 maunds."

192. Regarding the tobacco industry at Poosa, in the Durbhunga district, the Commissioner of the Patna Division writes:—

"The tobacco factory at Poosa, in the Durbhunga district, continues to be kept up, but the Collector doubts whether it has proved successful. Certainly no native cultivator ever thinks it worth while to try the European method of curing."

193. The total quantity brought to Calcutta during the past year was 4.49 per cent above the imports of the preceding year, but 20.15 per cent. below those of 1883-84.

Imports.

The advance in the supplies carried by the Eastern Bengal State Railway amounted to 63,212 maunds on the returns of 1884-85, while the imports

by road fell by 68,799 maunds. The boat traffic, however, rose from 1,40,674 maunds in 1884-85, to 1,56,853 maunds in 1885-86, and the inland steamer traffic from 11,436 maunds to 26,646 maunds. The imports of tobacco were drawn from the following provinces:—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Bengal	7,07,849	5,57,859	5,89,672
Behar	57,861	41,690	40,039
Madras	5,887	5,087	4,615
North-Western Provinces and Oudh ...	1,943	1,767	2,256
Orissa	2,037	2,259	1,612
Other places	4,307	6,581	4,653
Total	7,79,884	6,15,243	6,42,847

Compared with 1884-85, there was very little change in the imports from Behar, but the figures under Bengal showed an advance of 5.71 per cent., and those under the North-Western Provinces and Oudh of 22.01 per cent.

194. The following statement shows the principal river marts whence the shipments were largest during the past year, the figures of the preceding two years being also noted:—

Marts.	Districts.	1883-84.	1884-85.	1885-86.
		Mds.	Mds.	Mds.
Bhuddressar	Hooghly	78,416	61,265	67,626

To Foreign Ports—						
United Kingdom	9,125,555	1,10,901	5,335,712	64,844	739,455	8,986
Other Foreign ports	5,595,879	68,005	3,420,537	41,569	3,843,729	46,712
Total	14,721,434	1,78,906	8,756,249	1,06,413	4,583,184	55,698
GRAND TOTAL	33,132,694	4,02,654	20,969,442	2,54,837	23,051,970	2,80,146

Regarding the trade in unmanufactured tobacco with foreign ports, the Collector of Customs, Calcutta, writes :—

“ There has been a decline in the exports of unmanufactured tobacco of 49 per cent. during the past year in comparison with 1884-85, and the figures are the lowest shown in the above table.

“ The exports to the United Kingdom have fallen heavily by over 4½ millions of pounds, which is about equal to the total decline shown. There were larger exports to France, Spain (Gibraltar), and to Belgium, with a heavy decline in exports to Holland.

“ In point of value the most important portion of the trade last year was with Gibraltar, the figures showing a gradual increase for the past four years. This tobacco, as pointed out in previous reports, is not consumed in Gibraltar itself, but is transmitted to Spain when opportunities occur.

“ The trade with Italy has apparently ceased altogether, there having been no shipments to that country for two successive years.”

198. Last year the surplus of imports over exports amounted to 1,98,628

Quantity not exported before the close of the year. maunds, against 2,04,693 maunds in 1884-85, and 1,83,618 maunds in 1883-84.

CHAPTER X.

INLAND AND SEA-BORNE TRADE OF CHITTAGONG.

The total quantity of merchandise registered at Chittagong in connection with its inland trade carried by country boats during the past three years, was as follows :—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
Imports	19,22,906	19,82,753	26,69,925
Exports	4,71,905	6,19,522	7,21,635
	Total	...	23,94,811	26,02,275	33,91,560

It will be seen that the gross weight of goods carried during 1885-86 was 30·33 per cent. in excess of the trade of the previous year, and 41·62 per cent. over that of 1883-84. The import trade shows a steady development, the figures for the past year being 6,87,172 maunds and 7,47,019 maunds greater than those of the two years 1884-85 and 1883-84, respectively. Under exports there was an increase of 1,02,113 maunds as compared with 1884-85, and of 2,49,730 maunds as compared with 1883-84. The chief staples which showed a marked increase were rice, paddy, timber, cocoanuts, undrained sugar, brass and copper, and betelnuts.

2. The total value of the inland trade during the past three years is shown below, compared with the sea-borne trade of Chittagong in those years :—

			Imports.	Exports.	Total.
			Rs.	Rs.	Rs.
Inland trade	{ 1883-84	58,82,768	13,98,845	72,81,613
	{ 1884-85	77,39,259	18,78,726	96,07,985
	{ 1885-86	76,45,714	21,66,681	98,12,395
Sea-borne trade...	{ 1883-84	1,16,99,673	1,30,57,055	2,47,56,728
	{ 1884-85	1,12,30,570	1,03,16,828	2,15,47,398
	{ 1885-86	94,85,595	1,13,25,416	2,08,11,041

As compared with 1884-85, the total increase in the value of the inland trade was 2·13 per cent., while the figures of the sea-borne trade showed a decrease of 3·41 per cent. Concerning the sea-borne trade, the Commissioner of the Chittagong Division writes :—

"The past year has been in some respects one of progress, while in others there has been apparent retrogression. I say apparent, because I think that, when looked into, the retrogression is more apparent than real, and that the trade of the port has in the past year stood successfully a trial which it is not likely again to have to undergo."

3. *Lime and Limestone.*—The large increase noticed in 1884-85 under this head was not maintained during the year under report, the quantity imported being 28,084 maunds, against 38,759 maunds in 1884-85, and 10,886 maunds in 1883-84. The Collector of Customs, Chittagong, attributes the decrease to fewer buildings having been erected during the year, and to preference having been given to houses roofed with corrugated iron. As in previous years, Naraingunge, with 27,310 maunds, supplied the largest quantity during the past year.

4. *Caoutchouc.*—There was a very large falling off in the trade in caoutchouc, the total exports from Chittagong by coasting vessels amounting in value to Rs. 762, against Rs. 8,480 in 1884-85, and Rs. 10,443 in 1883-84. It is stated that last year the traders were not able to go to the Hill Tracts to procure the article on account of the unsettled state of the Lushai country.

5. *Cotton, raw.*—The amount of raw cotton exported from Chittagong by country boats showed an advance of 2,479 maunds and 5,518 maunds over the figures of 1884-85 and 1883-84, respectively; while in the exports by coasting vessels, the figures showed an increase of Rs. 18,366 in value as compared with 1884-85, and of Rs. 6,836 as compared with 1883-84. The quantity of

raw cotton exported to Naraingungo during the past three years was as follows:—

Year.			By country boats.	By sea-going vessels.	Total.
			Mds.	Mds.	Mds.
1883-84	640	22,676	23,316
1884-85	792	22,684	23,476
1885-86	3,500	22,906	26,406

6. *Cotton twist and yarn.*—According to the coast trade returns, the value of the imports into Chittagong was Rs. 1,93,532, showing a decrease of Rs. 26,253 as compared with 1884-85, and of Rs. 30,781 as compared with 1883-84. The falling off is attributed to smaller local demand. Foreign piece-goods are preferred to country-made goods, and the demand for twist and yarn for manufacture has therefore decreased.

7. *Cotton piece-goods, European.*—The total value of the import trade carried by coasting vessels under this head was Rs. 17,84,928, against Rs. 18,63,168 in 1884-85, and Rs. 17,04,493 in 1883-84. The decrease as compared with the previous year is not great, and is said to be due to large stocks being in hand at the beginning of the year. The value of piece-goods sent by country boats to the interior of the Chittagong district was Rs. 4,15,540, against Rs. 6,00,071 in 1884-85, and Rs. 3,17,611 in 1883-84.

8. *Jute, raw.*—The total quantity of raw jute imported from Naraingunge was 13,02,390 maunds, against 18,53,545 maunds in 1884-85, and 14,81,976 maunds in 1883-84. The amount of raw jute shipped for England from this port showed a decrease of 1,14,659 maunds on the figures for 1884-85, and of 1,16,431 maunds on those for 1883-84, as shown below:—

Exports to the United Kingdom from Chittagong.

		1883-84.	1884-85.	1885-86.
Quantities in Cwts.	...	1,064,570	1,063,269	979,029
Ditto in Mds.	...	14,48,998	14,72,226	13,52,507
Total value in Rs.	...	76,69,330	61,88,602	64,70,413

The Commissioner of the Chittagong Division makes the following remarks regarding the large falling off in the exportation of jute noticed above:—

“The past year has been a very memorable one in the jute trade of this place. This port owes its jute trade to two causes: the cheapness of freight from Naraingunge to this place as compared with the rates to Calcutta, and the cheapness of this port as compared with Calcutta. The first of these advantages was entirely lost during the past season, and it actually cost more to bring jute here than to take it to Calcutta. The two great River Steamer Companies entered into a competition, which, if persevered in, could only end in the ruin of both. The Eastern Bengal State Railway apparently joined in the contest, though it is difficult to see why a State Railway should have had anything to do with such rivalry. The result was that freights for loose jute went down to 2 annas a maund by steamer to Calcutta direct, and to 2½ annas by Goalundo, which is equivalent to about 1½ and 2 annas for baled jute. Carriage from Naraingunge to Chittagong even now with reduced freight costs nearly 3 annas a maund when all extra expenses, such as insurance, &c., are reckoned, so that the rate of freight was considerably in favour of Calcutta. The result of carrying at these rates was enormous depreciation of the shares of both the Steamer Companies, one of which has finally been bought up by the other, and a loss of 9 lakhs of rupees to Government on the Eastern Bengal Railway. Part of this last loss may undoubtedly be put down to the break in the line, but by far the greater part is due to carrying jute at a price which would barely cover working expenses, and which left nothing for wear and tear or interest. The firms who ship from here would undoubtedly have taken full advantage of the favourable rates to Calcutta had they not entered into contracts with brig owners and chartered ships for this port which they were bound to fulfil. It is very unlikely that freights to Calcutta will be again so low. In former days freight *via* Goalundo used to be 6 annas at the beginning of the season, and they were raised to 9 annas or even higher as competition increased. The difference between these rates and 2½ annas is very marked, and it is quite clear that the latter rate does not even pay running expenses. Shippers have admitted that these rates cannot be charged in the current year by again chartering ships, and I trust that this port will not have to encounter such competition again, and that, if it should have to do so at the hands of private companies, the State Railway will not join in the race to ruin.”

9. *Gunny-bags.*—The total value of gunnies imported by sea-going vessels was Rs. 1,31,617, showing an advance of Rs. 29,608 over the trade of 1884-85, but a falling off of Rs. 49,856 as compared with 1883-84.

10. *Cocoanuts.*—The import trade by country boats during the past year showed an increase of 18.22 per cent. as compared with 1884-85; it was

nearly four times the trade of 1883-84. The increase is ascribed to greater demand for local consumption.

11. *Rice and paddy.*—The aggregate quantities of rice and paddy carried to Chittagong by country boats during the past three years, were as follows:—

			1883-84.	1884-85.	1885-86.
			Mds.	Mds.	Mds.
Rice	11,96,152	7,89,611	11,40,572
Paddy	4,49,116	4,26,694	9,61,463

The past year has been an average rice season, the previous year having been abnormally bad. As compared with 1884-85, the increase in the rice trade was 44·46 per cent., and in paddy 125·33 per cent. These staples are chiefly imported from Noakholly, Tipperah, Backergunge, and Dacca, and are destined almost entirely for exportation by sea, the local produce being only sufficient to meet local consumption. The different marts which contributed to the past year's trade are—

Imports of rice into Chittagong during 1885-86.

			Quantity. Mds.				Quantity. Mds.
NOAKHOLLY—				CHITTAGONG—			
Hatia	1,77,300	Parkee	22,000

Other marts	4,31,312				
Total			10,27,108	Total			1,12,275
				Other place			1,189

Imports of paddy into Chittagong during 1885-86.

			Quantity. Mds.				Quantity. Mds.
NOAKHOLLY—				CHITTAGONG—			
Chur Shiddhi	1,21,277	Napteg	60,000
Chur Badoo	1,17,729	Ramu	45,000
Sundcep	72,478	Abu Tarruf	40,000
Hatia	33,143	Rajoo	30,000
Nalchera	20,721	Mahajun's Hât	26,000
Other marts	48,408	Parkee	14,000
Total			4,13,756	Total			5,40,007
				Other place			7,700

The exports of rice and paddy from this port to foreign countries during the past three years were as follows:—

			1883-84.	1884-85.	1885-86.
Rice	{ Cwts.	...	663,939	407,442	623,261
	{ Mds.	...	9,03,695	5,54,573	8,48,327
Paddy	{ Cwts.	...	12,674	} Nil	6,612
	{ Mds.	...	17,214		9,000

The advance under rice was 52·97 per cent. as compared with 1884-85, but the figures of the past year were below the trade of 1883-84 by 6·12 per cent. The Collector makes the following remarks regarding the rice trade:—

"Increase under rice Rs. 10,69,539. Large exportation to different places; in some instances to meet the short exportation of the previous year."

The surplus of imports by country boats over the quantities exported by sea during the past three years was as follows:—

			1883-84.	1884-85.	1885-86.
Rice	{ Cwts.	...	214,866	172,607	214,710
	{ Mds.	...	2,92,457	2,34,938	2,92,245
Paddy	{ Cwts.	...	317,315	313,489	699,768
	{ Mds.	...	4,31,902	4,26,694	9,52,463

Out of this, the quantities shipped for the different customs ports in connection with the coasting trade were as follows:—

			1883-84.	1884-85.	1885-86.
Rice	{ Cwts.	...	318,942	146,116	208,255
	{ Mds.	...	4,34,115	1,98,880	2,83,458
Paddy	{ Cwts.	...	315,916	203,532	432,088
	{ Mds.	...	4,29,997	2,77,034	5,88,120

12. *Hides and skins.*—The increase noticed in the report for 1884-85 was not maintained in 1885-86, during which year the value of the exports by sea-going vessels amounted to Rs. 2,01,905, against Rs. 2,63,953 in 1884-85, and Rs. 2,57,105 in 1883-84.

13. *Oils.*—The total value of oils imported by sea-going vessels was Rs. 1,12,211, against Rs. 1,12,330 in 1884-85, and Rs. 1,45,880 in 1883-84. The boat traffic returns of the inland trade show an importation of 5,136 maunds of oils, against 32,537 maunds in 1884-85, and 12,983 maunds in 1883-84. Two thousand and forty-four maunds of the last year's supply was drawn from Calcutta. The falling off under the latter head is said to be due to a large quantity of kerosine oil having being imported in the previous year.

14. *Salt.*—The total quantity of salt imported into Chittagong by sea was 2,69,088 maunds, against 6,30,270 maunds in 1884-85, and 4,57,363 maunds in 1883-84. The quantity of salt exported from Chittagong by country boats during those years was as follows :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
To Chittagong	1,86,994	1,92,063	1,01,557
„ Noakholly	25,894	43,649	38,634
„ Other districts	2,750	4,982	5,306
Total	2,15,638	2,40,684	1,45,497

In addition to these supplies, 1,24,786 maunds were sent to Naraingunge by sea-going vessels, against 2,83,002 maunds in 1884-85, and 2,48,860 maunds in 1883-84. The decrease was due partly to the large stocks in Naraingunge at the beginning of the year, and partly to the low rates of freight from Calcutta, which made it cheaper to get salt from that city.

The Commissioner of the Chittagong Division writes as follows :—

“The past year has been a very bad year as regards the salt trade. The importations of the last five years are shown below :—

	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.
Tons	7,769	10,407	16,802	12,153	9,878

“The amount is thus smaller than any year since 1881-82. The main cause of this was the excessive importations of 1884-85, which were not worked off till near the end of the year under report. The average importations of the two years 1884-85 and 1885-86 almost equal that of 1883-84, and there is no doubt that in the last three years the salt trade has expanded very considerably. The competition of Messrs M. David and Company with the native dealers caused the excessive importations of 1884-85. When Messrs M. David and Company withdrew and made over their stock of salt to the old dealers, they naturally ceased importing until they disposed of the stock in hand, and they also raised the price to make amends for the low price which competition had forced them to sell at previously. Towards the close of the current year, competition again began, and anticipated increased sales, though not to the extent reached in 1884-85.”

15. *Mustard and rape-seed.*—The amount of mustard and rape-seed imported by country boats was 14,696 maunds, against 32,442 maunds in 1884-85, and 5,164 maunds in 1883-84. Last year the quantity despatched from Naraingunge was only 9,629 maunds, against 28,207 maunds in 1884-85.

16. *Spices.*—According to the boat traffic returns, the importation of betelnuts fell off from 18,384 maunds in 1884-85 to 12,395 maunds in 1885-86, but it was in excess of the supplies received in 1883-84 by 8,068 maunds. Similarly, under “All other kinds” of spices, the imports during 1885-86 showed a large decrease of 58,884 maunds as compared with 1884-85, but a slight increase of 4,239 maunds as compared with 1883-84. The falling off was chiefly due to the partial failure of the chilly crop.

17. *Sugar.*—The import traffic under this head carried by country boats during the past three years was as follows :—

	1883-84.	1884-85.	1885-86.
	Mds.	Mds.	Mds.
Drained sugar	3,200	7,341	7,553
Undrained „	36,414	48,381	40,559

18. The total value of sugar imported coastwise during the past year was Rs. 83,679, against Rs. 97,155, in 1884-85, and Rs. 81,180 in 1883-84.

19. *Tea, Indian.*—The quantity of Indian tea sent to Calcutta from Chittagong by coasting vessels was 884,649 lbs., against 853,491 lbs. in 1884-85, and 849,598 lbs. in 1883-84. The quantity sent direct to the United Kingdom was 5,339 lbs., against 3,847 lbs. in 1884-85, and 726 lbs. in 1883-84.

20. *Tobacco.*—The total value of tobacco imported into Chittagong by sea-going vessels amounted to Rs. 98,736, against Rs. 83,065 in 1884-85, and to Rs. 1,54,594 in 1883-84. The supply imported from Naraingunge was as follows:—

Year.				By country boats.	By sea-going vessels.	Total.
				Mds.	Mds.	Mds.
1883-84	1,192	25,012	26,234
1884-85	10,004	7,234	17,238
1885-86	6,555	13,936	20,491

The quantity shipped for foreign ports was 9,673 lbs. (118 maunds), against 16,176 lbs. (196 maunds) in 1884-85, and 70,136 lbs. (852 maunds) in 1883-84.

CHAPTER XI.

SEA-BORNE TRADE OF ORISSA.

The following statement shows the total value of the sea-borne trade of the Orissa ports, exclusive of Government transactions, during the past three years :—

1	2	3	4	5	6	7	8	9	10
DISTRICTS.	IMPORTS.			EXPORTS.			GRAND TOTAL.		
	Goods traffic.	Specie.	Total.	Goods traffic.	Specie.	Total.	Goods traffic.	Specie.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Balasore	1883-84 57,72,178 1884-85 74,40,060 1885-86 70,77,637	7,31,030 14,55,537 7,80,420	65,03,208 88,95,597 78,58,057	38,80,444 45,80,486 42,00,200	6,80,335 16,69,730 8,95,618	45,46,779 62,50,216 50,95,808	90,32,022 1,20,27,140 1,18,77,927	14,17,565 31,25,267 16,76,038	1,10,40,997 1,51,22,115 1,35,53,965

Pooree	1883-84 38,774 1884-85 13,497 1885-86 8,610	1,70,000 2,000	2,08,774 13,497 10,610	6,72,599 7,65,315 3,63,065	6,72,599 7,65,315 3,63,065	7,12,873 7,68,812 3,61,065	1,70,000 2,000	8,82,873 7,68,812 3,63,065
Total	1883-84 60,80,874 1884-85 76,67,884 1885-86 78,61,089	9,11,030 14,57,137 7,86,420	69,97,904 91,15,021 86,48,109	68,67,658 70,43,801 74,91,900	6,80,335 16,69,730 8,95,618	75,53,993 87,19,531 83,87,627	1,20,54,532 1,50,41,683 1,53,54,508	16,07,505 31,26,267 18,81,038	1,45,51,507 1,87,04,522 1,70,35,636

2. So far as the goods traffic is concerned, the aggregate value of the import trade showed an advance of 2·67 per cent. on the returns of 1884-85, and of 29·74 per cent. on those of 1883-84. The export trade exhibited a decrease of 6·16 per cent. as compared with 1884-85, but an increase of 9·09 per cent. as compared with 1883-84. If the imports and exports are taken together, the result is a decrease of 1·84 per cent. on the trade of 1884-85, but an increase of 15·63 per cent. on that of 1883-84. In the case of the Balasore port, there was an advance of 3·10 per cent. under imports, but a decrease of 8·30 per cent. under exports. The Collector of Sea Customs, Balasore, writes :—

“The year 1884-85 was a year of exceptional commercial prosperity. There came in that year a full bumper harvest, after a series of good harvests, so that the district perfectly teemed with produce. At the same time, a partial failure of the crops in Bengal caused a very strong demand at high prices. The consequence was an exceptional access of commerce that was really miraculous and impossible to be maintained. The year 1883-84 was far better than any previous year, but in the year 1884-85 our exports increased 44 per cent. and our imports by 36 per cent.

“It was not to be expected that this high standard could be maintained, unless the exceptional causes of it were also maintained in 1885-86. The splendid harvest *has* been repeated, but the strong demand from Bengal, which was a very striking fact in 1884-85, is wanting in 1885-86, yet the result is not far from that of 1884-85.”

3. In Cuttack the value of the goods traffic under imports was below the figures of the previous year by 10·76 per cent., and 35·82 per cent. below those of 1883-84. The decrease occurred chiefly in the coasting trade, and the Collector attributes it “to the diversion of trade from False Point to Chandbally, and the stoppage of the British India Steam Navigation Company’s steamers from calling on their inward journeys.” In the export trade there has been an advance of 10·97 per cent. and 25·87 per cent. as compared with 1884-85 and 1883-84, respectively.

4. As regards Pooree, the falling off in value under merchandise is considerable, amounting to 36·21 per cent. in the imports, and to 53·26 per cent. in the exports, as compared with 1884-85, and to 53·21 per cent. under the former, and to 47·51 per cent. under the latter, as compared with 1883-84; but the Commissioner remarks that “in comparison with the figures of the other two earlier years, the trade of the year under report shows an increase, and specially vast increase over the year 1881-82.”

5 The following statements illustrate the direction of the import and export trade of the Orissa ports, district by district, during the past three years:—

Imports into Orissa.

										From Calcutta.	From other Indian ports.	From Foreign ports.	Total.
										Rs.	Rs.	Rs.	Rs.
Balsore	1883-84 64,71,738 1884-85 88,01,414 1885-86 84,41,061	31,470 10,783 10,906	65,03,208 89,02,197 84,58,067
Cuttack	1883-84 2,22,818 1884-85 1,48,478 1885-86 47,906	61,884 41,899 76,782	220 9,450 55,801	2,84,923 1,99,327 1,79,448

Pooree	1893-94 1894-95 1895-96	5,05,512 5,56,843 1,00,570	1,67,087 1,08,472 1,66,485	6,72,699 7,65,313 3,53,066	
Total										...	1893-94 1894-95 1895-96	40,30,348 62,15,610 40,04,003	19,19,655 24,31,706 17,97,423	16,08,990 20,76,266 25,86,113	75,53,993 96,53,631 8,87,527

It will be observed that of the import trade, Calcutta contributed 98·24 per cent., but the distribution of the export trade was 47·75 per cent. to Calcutta, 21·43 per cent. to other Indian ports, and 30·82 per cent. to Foreign ports.

6. The most important items of the imports into Orissa during the past three years are shown in the following statement:—

1		2	3	4	5	6	7	8	9	10

Treasure	Rs.							9,11,030	14,57,137	7,83,420

7. *Apparel*.—The total trade amounted in value to Rs. 3,09,399, showing a decrease of Rs. 67,734 and Rs. 1,69,595 as compared with the two years 1884-85 and 1883-84, respectively. The value of apparel imported into Balasore from Calcutta was Rs. 3,07,969, against Rs. 3,76,321 in the previous year.

8. *Cotton twist and yarn.*—The trade in European twist and yarn showed a decrease of Rs. 2,77,007 in value as compared with 1884-85, and of Rs. 1,57,618

as compared with 1883-84. The total value of Indian twist and yarn, however, rose from Rs. 2,32,737 in value in 1883-84, to Rs. 5,06,950 in 1884-85, and Rs. 8,33,195 in 1885-86.

9. *Cotton piece-goods*.—This traffic shows a large increase of Rs. 2,08,132 in value as compared with 1884-85, and of Rs. 7,04,408 as compared with 1883-84.

10. *Gunny bags*.—The decrease in the number of bags imported was 28·52 per cent. as compared with 1884-85, and 3·10 per cent. as compared with 1883-84. Out of the total supply during the past year, 2,016,675 bags against 2,790,865 bags in the previous year were imported into the Balasore district, and 62,650 bags against 104,900 bags in the previous year into Cuttack, whence the exports of grain to foreign ports were largest.

11. *Metals*.—The total weight of metals was 38,837 maunds, against 46,277 maunds in 1884-85, and 36,673 maunds in 1883-84. The largest supply, amounting to 38,641 maunds, against 45,671 maunds in 1884-85, was sent to Balasore.

12. *Oils*.—This trade rose from 22,871 maunds in 1883-84 to 35,548 maunds in 1884-85, and 47,601 maunds in 1885-86.

13. *Ghee*.—The total quantity imported showed an increase of 1,038 maunds and 577 maunds as compared with 1884-85 and 1883-84, respectively.

14. *Spices*.—The total quantity under this head decreased by 5,177 maunds as compared with 1884-85, but increased by 1,113 maunds as compared with 1883-84.

15. *Betel-nuts*.—This traffic showed an increase of 11,209 maunds as compared with 1884-85, but it was almost equal to the trade of 1883-84.

16. *Tobacco*.—The fluctuations under this head are not important, the condition of the trade being almost stationary.

17. *Treasure*.—The value of specie imported otherwise than by Government was Rs. 7,85,420 against Rs. 14,57,137 in 1884-85, and Rs. 9,11,030 in 1883-84.

18. The principal articles in the export trade of the Orissa ports during the past three years are shown in the following statement:—

	1	2	3	4	5	6	7	8	9	10

The decrease in maunds under rice aggregated 10·66 per cent. as compared with 1884-85, and 17·77 per cent. as compared with 1883-84. The total quantity of paddy showed a decrease of 1,71,099 maunds as compared with 1884-85, but a considerable increase of 2,99,096 maunds as compared with 1883-84. The Collector of Customs, Balasore, writes:—

“It will be seen that exports in paddy and rice have decreased during the year of report both in quantity and value as compared with the figures of the preceding year. But nevertheless the value of produce has increased—

In 1883-84	Paddy sold at 1 7 2 the cwt.
„ 1881-85	„ „ 1 12 7 „
„ 1885-86	„ „ 1 14 1 „
„ 1883-84	Rice sold at 2 6 0 „
„ 1881-85	„ „ 2 13 0 „
„ 1885-86	„ „ 2 15 0 „

so that agriculturists have got higher prices than ever for their produce; only a smaller quantity has passed out of the district through the Customs House.”

The different ports to which rice and paddy were exported during the past three years are—

		TO INDIAN PORTS.					TO FOREIGN PORTS.								
		Cuttack.	Madras.	Bombay.	Calcutta.	Other ports.	Total.	Manila.	Cebu.	Colombo.	Calle.	Maldives.	Other ports.	Total.	Grand total.

20. *Hides.*—The trade in hides decreased by 151,738 pieces as compared with 1884-85, and by 114,447 pieces as compared with 1883-84.

21. *Timber and Sleepers.*—The falling off under this head amounted to 67,706 maunds as compared with 1884-85, and to 31,938 maunds as compared with 1883-84.

22. *Lac.*—The exports of lac were comparatively large during the year, namely, 6,080 maunds against 3,789 maunds in 1884-85, and 5,657 maunds in 1883-84.

23. *Treasure.*—The value of specie exported otherwise than by Government was Rs. 8,95,618, showing a decrease of Rs. 7,74,112 on the trade

of 1884-85, and an increase of Rs. 2,09,283 on that of 1883-84. The Collector of Balasore writes :—

“ At the busy time of the year it has been the practice for the merchants to present notes at the Treasury, and draw out cash against them, which cash they remit by steamer to Calcutta. All merchants who lived near enough to the treasury had a fair and even opportunity of availing themselves of silver lying at the Treasury. But the Accountant-General has now taken the matter into his own hands. He issues supply notes to a few of the merchants in such large amounts that we have been unable to cash notes for the others, who have therefore had to make their remittances otherwise than in cash.”

APPENDIX.

APPENDIX A.

List showing the deduction to be made on account of packing, and the valuation of all articles of trade adopted in registering traffic on trade routes, during the year 1885-86.
